

Table of Contents

Parametric Investigation of Photochemical Machining of SS- 430 for Manufacturing of Micromesh D. Agrawal, D. Kamble and N. Ambhore	1
Force Controlled Low Cycle Fatigue (LCF) Life Evaluation Methodology Based on Unstabilized Material Properties I. Men	17
An Electromechanical <i>In Situ</i> Viscosity Measurement Technique for Shear Thickening Fluids G. Haydarlar, M.A. Sofuoğlu, S. Gürgen, M.C. Kushan and M. Tekkalmaz	33
Influence of the Curvature Correction on Turbulence Models for the Prediction of the Aerodynamic Coefficients of the S809 Airfoil M. Nebbache and A. Youcefi	45
Experimental Investigations on Salt Gradient Solar Pond with Additional Non-Convective Zone for Improved Thermal Performance and Stability D.B. Sadaphale, S.P. Shekhawat and V.R. Diware	59
Comparative Study of Electric Machines for Stirling Generator Application V. Zogbochi, P. Chetangny, J. Aredjodoun, D. Chamagne, G. Barbier, S. Houndedako and A. Vianou	73
Simulation and analysis of a Single Mode Indium Gallium Arsenide Phosphide Vertical Cavity Surface Emitting Laser for Optical Communication O.O. Moatlhodi, R. Samikannu and N.M.J. Ditshego	93
Bridge Resistance Updating Based on the General Particle Simulation Algorithms of Complex Bayesian Formulas X.P. Fan, S. Wang and Y.F. Liu	111
The Role of Smart Technologies to Improve the Utilization of Wood Uses in Engineering Applications: A Review S.H.R. Ali and G.A. Ebrahim	123
Assessment of Capacity and Impacts of 8.5 MW Gas Fired Power Plant on Soil and Water Quality in Lekki, Lagos State Nigeria F.O. Kehinde, A.V. Adebawale, O.O. Sunday and B. Olumide	137
