

Table of Contents

Chapter 1: Machine Modelling and Designing

Numerical Analysis of Steel Elevator Car Frame: Sensitivity to Element Connections C.B. de Carvalho Bello, D. Baraldi, G. Boscato, A. Cecchi, C. Rebucci and D. Trabucco	3
Probabilistics Design and Analysis of Metal Interference Fits N.H. Loc and L.V. Phong	11
The Impact of Nanofluid on Natural Convection in an Isosceles Rectangular Container with a Heat Source B. Abdelkrim, D. Taloub, A. Amroune and Z. Driss	19
Harvesting Electrical Energy from Automatic Sliding Doors Use M.I. Bin Khalit, R.A. Hurtis, B.A. Khidhir and H. Anuar	29
Dynamic Characteristics of a 5-kN Thrust Gas Turbine Front Bearing Composed of a Vibration Absorber Element and Deep Groove Ball Bearing B.J. dos Santos, D. Sacrini, A.V. Rodrigues, G. Creci and J.C. Menezes	43

Chapter 2: Construction Materials

Effect of the Addition of Aggregates Derived from Used Tires on the Mechanical Behavior of Clay F. Meziani, K. Amar and Y. Mourad	57
Effect of Long-Term Aging on the Behavior of Batu Pahat Soft Clay-Modified Asphalt Mixture A.M.A. Musbah, A.S.B. Ali, A.M. Albeddal, M.G. Musbah and H.M.H. Ali	69

Chapter 3: Environmental Research

The Conductivity of the Oceans. Analysis Based on the Seismic Energy Theory C.V. Ramírez, Y.V. Romero and M.V. Romero	81
Simulation-Optimization Modeling Techniques for Groundwater Management and Sustainability: A Critical Review A.M. Saqr, M.G. Ibrahim, M. Fujii and M. Nasr	89
Recent Applications of Flash Flood Hazard Assessment Techniques: Case Studies from Egypt and Saudi Arabia M.M. Mansour, M.G. Ibrahim, M. Fujii and M. Nasr	101
