Water Absorption, Moisture Content, and Capillarity Action in Wood: A Comparative Analysis of Fir, Pine, Beech, and Oak K. Xhexhi and B. Aliaj	1
Status and Trends in Fusion-Based Surface Modification Techniques for Self-Lubricating High Temperature Properties in Austenitic Stainless Steel Using Refractories T.F. Lawal, W.O. Zubair, K.A. Adedeji, N.A. Raji and M.O.H. Amuda	17
Innovative Strategies for High-Efficiency, Low-Cost, Lightweight III-V Multijunction Solar Cells B.M.Y. Jeco-Espaldon	45
Effect of Nanofluids on Geologic Storage of Carbon Dioxide: A Critical Review N. Darougeheh, A.J. Chamkha, A. Biglar and M.H. Emami	51
Landscaping and Trajectories of Additive Manufacturing Technologies in the African Oil and Gas Industry D. Hagedorn-Hansen, J. Strauss and V.O. Barberopoulos	65
Design and Fabrication of a Small-Capacity Integrated Filling, Capping, and Labeling Machine for Bottles P.Q. Trung	73
Performance Improvement of an Open Cycle Regenerative Gas Turbine Power Plant Using an Inlet Air Cooling System N. Barman, S. Halder and S. Simlandi	79
Evaluation of Distribution System Reliability with Intelligent Placement of Distributed Generation (Case Study: Eastern Ethiopia Wuchale Distribution Feeder) Y.A. Alemu, T.T. Yetayew, Y.A. Temesgen and E.A. Tegegn	91
Fabrication of Plant-Based Customized and Nutritious Foods by Food Layered Manufacturing (FLM) R. Soni, K. Ponappa and P. Tandon	115
Human Factor Engineering and Incident Prevention in Oil and Gas Welding Operations D.O. Thomas, O.E. Nwaichi and C. Patricks	121
