

# Table of Contents

## Preface and Sponsor

## Chapter 1: Applied Mechanics

|   |    |
|---|----|
| <b>Numerical Simulation for Mechanical Behavior of Carbon Black Filler Particle Reinforced Rubber Matrix Composites</b><br>Q. Li and X.X. Yang                                | 1  |
| <b>The Effect of Load Direction on the Structure Capacity of Human Proximal Femur during Falling</b><br>L. Fu, H.W. Zhao, Y.X. Zhu, Q. Zou, C.Y. Geng, B. Zhao and C.S. Liu   | 7  |
| <b>Influence of Water Pipe Cooling on Thermal Stresses in Mass Concrete</b><br>X.L. Bai, Z.Y. Wu, W.L. Ma and D.F. Wang   | 12 |
| <b>Evaluating Shakedown for Structures Based on the Element Bearing-Ratio</b><br>W. Zhang, L.F. Yang, C.X. Fu and J. Wang   | 16 |
| <b>An Experimental Research and Analysis of the Law of Explosive Stress Wave Propagation of Cylindrical Charge</b><br>X.Y. Jiang, S.L. Yan and W. Liu                         | 24 |
| <b>Failure Modes of Serially Isolated System under Large Deformation</b><br>Y.F. Du, Z.D. Lin and Q.K. Zhu  | 30 |
| <b>Fitting Theory and Method of Hyper-Elastic Materials' Nonlinear Constitutive Relations Base on BP Neural Network</b><br>B. Yang, L. Liu and S.K. Zhang                     | 36 |
| <b>Numerical Analysis of KI of Semi-Elliptical Surface Crack in Steel Structure Strengthened with FRP under Tensile Load</b><br>C.Y. Zhao, P.Y. Huang, H. Zhou and X.H. Zheng | 42 |
| <b>Numerical Study on Hydrodynamic Behavior of Deepwater Spar Platform with Different Mooring Configurations</b><br>J.W. Sun, X.T. Fan, X.Z. Wan and S.X. Liu                 | 50 |
| <b>Slope Stability Analysis Using Unified Strength Theory</b><br>Z.Y. Ma, H.J. Liao and M.H. Yu   | 59 |
| <b>Study of Destruction Mechanism of Floating-Roof Oiltank under Combustible Gaseous Explosion in a Small Scale Experiment</b><br>S.Z. Lu and W. Wang                         | 65 |
| <b>Global Stability Analysis of the Wake behind a Circular Cylinder Based on the POD-Chiba Method</b><br>W. Zhang, X. Wen and Y.Q. Jiang                                      | 72 |
| <b>Stress Intensity Factor of Peripheral Edge Crack around a Spherical Cavity under Internal Pressure Corrected</b><br>S. Shi, Q.Z. Wang and P.J. Li                          | 77 |

## Chapter 2: Civil Engineering

|   |     |
|---|-----|
| <b>A Study on Deformation Trend of Concrete Dams</b><br>J.L. Qian, Y. Zhang and M.S. Zheng  | 82  |
| <b>Wind Energy Utilization of High-Rise Buildings Roof Numerical Analysis</b><br>Y.H. Chen, X.Q. Peng and R. Yang   | 87  |
| <b>Application of Laboratory Tests Results of Dowel Joints in Cement-Splinter Boards VELOX into the Fully Probabilistic Methods (SBRA Method)</b><br>A. Lokaj, K. Vavrusova and E. Rykalová | 95  |
| <b>Deform Performance of Spring Vibration Isolating Turbine-Generator Foundation under Strong Earthquake Actions</b><br>T.J. Qu, X.Y. Wang, D.Y. Meng and D. An                             | 100 |
| <b>Displacement Equations Using Force Method for Frame-Composite Walls under Horizontal Loads</b><br>C.H. Wu, M. Guo and Y.J. Zhang   | 106 |

|  |     |
|--|-----|
| <b>Dynamic and Buffeting Analysis of Suspension Pipeline Bridge</b><br>L.H. Huang, B. Li, G. Lei and D.D. Shi  | 113 |
| <b>Effect Analysis for Reinforcing Method of Certain Cracked Bearing Platform</b><br>Y. Luo and L. Yu  | 119 |
| <b>Effect of Bridge-Soil Interaction on Behavior of Integral Bridge</b><br>T.L. Yu and M. Awad   | 123 |
| <b>Integration Matching Algorithm on Gravity Aided Underwater Navigation</b><br>Y.F. Chen, R.F. Zhong and B. Shi   | 128 |
| <b>Nonlinear Analytical Model of RC Shear-Critical Frame Elements</b><br>Y.P. Zhang, B. Diao and Y.H. Ye   | 134 |
| <b>Numerical Study on Effects of Rock Bridge Angle in Uniaxial Compression Test</b><br>B. Xie, Y.L. Ma and X. Xia  | 140 |
| <b>The Study on the Water Immersing Time Impact over the Concrete Anti- Compression Strength with Rock-Drilling Method</b><br>J.Y. Zhang                 | 144 |
| <b>Seismic Performance Evaluation of a Steel-Concrete Hybrid Frame-Tube High-Rise Building Structure</b><br>H.J. Jiang, B. Fu and L.E. Liu               | 149 |
| <b>Seismic Response Reduction of Cable-Stayed Bridge with Viscous Dampers</b><br>W.L. Qiu, M. Jiang and X.B. Zhang                                       | 154 |
| <b>Simulation Research and Application on Control Technology of Long Concrete Wall Cracks in Basement</b><br>Y.Z. Zhu, F. Gao and J.D. Kong              | 159 |
| <b>Study of Static Wind-Induced Effects on Residential Complex</b><br>X.Q. Peng, C.G. Qiao and Y.H. Chen   | 167 |
| <b>Study on Mass Concrete Slab Construction Technology of Dalian World Finance Center</b><br>G.J. Zhang, H.N. Li and C.Q. Shi                            | 175 |
| <b>Study on Numerical Simulation Analysis of Creep Model for Tianjin Tower</b><br>X.Y. Duan, Z.W. Li, Y. Yang and Y.J. Gong                              | 181 |
| <b>Study on the Width of Turbulent Area around Pier with Ship Impact</b><br>X.P. Liu, D.Y. Qian, S.S. Fang and Y. Zhang                                  | 186 |
| <b>The Effect of Leachate Collection Layer Structure on Leachate Quality in Semi-Aerobic Landfill: A Pilot Study</b><br>G.T. Liu, Z. Zhang and X.Y. Peng | 192 |

### **Chapter 3: Hydraulic Engineering**

|  |     |
|--|-----|
| <b>3-D FEM Seepage Simulation of Channel with Drain Pipes</b><br>Z.K. Li, Y.R. Huang, J.Y. Wang and Q. Zi                                      | 198 |
| <b>Application Research on Low-Pressure Pulse and Cavitation Jet Compound Drilling Technology</b><br>W.F. Li and G.L. Wang                     | 205 |
| <b>Calculation on Dynamic Angle of Repose for Submarine Pipeline on Sandy Seabed</b><br>L.P. Yang, B. Shi and Y.K. Guo                         | 210 |
| <b>Capillary Hysteresis Internal Variable Model of Unsaturated Soils</b><br>H.A. Li, Q.X. Wang, Y.X. Yang, G.H. Zhu, L.X. Wang and Z.Y. Zhang  | 215 |
| <b>Numerical Analysis for Unsaturated Water Movement in Soil of Changing Bulk Density</b><br>S.B. Cai, M.A. Shao, D.Q. Lu, X.L. Fu and D.Z. Li | 221 |
| <b>Research on Hydraulic Characteristics of Cutthroat Flume in Irrigation District</b><br>Q.L. Qi, Q. Kong and Q.Q. Ye                         | 227 |
| <b>Research on Numerical Analysis and Application of the Tailing Pond</b><br>L.T. Zhang, Q.L. Qi, Q. Li and J. Zhang                           | 232 |
| <b>Salt Flux in a Partially Mixed Estuary with Varying River Discharge over a Spring-Neap Tide Cycle</b><br>L.R. Yuan, R.L. Chen and C. Lu     | 237 |
| <b>Simulation Analysis of Concrete Dam's Joints Based on Elastic-Plastic Creep Model</b><br>Y.Y. Huang, H. Zheng and Y.H. Zhou                 | 243 |

|   |     |
|---|-----|
| <b>The Calculation and Simulate Research of the Natural Frequency of Liquid Flow on Piping Networks of Multi-Pulse Sources</b><br>X.P. Su, S.T. Liu, F.M. Yin, G.K. Nie and W. Sun            | 250 |
| <b>Chapter 4: Environmental Engineering and Safety</b>  |     |
| <b>Lidar Measurements for Comparison of Atmospheric Aerosol Extinction and Scattering Properties over Lanzhou, China</b><br>X.J. Cao, L. Zhang, X.J. Quan, B. Zhou, J. Bao and X. Li          | 256 |
| <b>Pollution and Potential Biological Toxicity Assessment Using Heavy Metals from Surface Sediments of Liangtan River, Chongqing, China</b><br>G.T. Liu, X.Y. Zheng, X.Y. Peng and J.H. Li    | 262 |
| <b>Prospect Analysis of the Coupling System of Low-Quality Biomass Treatment and Microalgae Biofuel Production</b><br>X.D. Wu, Y.H. Liu, R.S. Ruan, Y.Q. Wan, J.S. Zhang and H. Peng          | 269 |
| <b>Study of Ventilation Character for an UFAD Room with Cooling Wall</b><br>X.H. Li and D.G. Lin  | 275 |
| <b>The Acute Toxicity of Single and Combined Exposure of Mercury and Bromoxynil on <i>Fridericia Bulbosa</i></b><br>D.L. Yang, J. Zhu, G.X. Shen, W.H. Wang, X.P. Guo, Z.Q. Wang and H.W. Yao | 280 |
| <b>The Coincident Relationships between the Qehan Lake Area Fluctuation and the Climate Change in the Nearly 40 Years</b><br>X. Chun, M.J. Zhang and M.P. Liu                                 | 286 |
| <b>A Study of the Atmospheric Weighting Mean Temperature in Northwest Plateau of China</b><br>J.J. Zhang, Y.L. Chu and J.Q. Zhong   | 291 |
| <b>Analysis of Air Flow and Turbulent Fluxes Features of Night Fog</b><br>B.G. Wu, Z.Y. Wang and Y.Y. Xie   | 297 |
| <b>Effects of Fluctuating Light Density on the Growth and Chemical Constituents of <i>Ulva pertusa</i></b><br>G.L. Guo, J. Xu, Y. Shi and T. Xu   | 302 |
| <b>Gabbro in Wanning, Hainan Island: LA-ICP-MS Chronometry and its Geological Significance</b><br>L.M. Tang   | 307 |
| <b>Ground-Based Microwave Radiometer Profiler Observations before a Heavy Rainfall</b><br>W.J. Xu and H.Y. Liu  | 312 |
| <b>Neotectonic Movement of the Northern East China Sea Shelf Basin</b><br>F.H. Hou, S.Z. Li and Z.X. Zhang  | 316 |
| <b>Remediating Lead, Zinc, Cadmium and Arsenic Contaminated Steel Smelting Site with Hydrochloric Acid and Sodium Hydroxide</b><br>Y.M. Li, M. Lei and T.B. Chen                              | 322 |
| <b>Seasonal Variation of Nutrients and Environmental Impact Factors in Sanggou Bay</b><br>Y. Fang, Z.B. Lv, H.J. Zhang, F. Li and B.Q. Xu   | 328 |
| <b>Spatial-Temporal Pattern of Tourism Economic Differences in Gansu Province</b><br>P.J. Shi, Z.J. Wang and W. Li  | 335 |
| <b>Studies on Phytoplankton and Particulate Organic Carbon in the Southern Ocean</b><br>G.H. Zhu, Y.L. Liu, L.H. Chen, P.S. Yu, M. Jin and Z.L. Liu   | 344 |
| <b>Study on the Impact of Tongluoshan Tunnel on Groundwater Environment Based on Hydrochemical Analysis</b><br>J. Liu and D. Liu  | 353 |
| <b>Study on the Purification Effects of Constructed Wetland Plants in TP Disposal in Living Wastewater</b><br>M. Lu, F.F. Pei, X.K. Song and Z. Guo   | 357 |
| <b>The Comprehensive Analysis to the High Precipitation Supercell Affecting Guangxi</b><br>X.H. Li, L.H. Yao and Z.M. Lin   | 362 |
| <b>Tower Atmosphere Characteristic of Advection Fog</b><br>Z.Y. Wang, B.G. Wu and H. Huang  | 369 |
| <b>Types and Acoustic Reflection Characteristics of Geo-Hazards in the Western of the North Yellow Sea</b><br>X.H. Chen, X.H. Zhang and R.H. Li   | 374 |

## **Chapter 5: Others**

|  |     |
|--|-----|
| <b>A Design of End Effector for Measuring Robot Orientation Accuracy and Repeatability</b><br>X. Zhang, W.C. Yan, W. Zhu and T. Wen  | 382 |
| <b>A Primary Probe on the County Cultural Facility's Suitability Indicator System in Eastern Northwest China — Case Analysis on Chengcheng County, Shaaxi Province</b><br>H. Yang, M.H. Huang, Y. Wang and Y. Yu | 387 |
| <b>Analysis on Overall Design of the Main Bridge of Dalian South Binhai Avenue</b><br>G.J. Zhang, Y.G. Tan and H.N. Li   | 392 |
| <b>Discussion on the Relationship between Rockburst Proneness of Rock and its AE b-Value</b><br>G. Zhang, M.X. Li and J.X. Chen  | 398 |
| <b>Experimental and Numerical Study of Transient Distortion in Titanium Alloy Tig Welding</b><br>R. Wang, D.F. Li, X.L. Han and J. Zhang   | 403 |
| <b>Fatigue Performance Analysis of PC Bridge Based on Precast Damage Accumulation Effect</b><br>C.L. Han, X.D. Zhang, S.F. Ma, M.S. Luo and Z. Guo   | 408 |
| <b>Fuzzy Finite Element Optimization of High-Speed Vertical Machining Center Spindle Box</b><br>J.J. Cao, L.H. Wang and J. Lu  | 414 |
| <b>Prediction of Welding Distortion in 304 Stainless Steel</b><br>D.F. Li, R. Wang, X.L. Han, P. Yang, J. Han and L. Zhang   | 419 |
| <b>Research on Real-Time Estimation of Fatigue Life for Quayside Container Crane</b><br>W. Wang and X. Hu  | 424 |
| <b>Research on Vortex-Induced Vibration Behavior of Steel Arch Bridge Hanger</b><br>L. Bai and K. Liu  | 429 |
| <b>Study on Optimization of Regional Spatial Structure Based on Land Use and Transport Accessibility: A Case Study of Pearl River Delta Region</b><br>X. Lu and Q. Liu   | 435 |
| <b>Trend Prediction of Hydraulic Liquid Leakage Based on ES-LSSVM</b><br>Z.Y. Wu, Z.B. Xu and M. Gao   | 440 |
| <b>Vibration Carpet Value in Classification and Evaluation of the Motor Condition</b><br>Y.A. Yin and X. Hu  | 445 |
