

# Table of Contents

## Preface, Committees and Reviewers

## Chapter 1: Advanced Intelligent Structure

<b>Thermal Analysis and Cooling Optimization of the Built-In Micro Projector</b> W. Wei, P. Yang, Q.H. He and Q.L. Chen	3
<b>The Oxygen-Ion Diffusion and Phase Transition in the <math>\text{La}_2\text{Mo}_{2-x}\text{W}_x\text{O}_9</math> Samples Measured by Internal Friction Method</b> D. Li and X.H. Li	8
<b>Research and Analysis on Electrolytic Preparation of High Purity Potassium High-Speed Rail Technology</b> D.M. Sun	12
<b>A Simplified Method for Calculating Ultimate Strength of Pressure Hull in Deep-Sea Manned Submersible</b> L.H. Yuan, Z.X. Xiong, L. Song and Z.H. Dong	17
<b>A Novel Approach of Multiscale Feature Extraction for Gearbox Condition Monitoring</b> W.G. Huang, Z.K. Zhu, C. Li and P. Li	25
<b>Vibration Suppression of Flexible Parallel Manipulator Based on Sliding Mode Control with Reaching Law</b> J.F. Hu, X.F. Cui and P. Li	30
<b>Dynamic Characteristics Analysis for Fluid-Solid Coupling of Vertical Lifting Pipe in Transporting Coarse Particles</b> Z.J. Zhou, Z. Wang, H. Lu and Y.M. Xia	35
<b>Analysis of Loads at Crankshaft Bearing for Scroll Compressor</b> C. Li, Y. Yu and M. Zhao	42
<b>A Way to Improve Eddy Current Sensor Measurement Accuracy</b> E.M. Miao, Y.Y. Gong, T.J. Cheng and P.C. Niu	47
<b>An Obstacle Recognition Method Based on Improved PSO-WNN for Deicing Robot on Voltage Transmission Line</b> S.W. Zhang, W. Sun and S.Y. Miao	53
<b>An Approximate Algorithm for Shakedown on Gear Contact</b> Y. Yuan, K. Shi and K. Liu	59
<b>Self-Vibration Characteristics of Plane Gate in Inverted Siphon Project</b> H.F. Xue and Y. Wang	64
<b>The Stress Analysis of Pressurized Cylindrical Shell with a Surface Crack under Laser Irradiation</b> L.P. Du, H. Wang and Y.X. Tong	69

## Chapter 2: Bio-Inspired Smart Materials and Applications

<b>Experimental Study of Kick up Phenomenon in Thermosonic Wire-Bonding</b> J.J. Tian and L. Han	77
<b>Research Development and Application of Green Cutting Technology</b> Y. Liu, X.J. Li and P.X. Qu	82
<b>Nonlinear Seismic Response Analysis of Concrete Perforated Brick Masonry Building</b> W.J. Yang, M.S. Duan and M.J. Yin	87
<b>Transportation of Droplets within Two Substrates by Help of Surface Acoustic Wave</b> A.L. Zhang and Y. Zha	92
<b>Influences of Heat Treatment on Spinning Process with Large Thinning Rate and Performance of 30CrMnSiA</b> D. Han, H. Yang, M. Zhan, M.Y. Yang, S.Z. Mou and T. Li	97
<b>The DNA Genetic Algorithm Applied for Solving Optimal Placement of Sensors</b> X. Liu, Z.R. Feng, X.J. Wang and B.F. Wang	103

<b>Research on an Improved Cellular Automata Model</b> H. Wang, Y.Q. Liu and L.H. Zhou	109
<b>Control Algorithm Research of Electric Actuator Based on Switched Reluctance Motor</b> J. Gao, H.X. Sun, B. Gao and L. He	115
<b>Study on Structure Including Interface Based on Interface Stress Element Method</b> K. Shi, Y. Yuan, L. Song and F.T. Wei	120
<b>A Probability Assessment Method for Degradation of Bridge Power MOSFET Circuit Based on Common Turn-On State</b> X.F. Wang, G.C. Fu, C. Gao and J.Y. Yao	125
<b>Determining the Soil Water Characteristic Curve in Term of Van Genuchten Parameters by the Particle Swarm Optimization</b> X. Yang, X.Y. You and M. Ji	130
<b>A Novel Peak-Seek Algorithm Used in FBG Sensor Demodulation System for Vibration Monitoring</b> L.J. Cai, Z.Y. Li, Z.H. Tang, W. Meng and Q. Liu	135
<b>Nonlinear Vibration Analysis of Viscoelastic Isolator</b> C. Zhou and C.M. Zhong	140
<b>Automatic Recognition of Aircraft Noise with PLP Method</b> J.L. Ding and Y. Yang	145
<b>Test Analysis on the Model of Expression Based on the Thematical Statistic Method</b> J.H. Yu	150
<b>Research on Suppression Technology of OFDM Peak-to-Average Power Ratio</b> X.L. Zhu	154
<b>Reduction Algorithms for Multi-Covering Information System</b> S.P. Zhang and T. Feng	159
<b>Development and Application of Four Typical Rapid Prototyping Technologies</b> X.L. Yang, D. Wang and D.M. Yu	165
<b>Hydromechanics Simulation Based on Proe/Adams/Matlab for Crane</b> C. Qin, X.Q. Zhai, S.L. Shi and Z.G. Wang	170
<b>Band Gaps of Lamb Waves Propagating in One-Dimensional Different Quasi-Periodic Composite Thin Plates</b> J. Gao, M. Zhao, Y.Z. Xie and X.G. Zhang	175
<b>Research of Robot of Obstacle Avoidance and Navigation</b> X.C. Lai, S.M. Lu, X. Chen, P.F. Qiu and L.K. Li	180
<b>Computer Simulation Analysis for Material Mechanics</b> Z.Y. Wang, X.J. Li and D.M. Yu	185
<b>Research on Life Cycle Engineering Based on the Onstraint-Satisfaction Method</b> D.Q. Zhou	190
<b>The Lifetime Model of the One-Unit-System with Two Kinds of Wear-Out</b> C.W. Zhang and W.R. Lin	195
<b>Shakedown on Thermal Barrier Coating and Simply Analytic Model</b> Y. Yuan, K. Liu and K. Shi	200
<b>Rolling Disk Model and its Application to Tool Path and Envelope Generation for Profile Machining</b> Y.F. Rao, G.L. Zheng, B.R. Du and H.Z. Chu	206
<b>Fabrication of Paper-Based Device Using Printing Circuit Technology</b> A.L. Zhang and Y. Zha	211
<b>Research on Application of Nano-TiO<sub>2</sub> in Automotive Coating</b> P.J. Cao, H.D. Wu and J.L. Dong	216
<b>A New Delay-Based Congestion Control for Ad-Hoc Wireless Network</b> C. Yuan and Y.Q. Li	223

### **Chapter 3: Active Materials, Mechanics and Behavior**

<b>Displacement Amplification Analysis for Parallel Four-Bar Mechanism</b> X.F. Yang, W. Li and Y.F. Liu	229
---	-----

<b>The Research of Integration Technology of Heterogeneous Data Sources on Campus</b> X.X. Liang	234
<b>Rain-Wind-Induced Vibration Control for Long Span Transmission Tower</b> L. Tian, S. Jin and Z.L. Wang	240
<b>Analysis on Buckling Restrained Brace Used for a Steel Structure Damping</b> P. Wang	245
<b>The Dynamic Response Analysis for Frame Structure in Consideration of Soil Structure Interaction under Explosive Load</b> Z.P. Kuang, Q.H. Yang, L. Xie and H. Xu	251
<b>Active Transient Vibration Control Using a Novel Repetitive Algorithm</b> Y.L. Zhou, Y.X. Yin, Q.Z. Zhang and W.S. Gan	258
<b>Analysis of Nonlinear Seismic Response and Stability for Tunnel Portal Slope</b> Y.S. Li and T.B. Li	263
<b>The Rotor System Balance Design of Scroll Fluid Machinery</b> M. Zhao, S.R. Yu, C. Li and Y. Yu	268
<b>The Trend of Reconfigurable Pin-Type Fixture with Vacuum Suction Cups</b> H.S. Zhang	273
<b>Modeling and Simulation of 8/6 SRM Control System</b> L. He, J. Bai, H.X. Sun and J. Gao	277
<b>The Brief Analysis of Digital Modeling Techniques in Architecture and Related Fields</b> X.J. Liu and Y. Zou	282
<b>IGA-Based User Evaluation Driven Optimization Design of Forklift Styling</b> C.F. Lu, Y. Li, X.J. Liu and H.H. Ren	287
<b>Vibration Analysis of a Stepped Beam by Using Adomian Decomposition Method</b> Q.B. Mao, Y.P. Nie and W. Zhang	292
<b>Research on Information Security Algorithm of Wireless Communication System</b> C. Chen	297
<b>Study of Aerodynamic Interactions of Dual Flapping Airfoils in Tandem Configurations</b> B.L. Zhu, H.P. Wu and T.H. Xiao	301
<b>Damage Diagnosis in Self-Compacting Concrete Beams Base on Eigenfrequencies and Mode Shape Derivatives</b> R. Zhang, Z.F. Chen, Y.C. Gan and Q.W. Tao	307
<b>Application of SVM in Predicting the Strength of Cement Stabilized Soil</b> X.C. Shi, Q.X. Liu and X.J. Lv	313
<b>Intermittent Faults Diagnosis in Wireless Sensor Networks</b> Y.Q. Sun and H.L. Feng	318
<b>An Improved Edge Antialiasing Method for 3D Graphics Pipeline</b> F.F. Zhou and Y. Sun	323
<b>Projective Synchronization for Brushless DC Motor (BLDCM) with Fractional-Order</b> S.H. Huang	327
<b>Response of Shallow-Buried Circular Lining Tunnel to Incident PWave</b> Y.S. Li, T.B. Li and X. Zhang	331
<b>Online Test Technology for Reversible Circuits</b> J. Hu and D.Z. Wen	337
<b>An Ideal Schema Design of an Industrialized PL-ISEE Database Platform</b> J.L. Dong	341
<b>Research on Selection and Matching Optimization of Automobile Drive Train</b> G.H. Zhang	346
<b>Modeling and Simulation of Aligning Process for Alignment Mechanism of Large Aircraft Component</b> Z. Ying and Y.L. Ke	351
<b>Dynamic Analysis of Planetary Mechanism for the Cutting Part of Coal Shearer</b> W.D. Wu, H.L. Li and H.R. Xue	356
<b>Research Status of Several Key Technologies for the Development of Electric Vehicles</b> H. Zhao, G.F. Li, N.H. Wang, S.L. Zheng, L.J. Yu and Y. Gao	361
<b>Investigation into the Noise Characteristics Based on Rotating Instabilities Mechanism in a Multi-Stage Axial Compressor</b> Y.D. Sha, X.Z. Cui, F.T. Zhao and X.C. Luan	366

<b>Order Decision by Difference Method for Least Square in Trend Fitting</b> Y.H. Dong and X.M. Zhou	373
<b>Analysis of the Residual Stress in Multi-Layer Materials</b> K. Shi, Y. Yuan and F.T. Wei	377
<b>Structural Design and Model Establishment of Reducer Device</b> H. Guo, Z.H. Gao, X.J. Li and P.X. Qu	381
<b>Simulated High-Pile Dock Construction on the Impact of Coastal Erosion Based on Theoretical Models and Dou Theory - A Case of Suanshan Dock</b> D.Y. Luo, L. Huang and X. Gao	386
<b>Ionic Conductivities and Phase Transition of <math>\text{La}_2\text{Mo}_{2-x}\text{Al}_x\text{O}_{9-\delta}</math></b> X.H. Li and D. Li	391
<b>Ambiguity-Function-Based Methods for Near-Field Source Localization</b> X. Sun, H. Jiang and B. Wang	395
<b>Image Compression Technology Based on the Analysis Theory of Wavelet</b> H. Guo and J. He	400
<b>Study on the Indiscrete Tuned Mass Damper for Buffeting Control of Long Span Cable-Stayed Bridges</b> X.J. Wang, J.Y. Xu and J. Chen	405
