Editorial

Micro and Desktop Factories for Micro/Meso-Scale Manufacturing Applications and Future Visions

R. Tuokko, E. Järvenpää, R. Heikkilä and A. Nurmi 1

Tissue Cutting Mechanics and Applications for Needle Core Biopsy and Guidance

Y.C. Wang, B.L. Tai, R.K. Chen, J. Moore, C.S. McGill, K. Xu, P.W. McLaughlin and A.J. Shih 13

Micro-Texturing onto Amorphous Carbon Materials as a Mold-Die for Micro-Forming

T. Aizawa 23

A Centrifugal Microfluidics Platform for Potential Application on Immobilization-Free Bead-Based Immunoassays

Q.L. Chen, K.L. Cheung, Y.W. Kwan, S.K. Kong and H.P. Ho 39

Characterization of Nanostructured Titania Thin Film and its Application in Gas Sensor

G.R. Tang and J. Chen 45

Design of a VLS Grating-Lens Hybrid Component for Miniature Spectrometer

H. Li and H. Lin 53

Design and Fabrication of an Integrated Multi-Channel Optical Filter Working in Visible and near-Infrared Bands

J. Jin, S. Di and Y.P. Yao 63

Dynamic Analysis and Structure Parameters Optimization of a Parallel Platform Based on ADAMS

Y.P. Wang, J.M. Liang, X.F. Zhou, G. Zhang and X.S. Chen 69

The Acoustic Enclosure Design of the Refrigeration Compressor

L. Zhang, S. Zhang and G.Y. Nie 75

Simulation of Acoustic Field for Megasonic Bath Cleaning in Advanced Semiconductor Manufacturing

Y.T. Huang and X.P. Dong 81

Research of High Performance Closed Loop Control System for Stepper Motor

Z.H. Xu, X.H. Xie, C. Ma, Q. Sun and R. Du 87

A New Approach for Prioritization of Failure Mode in FMECA Using Encouragement Variable Weight AHP

S.Z. Zhang, Q.D. Zeng and G. Zhang 93
