

Preface

Mechanical engineering is a discipline of engineering that applies the principles of physics and materials science for analysis, design, manufacturing, and maintenance of mechanical systems. Mechanical engineering and Materials are employed to design and analyze manufacturing plants, industrial equipment and machinery, heating and cooling systems, transport systems, aircraft, watercraft, robotics, medical devices and more.

Aiming to the advances of Mechanical engineering and Materials, 2013 International Conference on Mechanical Engineering and Materials (ICMEM 2013) is an annual conference to call together researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities in Mechanical Engineering and Materials.

ICMEM 2013 is sponsored by Hongkong Education Society, Hongkong. ICMEM 2013 has received more than 400 submissions from 21 countries and regions. The papers come from both academia and industry reflecting the international flavor of this event in the topics of Materials Science and Engineering, Materials Properties, Measuring Methods and Applications, Methodology of Research and Analysis and Modelling, Materials Manufacturing and Processing, Nanoscience and Nanotechnology, Mechanical Engineering, Design and Manufacturing, etc. And about 136 papers were accepted to be presented in ICMEM 2013, according to the reports from anonymous reviewers. All the presented papers will be published by TTP Press in Applied Mechanics and Materials (ISSN: 1660-9336), which will be online available in full text via the platform www.scientific.net, and be indexed by Scopus, EI Compendex, ISI Proceedings, etc.

We express our thanks to all the members of the General Committee Chairs, Program Committee Chairs, Technical Program Committee and Volunteers who worked so hard to prepare the conference and chair the four sessions in ICMEM 2013 viz., Material Science and Engineering, Applied Mechanics and Mechanical Engineering, Manufacturing Engineering, and System Dynamics and Simulation. And thanks for the keynote speakers professor Jun Wang (The Chinese University of Hong Kong, Hong Kong), professor Gerald Schaefer (Loughborough University, UK) and professor Chin-Chen Chang (Feng Chia University, Taiwan).

We hope that ICMEM 2013 will be successful and enjoyable to all participants. We look forward to seeing all of you next year at the ICMEM 2014.

Wen Jin

ICMEM 2013 Organizing Committee

Keynote Speaker and Honorary Chairman

Jun Wang, The Chinese University of Hong Kong, Hong Kong

Gerald Schaefer, Loughborough University, UK

Chin-Chen Chang, Feng Chia University, Taiwan

General Chairs

Min Wu, Nanchang University, China

Wei Lee, Asia Pacific Human- Computer Interaction Research Center, Hong Kong

Program Chairs

Yiyi Zhouzhou, Azerbaijan State Oil Academy, Azerbaijan

Dehuai Yang, Huazhong Normal University, China

Publication Chair

Wen Jin, Chongqing University, China

Program Members

Jiang Chi, Peking University, China

Yu Tian, Anyang Normal University, China

Yijin Wu, Huazhong Normal University, China

Zhongming Yao, Qiqihar University, China

Yun Zhang, Southwestern University of Finance and Economics, China

Xiaolan Liu, Beijing Normal University, China

Wang Jianfen, Jiangsu University, China

Jinzhao Liu, Henan University, China

Wang Yunyin, Xinjiang University, China

Wang Zhonghua, Hubei University, China

Tatsuya Akutsu, ACM NUS Singapore Chapter, Singapore

Yiyi Zhouzhou, Azerbaijan State Oil Academy, Azerbaijan

Khine Soe Thaung, Maldives College of Higher Education, Maldives

Biswanath Vokkarane, Society on Social Implications of Technology and Engineering,
Maldives
