

Table of Contents

Preface

Session of Technology

Application of Assembly System Partial Units for the Development of Intelligent Assembly Cell R. Ružarovský, N. Danišová and K. Velíšek	3
Availability and Productivity of Simple Production Chains T. Nánási	12
Clamping Fixture Design Methodology for the Proper Workpiece Insertion J. Oravcová, P. Košťál, D.R. Delgado Sobrino and R. Holubek	20
Design of Camera System Location at the Station for Loading and Orientation N. Danišová, R. Ružarovský and K. Velíšek	27
Effect of Environmentally Conscious Machining on Machined Surface Quality G. Varga and J. Kundrák	35
Effect of Shape Parameters on the Modal Properties of Stepped Ultrasonic Concentrator M. Nad and L. Cizmancova	43
Experimental Determination of the Coefficient of Friction in Rotational Sliding Joint R. Duriš and E. Labašová	50
Flexible Assembly Cell Optimization by Operational Analysis A. Javorova, M. Kusa and M. Matúšová	55
Incorporation, Programming and Use of an ABB Robot for the Operations of Palletizing and Depalletizing at an Academic-Research Oriented Intelligent Manufacturing Cell R. Holubek, D.R. Delgado Sobrino, P. Košťál and J. Oravcová	62
Influence of Parameters of Plasma Welding on the Properties of Welded Joints of Duplex Stainless Steels in Mode with Deep Remelting K. Ulrich, I. Kovaříková and B. Šimeková	69
Methods of Identifying the Workspace of Modular Serial Kinematic Structures J. Svetlík and P. Demeč	75
Modular Welding Fixtures for Robotic Cells J. Semjon, M. Hajduk, R. Jánoš and M. Vagaš	80
Monitoring of Operational Load of Disintegrative Machines J. Beniák	88
On the Possibilities of Intelligence Implementation in Manufacturing: The Role of Simulation D.R. Delgado Sobrino, P. Košťál, D. Cagánová and M. Čambál	96
Principles of Modular Architecture in the Manufacturing Technology J. Svetlík and P. Demeč	105
Representation of Asynchronous Motor Dynamics by Generalized Kloss Characteristics E. Riečičiarová and T. Nánási	113
Research of Laser Clad Properties with Globular WC in Abrasive Wear Resistance I. Kovaříková, F. Kolenic and E. Hodúlová	121
Some Aspects of the Hard Machining of Bore Holes J. Kundrák, G. Varga, I. Deszpoth and V. Molnar	126
Testing of the ABS Materials for Application in Fused Deposition Modeling Technology L. Novakova-Marcincinova and J. Novak-Marcincin	133
The Importance of Forging Line Modernization for Material Flow in Drop Forge M. Kapustova and B. Šimeková	141
The Writing Principle of Activity of Individual Devices in Intelligent Production Systems S. Šebeňová, N. Danišová and K. Velíšek	147
Theoretical Value of Total Height of Profile in Rotational Turning I. Sztankovics and J. Kundrák	154

Thermal Expansion Analysis of the Complex Body Assemblies S.A. Haba and G. Oancea	162
Tool Logistics in the Centre of Excellence of 5-Axis Machining I. Baránek and I. Buranský	170
Using Methods of CBA in the Context of CSR, Focusing on the Social Projects E. Mrvová and L. Púčiková	177

Session of Logistics

An Agent-Based Framework for Supply Chain Cooperation M. Abed, B. Ezzeddine, A. Benabdelhafid and J. Grabara	185
Application of Synchronizing Procedure with Multistage Variants of how an Assembly Operation Process in the Design Layout of the More Assembly Lines Workplace V. Cibulka	195
Aspects of Logistics in Biomass Supply for Energy Production S. Kot and B. Slusarczyk	206
CAN Message Filter Algorithms for Remote Diagnostics of Vehicles A. Trohák, B. Illés and Z. Biró	213
Costs Incurred by Designing and Implementing the Logistical Projects in the Activity of Companies J. Grabara, M. Man and S. Kot	221
Development of the Logistics Support Data Basis System at a Flood Protection I. Kiss and V. Sedlák	229
Efficient Transportation Intelligently Organizing Flows of Goods M. Schenk, K. Richter, A. Müller and E. Glistau	235
Intelligent Traceability System of Containerized Goods M. Abed, I. Charfeddine, M. Benaissa and M. Starostka-Patyk	241
Multi-Criteria Function for Optimizing the Number of Workers in an E-Maintenance R. Havlik, A. Gottwaldova and F. Manlig	252
Noise Reduction in Voice Controlled Logistic Systems L. Czap and J. Pinter	260
Supply Chain Including Sustainable Developments Elements, for the Enterprises Dealing with the Waste Management Obtained from the Mines Operation N. Komar and I. Grabara	268
Support of Logistic Processes in Modern Retail Chain Warehouse N. Klabusayová	274
System Integration Methods for Voice-Commanded PLC Controlled Systems J.M. Pinter and A. Trohák	280
The Application of Selected Lean Methods for Waste Removal in Logistics of Slovak Industrial Plants H. Vidová and M. Beluský	286
The Development of a GPS Based RF Signal Strength Measurement System M. László	294
The Time Analysis of Material Flow with Methods Time Measurement - Contribution to CSR Implementation at the Level of Industrial Production I R. Beňo, G. Hrdinová, P. Sakál and L. Šmida	302
The Time Analysis of Material Flow with Methods Time Measurement Contribution to CSR Implementation at the Level of Industrial Production II R. Beňo, G. Hrdinová, P. Sakál and L. Šmida	309
The Transport Infrastructure Investment's Impact on the Level of Sustainable Transport Indicators in the Czeszochowa City P. Bajdor and J. Grabara	316
Total Productive Maintenance in Enterprise Operations Support Processes S. Kot and K. Grondys	324

Session of Informatics-Technology

A Four-Stage Framework for the Identification of Information Flow Inefficiencies in the Manufacturing Environment	
C. lo Storto	335
Analysis of Production Process Parameters by Using Data Mining Methods	
P. Važan, P. Tanuska, D. Jurovatá and M. Kebisek	342
Evolution Algorithm for Job Shop Scheduling Problem Constrained by the Optimization Timespan	
F. Koblasa, F. Manlig and J. Vavruška	350
Mathematical Modeling of the Unit Load Formation	
B. Illés and G. Bognár	358
Settings, Experimentation and Evaluation of the Simulation Models	
F. Manlig, R. Havlik and A. Gottwaldova	366
Virtual Reality Modeling Language as Tool for Automated Workplaces Simulation	
J. Novak-Marcincin	372
