

Table of Contents

Preface and Conference Organizatio

Chapter 1: Architectural Design and its Theory

Construction and Utilization of Post-Earthquake Waste Building Materials H. Tang and Y.Y. Xu	3
The Abstract Expression in Zaha Hadid's Architectural Drawings J.W. Li and W.Y. Zhao	11
Study on Protective Planning Design for Buddhist Ancestral Chamber in Zhongnan Mountain R.Q. Guo, H.Y. Li, M.Y. Zhang and Y.F. Zhang	15
The Research on Protection Planning of Ancestral Temple of Sanlun Caotang Temple of Chinese Buddhism in Mount Zhongnan Based on ASEB Grid Analysis X. Xu, F. Wang and Y.C. Sun	20
Analysis of Different Building Materials Used in Heritage Protected Areas in North China X.Y. Zhang, Y.Q. Sun, X. Lan and J.M. Bai	26
The Research of Folk House Development in Lhasa Area J. Chen, F. Wang and J.P. Liu	33
Expression of Form on the Steel Building Design B. Li	39
New Trend in Facilities for the Elders in Japan - Small Multi-Care Facilities X. Chen, T. Zheng and Y. Zhou	43
Explore the Integration of Mountain Tourism Urban Construction Design and Regional Architectural Culture - Taking Shennongjia Shenlin Hotel as an Example G.Y. Li, H.X. Xie and Y. Li	47
What is the Real Study on the Difference of the 3D Simulation Skills for Architectural Spatial Design Z.K. Lei, Y. Ding and L. Zhou	54
Comparison and Optimization of Habitation Form in Mixed-Use Mode under Marine Environment: Zhejiang as Example X.Q. Zhu, J.J. Sun and J.Y. Fu	59
Study on the Dynamic Construction in Zaha Hadid's Early Works J.W. Li and Y.Y. Zhang	63
Renewal Patterns of the Administrative Office Buildings F. Li and X.M. Wang	67
Analysis on Building Sculpture Art from the Perspective of Deconstructivism Y.Z. Guo	71
Study on the Changes of Elderly Couple's Living Style and Sustainable Residential Designing W.J. Lin, Y.J. Yang and Z. Yu	75
A Study on Window Design Optimization for Residences in Severe Cold Zones B.L. Chen	82
The Influence of Linear Architecture Space Structure on Building Evacuation Time H. Xu	86
Analysis of the Development of Chinese Commercial Buildings J.S. Liu	91
Characteristics of Behavior Setting in Day Service Center for Children with Developmental Disorders H.W. Choi	95
Art of Light and Shadow Reflected in Architecture J. Zhao	100
Research on the Method of Architecture Design Idea H.H. Cui	104

Interpreting Chinese Traditional Folk Houses from the Angle of Chinese Traditional Culture	
X.J. Wang	108
The Innovative Design of the New Countryside Residential Building	
W.J. Gaowa and W.H. Ming	112
Structure Force System and Form Combination of Long-Span Structure Building to Lightning Design	
Y. Dong and L.G. Shi	116
Research on the Spatial Construction Strategy of Traditional Settlements for the Tujia Nationality	
H.C. Zheng, C.Q. Chen, L. Tang and Y.Q. He	120
The Inheriting and Development of Tradition - Analysis of Wang Shu's Award Receipt and more Architectural Engineering Cases	
B.Q. Zhang and Y.S. Chen	129
Researches on the New Characteristic Residences in the Eastern Henan	
X.M. Shi, F. Zhang and L. Li	135
Study on the Composition of Inner Mongolia Wudangzhao Monastery Building Complex	
Y. Zuo	141
Ideal Human-Habitation Forms in Modern Cities of China: Multi-Style Townhouse Design Practices	
X.J. Chen, X. Xu and Y.H. Chu	145
The Application of BIM in Architecture Design - Taking "Step Vision" of Contest Works for Example	
X.N. Hao, H. Liu and L. Guo	155
The Influence of Early Sound Direction on Apparent Source Width (ASW)	
X. Yan	160
Tropical Regions Rehabilitation Hospital Building Energy Efficiency and Interior Environmental Design Research	
Y. Wu and C.Y. Liu	164
Symbolic Representation of Indigenous Architectures in Meishan Region	
J.G. Luo and F.H. Chen	168
Training Path of Creative Personnel in Architectural Design under the Concept of A + T •CDIO	
C.Y. Liu and H.Y. Qi	172
Envelop Structure Transformation Technology of Container Architecture in Cold Areas	
W.D. Li, Y.W. Wang and Z. Tang	176
Evaluation Analysis of Intensive Design of Campus Based Analytic Hierarchy Process Method	
Y. Wang, M. Zhu, S.J. Qiu and P. Sun	180
Developing a System for Evaluating Roof Shape Design	
J.L. Sui, S.L. Wang, Y.T. Ren and T. Ma	187
Based on Parametric Design to Analysis the Skin Design of the Cultural Complex	
Y. Wang, H. Tang, C.S. Li and D. Fang	191
Study on the Rationality of Zaha Hadid's Creativity in Architecture	
J.W. Li and H.Z. Ma	197
Study on the Impact of the Digital Technology on Zaha Hadid's Creativity in Architecture	
J.W. Li and L.Y. Ma	201
Transformation Design and Research about Community of Large Enterprises in Baotou City in 1990s in Order to Appropriate the Aged	
X.Y. He	205
The Influence and Application of Feng Shui in the Design of Interior Doors and Windows	
T.F. Su and Y.P. Liu	209
The Research on South Dwellings Building - Fujian Dwellings for Example	
S.P. Wang, J. Xue and J. Huang	213
Diversified Architectural Model: Chinese-and-Western Architectural Style of Residences in Ancient Town of Nanxun	
X.K. Zhang	219
Building National Form of Chinese Contemporary Residential Design	
Z. Li, W.D. Tan and L. Chen	224

Analysis of Spatial and Temporal Sequence Structure of the Environment Modality for Chinese Meishan Cultural Park C. Li and F.H. Chen	228
Analysis of Building Technology on WANGYUE Pavilion of Golden Phoenix Temple J. Li, Y. Wei and D.Q. Xiao	233
Research on the Relationship among Human Being, Building and Environment - Take I. M. Pei's Architectural Design Works for Example L.Q. Guo	238
Study on Regional Expression of Space Design in City Commercial Pedestrian Street X.L. Xu, J. Liang, L.N. Xie and H.H. Chen	242
Research on the History and Characteristics of Xi'an Higher Learning Institutions' Planning and Architecture Design Y.S. Wang, F.J. Meng and W.F. Gou	246
Culture and Arts Experience in HOPSCA F.F. Yu and X. Ju	252
A History of the Evolution of Building Control in Hong Kong (1841-1997) H. Zou	257
An Exploration of Sustainable Development of Indemnificatory Housing Based on the Idea of Mixed Housing X.C. Hou, J.Y. Zhang, M. Fu and Y.T. Xu	261
Comprehensive Application of Natural Light and Materials for Modern Protective Structure outside Architectures Y. Su	266
Technique Transmission of Flemish Church Buildings in China: Works of Scheut Fathers W. Luo	271
The Influence of Architectural Culture on Architectural Design J.S. Liu	278
Qin Brick and Han Tile in Chinese Ancient Construction - Aesthetic Analysis of the Ancient Chinese Building Materials in Qin and Han Dynasties Q. Jia, Y. Zhou and Y.N. Shen	282
Study on Humanistic Factors in Design of Kindergarten Y. Zuo	285
Topology Theory Application in Exhibition Design J. Liang, M.Y. Zhang, X.L. Xu, J.W. Li and L.D. Huang	289
The Full Culture Gates of Chinese Folk Houses - Especially the Gates of Bai Ethnic People in Dali M.B. Li and Z.K. Li	293
Comprehensive Evaluation of Historical Architectures in Huizhou with GIS Technology W.M. Ji and T.T. Niu	297
French State Patronage of Architecture in the 1950s H.Q. Liu, M. Chen, D. Zhao and Y. Cao	301
Analysis of Regional Characteristics for Chinese Traditional Dwelling X.Y. Wang, W. Dong, B. Zhou and S. Li	306
On the Architectural Design of University Libraries J.L. Liu	311
Exquisite Characteristic in Peter Zumthor's Architecture Works J.J. Jia, S.F. Liu and F. Yang	315
Planning and Design of Contemporary Villa District J. Liu and Y.B. Gao	319
Study on the Exploration of the Designs for the Business Office Building from the Perspective of Architectural and Environmental Psychology - A Case Study on the Chinese Diamond Trading Center L. Han and Q.F. Shi	323
Attention to Rural Green-Building Design in China Y. Wu and H.F. Li	327
Chasing the Essence of Architecture X.L. Yang	332

Exploration of Modular Build of Architectural Space X.X. Li and G.L. Li	338
The Analysis of Design Thinking of Harmonious Bus Station J. Li	345
The Complex Network of Architectural Design X.M. Hu and Q. Liu	349
Study on Description Method of Architectural Plan W. Yun and M. Funito	354
Comparative Study on Traditional Settlement Patterns of Guangfu and Chaoshan Y. Pan and X.L. Zhuo	358
The Problems and Solutions of Archaized Architectures in Chengdu Tourist Areas J.Y. Wang, H. Fu and J.S. Chen	363
The Differences between the Architectural Characters from the Perspective of Immigration Culture - Take the Fenghuang Ancient Street as an Example R. Bai and J.F. Yin	368
The Investigation of Environment and Behavior Transition under the Influence of “Zou Xikou” Immigration in Inner Mongolia J.F. Yin and R. Bai	372
Analysis of Architectural Discourse in 1990s S.J. Zhang and T.Q. Xiao	376
Discussion of Strategies on Vernacular Dwellings Transformation, Utilization and Renovation Y. Pan and X. Ye	380
A Trip for the Works of Epidermis Artists F. Jia, R.X. Wang and X.H. Bai	384
Analysis of the Present Situation of Research on Soundscape and Han-Chinese Buddhist Temples D.X. Zhang, D.P. Liu, Z.L. Cui and M. Xiao	388
Research on Architecture Technology and its Aesthetic Features of Traditional Residential Buildings in Edong X.S. Lu and P. Zhang	392
On the Application of Traditional Elements in Modern Environmental Art Design Z.L. Dong	396

Chapter 2: Architectural Environment & Equipment Engineering

Research on Green Building & Occupant Satisfaction Y. Hu	403
The Construction Strategy Analysis of the Traditional Building Settlement on the Bonan H.C. Zheng, W. Zhang, G.C. Feng and Z. Liu	407
Experimental Study on Feasibility of New Scaffold Construction Scheme in Preventing Fire Spread Y. Yang, J.J. He and J.T. Yang	415
Effect of Field Irrigation on Tensile Behaviors of Disposable Drip Tapes Made from Virgin PE S.J. Wu, Z.H. Zhang and D.L. Zhu	421
The Factors Analysis of Increasing Community Emotion D. Ya, Y. Zhou and Z. Yan	425
Study on Community Living Facilities under the Mode of Home-Based Care for the Aged J. Bai	429
Inner Mongolia Grassland Herdsman Residential Patterns of Behavior - Wu La Gai Grassland as an Example M. Ma, Y. Li, J. Kong, J. Wang, M. Zhang, W.M. Wang, H. Su, L. Qiu, J. Kang and W. Chen	434
Analysis on Correlation between Surface Thermal Infrared Bright Temperature and Nearby Air Temperature of the Underlay X. Yuan and Q.L. Meng	438
Local Architectural Features of Hebei Taihang Mountain and the Protection Strategy Y. Peng, R.X. Zhang and X.Q. Jiao	444

Prehistoric Human Activities and its Environmental Background in Central China: A Case Study in Henan Province Z.X. Li and G.X. Wu	448
--	-----

Chapter 3: Ecological Architecture

Research on Eco-Architecture-Oriented Architectural Education C.A. Liu	455
Study on Technology Status and Development Strategy of Green Building in Xi'an Area X.P. Li and Z.F. Yan	459
The Present Situation and Trend of Green Building Development in China Dongying City Y.X. Song	463
Photosynthesis of Plant and Photovoltaic Integrated Application of Buildings B.Q. Yin, Y.P. Wang, L. Zhu and Y. Cui	467
The Green Concept Used in the Field of Architecture Design H.W. Li and Y.M. Zhang	474
Green Building Technology of Regional Suitability Evaluation System Research and Case Study P. Zhao, Y.T. Niu, L.N. Xie and Z. Wang	478
Design Thinking on Urban Agricultural Construction of Intelligent Ecological Residential Building X.D. Li, W.P. Hu and X.P. Yang	482
Thinking on the Water System Design Method of Intelligent Civil Ecological Agriculture Residential Buildings X.D. Li, W.P. Hu and X.P. Yang	487
On-Site Inspection and Analysis on Earth Architecture's Enclosure Construction H. Yu and H.J. Sun	492
Research on the Ecosystem of Architecture Design H.H. Cui	499
Analysis on the Image of Ecological Space and the Inspiration Drawn from Huizhou Traditional Settlement D. Hui, X.X. Zhang and R.Y. Liu	503
Research on Green Building Assessment System Based on Bp Neural Network and Life Cycle Assessment (LCA) L.M. Xia and J.J. Liu	508
Localized Ecology Design of the Architectural Interface X. Shu and D.K. Zhong	515
Design Principle of Interior Air Environment Based on Passive Ventilation Idea L.J. Yuan and C.L. Meng	525
Discussions on the Ecological Designing of the Preschool Constructions C. Lan, Z. Liu and W. Gao	528
Construction Strategy for Ecological Residential Building in Marine Environment: Zhejiang as Example J.J. Sun and J.Y. Fu	532
The Design of Green Building and Sustainable Development - Take Weifang Art and Cultural Center Project as an Example X. Hua	537
Green Industrial Building Design for Hot Summer and Cold Winter Zone L. Xiong and D.F. Mao	543
Research on Natrual Regeneration Measures of Urban Low-Carbon Ecological Architecture D. Li and S. Chuan	547
The Application of Community Co-Management in Ecological Function Area Planning - Taking the Example of Planning for Sustainable Development of Xing'an Ecological Function Area B. Pang, H.F. Zou and F. Lin	554

Study on Development Strategy of Yesanguan Ecological Vacation Tourism in Badong Country Hubei Province K.P. Dong, H.L. Liu and W.Q. Gong	558
---	-----

Chapter 4: Traditional Construction Materials

An Experimental Study on Behavior of FRP-HSC-Steel Double-Skin Tubular Columns under Concentric Compression T. Ozbakkloglu and B.A.L. Fanggi	565
Study on Influences of Slag Powder and Fly Ash on Concrete Penetration Performance H.Y. Wei, Y.G. Wei, X.L. Zhang, W.F. Zhou and Y.Y. Li	570
Influence of Sinter Temperature on the Hardness of Fly Ash Based Glass Ceramics H. Ye, J.T. Hou, W.W. Zhang and S.Y. Yao	578
A Experimental Study on the Influence of Fly Ash, Slag Powder on the Property of Concrete Y. Li, L. Jia and X.L. Liang	582
Preparation of Ultra-High Performance Concrete Using Phosphorous Slag Powder Y.Z. Peng, J. Huang and J. Ke	588
Experimental Study on Cement Clinker Particles under Impact Force L. Xu, Y.W. Wang, G.B. Gao, Z.P. Chu and K.Y. Wang	592
Optimization of High Concrete Retaining Wall Structure S.Y. Gao, Y. Chen, Y.F. Xie, W.D. Lei and K. Yin	597
Assessment Model of Concrete Durability in Complicated Environment C. Yi, M.L. Lin, F.Y. Sun, H.X. Liu, J. Guo, Y.K. Hu and S.Y. Man	604
Develop High-Strength Concrete of C60 with Local Raw Material R.X. Hao, X.Y. Guo and M.Y. Hang	612
Determination of Concrete Strength Based on the Double-Hole Shear <i>In Situ</i> Test W.L. Zhu	617
Experimental Research on Chloride Ingress into Concrete Exposed to Freeze-Thaw Cycles S.J. Chen, X.B. Song and X.L. Liu	621
Steel Rod Stability and Inelastic Buckling Study Y. Zheng and H. Zheng	626
Grey Interval Model of the Temperature Rise Prediction of Massive Concrete in Construction Process C.X. Dong	631
The Research and Comparing Test on Calcium Carbonate-Acid Water Glass Grouting Material Z.Q. Xiao, C.Y. Xu and G.D. Wu	635
The Status, Causes, Problems and Prospects of Application of Stainless Steel Materials in Chinese Urban Sculptures H. Wang	641
Study on the Application of Desulfurization Gypsum for the Gypsum Fiber Board Production C.F. Tang, C.W. Cai, B. Xu and Y.L. Liu	646
The Time-Dependence of Chloride Penetration Resistance of Concrete by the Rapid Chloride Permeability Test Y.J. Hu and Y.L. Du	651
Ultrasonic Testing of Lightweight Fine Aggregate Concrete in Time and Frequency Domains J.S. Kim and K.S. Yoo	655
A Study of the Preparation and Properties of the Concrete for the Bearing Platform of the Xiamen-Zhangzhou Sea-Spanning Bridge H.M. Hu, H. Wang, R.G. Du, B.S. Zheng, Y.K. Yi and Y.W. Shen	659
Study on High Amount Mineral Admixtures Concrete Performance Z.D. Huang	667
The Impact Molding and Test Results of High Fly Ash Block Z.D. Liu and W.J. Zhao	671

On Comparison between Reinforcement Electricity Accelerated Corrosion and Natural Corrosion of Concrete S. Li, J.Y. Yan and X.G. Wang	676
Self-Healing Ability of Smart Coating for Anticorrosion of Reinforcing Steel W. Wang, L.K. Xu and L. Li	680
Estimating on Creep Strain for Ready-Mixed Concrete during Shrinkage L.L. Xiao, M.Y. Pan and M. Chen	684
Preliminary Experimental Study on Self-Leveling Ground Mortar D.M. Zhang and M.S. Lu	689
The Numerical Simulation of Projectile Penetrating into Steel-Fiber Reinforced Ultra High Strength Concrete Target D. Li, J.L. Tao and J. Tan	694
Experimental Study on Strength and Failure Characteristics of Reinforced Concrete Plate under Complex Stresses Conditions G. Yang, Z.Z. Zhao and X.G. He	699
Experimental Study of Alkali-Activated Red Mud Cement Material M. Zhou, Y.S. Ji, Z. Chang, C. Zhang and X.T. Yan	705
Research of Near-Infrared Spectroscopy Method for Wood Density Determination L.L. Yi, X.C. Li, L. Wang, S.X. Yu, J.Y. Yang and X.S. Wang	710
On the Application of Decoration Materials in Architecture Q. Jia, Y. Zhou and Y.N. Shen	715
Study on the Quick Hardening Cement-Based Grouting Material's Modification by Nano-Materials L.H. Wang and Y.F. Duan	718

Chapter 4: Traditional Construction Materials

Experimental Study of the Mechanical Properties of the Low Elastic Modulus Concrete M.S. Zheng, X.H. Ma and G.Q. Liang	727
The Study on Metakaolin's Effect of Restraining the Alkali-Silica Reaction of Slate Aggregate T.C. Liu, G.H. Li, W. Huang, X.C. He, F. Jiang and L.S. Zhang	732
Researches on Concrete Carbonation Z.Y. Li and Z.J. Wang	737
Analytic Solution of Inverse Regression Equation for Evaluating Concrete Strength of Building Materials: Theory and Method J.W. Chen, Y.P. Su and H.B. Chen	743
Triaxial Research of Waste Tire Granules, Cement and Soil Mixtures L.H. Li, H. Chen, B.L. Xiao, J. Wan and Y. Liu	747
Research into the Concrete Freeze-Thaw Damage Mechanism Based on the Principle of Thermodynamics L. Fan, F.H. Li, Y.W. Zhang, S.A. Cui and J.L. Li	751
Analytic Solution of Inverse Regression Equation for Evaluating Concrete Strength of Building Materials: Experimental and Application J.W. Chen, Y.P. Su and H.B. Chen	757
Experimental Study on Mechanical Performances of Magnesium Lightweight Wallboard with Used in Exterior Wall Y.D. Sun and J.C. Zhao	761
Mechanical Strength and Microstructure Analysis of Cementitious Wheat Straw Composite L. Zhang, F.S. Liu, J.Y. Song, Y.B. Zhang and G.G. Dong	766
The Research on Using Ordinary Portland Cement to Prepare Anti-Corrosive Concrete under Frigid Saline-Alkaline Geological Condition H. Xiao, S.L. Fan and M. Ouyang	773
Preparation and Storage Stability of Asphalt Emulsions Made from Modified Lignin Cationic Asphalt Emulsifiers Z.G. Liu, L. Zong, L.L. Zhao and X.M. Xie	781
Research of Producing Aerated Concrete with Quartz Tail-Sands Y. Wang, J.S. Zhang and S.Y. Wu	786

Study on Recycling Method of Waste Concrete Economic P.F. Li, T. Guo, L.G. Zhang and T.F. He	790
Research on Properties of Fired Brick and Tile Waste in Road Greening and Establishment of Optimization Model T. Guo, P.F. Li and X.F. Li	794
Research and Application of the Load-Bearing Aerated Concrete Masonry Structural System J. Cheng	798
Experimental Study on Improving Concrete Carbonation Resistance with Silane Impregnation Z.D. Huang and S.F. Dong	805
Water Absorption and Resistance to Chloride Ion Performance of Concrete Waterproof Silicone Material H.S. Wang, L. Li, Z.W. Ni and Q. Tian	809
Experiment on the Mechanical Behavior of Integrated Concrete-Foam Glass Sandwich Blocks C.J. Ruan, J.M. Wang and N.J. Wang	813
Experiment on the Mechanical Behavior of Ceramsite Concrete under Temperature-Load Coupling Field P. Wang, D. Li, C.W. Shen, W.T. Jiang and J.M. Wang	817
Study on Fracture Criterion for Concrete and other Brittle Materials H.X. Zheng and Q. Zhao	821
Study on the Compressive Strength and Mixing of Ultra-High Performance Concrete S.L. Feng and P. Zhao	825
Significance of Blast Furnace Slag as Coarse Aggregate in Self-Compacting Concrete R. Krishnasami and R. Malathy	829
Effect of Plastic Stage Curing on Long-Term Properties of High Performance Concrete Y.J. Wang, Q. Tian and J.P. Liu	834
A Cracked-Comminuted Model for Penetration into Confined Concrete Targets M. Zhen, D.Y. Song and Z.G. Jiang	839
Experimental Investigation of the Mechanical Properties of Jointed Rubber Wood Using Two Types of Adhesives Y. Nadir and N. Praveen	844
Mechanical Property of Coal Ash Mixed with Clay R. Chen, D.X. Hao and D.Z. Li	854
Ductility and Deformation Performance of Hybrid Fiber Reinforced High Performance Concrete Shear Deep Beams S.B. Liu and L.H. Xu	858
The Anti-Shear Capacity of Abnormal Joint of Steel Reinforced Concrete J.N. Zhu, K.J. Yang, X.W. Li and R.W. Li	863
A Study on Energy Consumption and CO₂ Emissions According to Manufacture of Recycled Rebar Using Wasted Steel from Building Demolition G.W. Cha, W.H. Hong and S.W. Shin	869
Verification of the Efficiency of Anti-Corrosion Systems for Reinforced Concrete Constructions in a Laboratory Environment L. Taranza and R. Drochytka	876
Bearing Capacity Predicting Method on Mortar-Rock Interface of Compression Type Rock Anchor L. Lu and S.G. Wu	880
Temperature Control Measures' Intelligent Optimization for Quasi-Mass Concrete Structure Y.Y. Huang, Y.M. Ding, X.M. Lv and T.F. Tang	884
Experimental Study on Pavement Performance of Emulsified Asphalt Cement Concrete H. Chu, J. Zhang and Y.H. Lu	888
Research on Low-Cost Vanadium Alloying in Producing Vanadium-Containing Seismic Resistant Rebar P. Tian, Z.Y. Zhong, R.G. Bai, X.L. Zhang, C.L. Han and H. Gao	893

Effect on Mechanical Properties of Rubberized Concrete due to Pretreatment of Waste Tire Rubber with NaOH Q.W. Ma and J.C. Yue	897
Prediction of Long-Term Strength of Concrete Based on Artificial Neural Network X.M. Yang and D. Shi	905
High Performance of Stone Chippings Concrete with High Fine Content S.L. Tan, X.B. Ding and X.Q. Jiang	909
Study on Electrochemical Behavior of Prestressed Reinforcement in Simulated Concrete Solution Q.L. Sun, L. Zhang, J. Dong and L.H. He	917
A Preliminary Study of the Recycled Aggregate Concrete Used in U-Shaped Lining Channel X.H. Zhang, Y.F. Meng and R. Li	921
Strain Analyzing of Concrete Creep of Xiaolangdi Sediment Tunnel Lining over Tensioning and Operation Periods C.N. Sui, J.F. Kang, X.Z. Wang and X.P. Xu	928

Chapter 5: Advanced Construction Materials

Properties of Waste-Based Geopolymer Building Blocks F.H. Huang, Z.H. Zhou and X. Cheng	935
Study on the Influence of Freeze-Thaw on the Carbonation Property of Fly Ash Concrete J.G. Niu, L. Yan and H.T. Zhai	939
Experimental Study on Compression Performance of Fiber Reinforced Light-Weight Aggregate Concrete J.G. Niu, B.X. Li and Z. Zhang	944
Study on Production of Autoclaved Aerated Concrete by Coal Gangue Fly Ash Y. Zhang, P.X. Duan, B.S. Jia and L. Li	949
Study on the Preparation Process of Corn Straw-Pumice Composite Concrete J.S. Ma, J. Sun, H.Q. Cai and R.S. Bai	955
A Markov Chain Monte Carlo Technique Based Optimal Mix Design of Porous Concrete L. Jin and Z.G. Yan	959
Experimental Study on Flexural Performance of PVA Fiber Reinforced Cement-Based Composites J.P. Han and J.Y. Tao	963
Effect of Fly Ash and Nano-CaCO₃ on the Viscosity of Cement Paste R.J. Sun, Z.Q. Zhao, D.W. Huang, G.F. Xin, S.S. Wei and G. Zhi	968
The Research of Discrete Optimum Design of Composite Laminate Materials Using Lamination Parameters J.Z. Chen, K.C. Zhang, Y. Xu and Y. Zheng	972
Influence of Silica Fume and Thermal Damage on Uniaxial Tension Performance of PVC-SHCC R.X. Wu, T.J. Zhao, L. Tian and W. Ma	977
Research on the Applicability and Property of Iron Tailing to Produce Autoclaved Concrete R.J. Sun, D.W. Huang, M.Z. Li, S.S. Wei, Z.Q. Zhao and Z. Ge	982
Dispersion of Mutiwall Carbon Nanotubes R.J. Sun, S.S. Wei, Z.Q. Zhao, D.W. Huang and Z. Ge	986
Electrical Resistivity and Piezoresistivity of the Carbon-Nanotube Cement-Based Composite R.J. Sun, S.S. Wei, Z.Q. Zhao, D.W. Huang and Z. Ge	990
Performance and Preparation of Porous Materials Using FGD Gypsum as Aggregate C. Qian, W.Y. Gao, C.Y. Luo, G.S. Liu, H.S. Hao and Z.Q. Hu	994
Study on Modification Mechanism of the Polymer Modified Cement Concrete J.P. Xiong, J.X. Deng, W. Hao and R.P. Qin	998
Research on Controlled Permeability Formwork of Nonwoven Fabrics to Retain the Humidity on the Concrete Surface T. Wang, J.J. Lu, Y.H. Zhong and M.J. Xing	1004
The Application of High Strength/Performance Concrete in Chinese Construction F.H. Wu, Y.L. Lv and Q.Y. Shou	1008

Development of High Volume Fly Ash Concrete (HVFAC) in Czech Republic L. Kratochvíle, H. Sachová and J. Kolísko	1012
Mechanical Property of Brucite Fiber Reinforced Composite Material B.W. Guan, S.F. Chen and K.P. Liu	1019
Prediction of the Elastic Modulus of Self-Compacting Concrete Based on SVM Y.F. Cao, W. Wu, H.L. Zhang and J.M. Pan	1023
The Performance Evaluation of Glass Fiber Reinforced Concrete (GFRC) B.H. Koo and B.M. Yoon	1027
Refractory Performance Study on Foamed Concrete and Concrete S.J. Yu, P.F. Zhang, X.F. Yang, H. Zhao and X.L. Chen	1034
On the Application of Green Ionic Liquids in the Preparation Process of the Gel-Type Wood Composites Materials X.R. Li, B.Z. Liang, D.H. Li, L. Na and X.N. Yin	1039
Experimental Research on Bamboo Fiber Reinforced Concrete C. Zhang, Z. Huang and G.W. Chen	1045
Impact Experimental Research on Hybrid Bamboo Fiber and Steel Fiber Reinforced Concrete X.D. Wang, C. Zhang, Z. Huang and G.W. Chen	1049
Experimental Study of Porous Concrete Material Thermal Insulation Material Lightweight Polystyrene Particles H.Z. Wang and D.G. Fu	1053
Development of High Performance Concrete Containing Admixture in Nuclear Power Plants J.E. Kim, W.S. Park, S.H. Yun, D.G. Kim and J.M. Noh	1062
Study on Green Building Materials Development in Hunan B.Z. Sheng	1066
The Development of Green Building Materials Trend in China B.Z. Sheng	1070
Application on the Sprayed FRPC in Engineering C.F. Sun, W.C. Zhu and Q. Gu	1074
General Introduction of the Performance of Sprayed FRPC C.F. Sun and Q. Gu	1078
Effects of Loading Percentage of Polyurethane in Lightweight Concrete K.A. Mohd Sari, S. Mat, K. Haji Badri and M.F. Mohd Zain	1082
Development Trend of World Expo New Building Materials W. Ye	1086
Numerical Simulation Analysis of Hole Shape Design of Self-Thermal Insulation Perforated Brick X.P. Feng, Y.F. Yu, B. Jiang and W. Bai	1089
Summary of Application of Intelligent Materials in Building E.Y. Sun and W.L. Bi	1093
Experimental Study on Mechanical Properties of CFRP Tendon B. Li, Y.X. Yang, Q.R. Yue, B. Wang, P.Y. Zhang and H.W. Cheng	1097
Basic Mechanical Properties of Concrete with Machine-Made Sand and Recycled Coarse Aggregate S.B. Zhao, Q. Guo, G.X. Li and Y.F. Su	1102
Anti-Permeability and Resistance Carbonization Test Study High Performance Concrete with High Content of Fly Ash X.Y. Guo and R.X. Hao	1106
Flexural Toughness of Hybrid Fiber Reinforced High-Performance Concrete under Three-Point Bending D.T. Xia, X.K. Liu and B.R. Zhou	1110
The Influence of Clay to Water-Reducing Effect of Polycarboxylic G.B. Gao, Y.W. Wang, L.Y. Wang and Y.M. Zhang	1115
The Relationship of the Main Properties of Desulphurization Gypsum Based Inorganic Thermal Insulation Mortar Y. Lai, Y. Liu and Z.G. Luo	1120

Synthesis and Performance of Polycarboxylate Superplasticizers with Hydrophobic Side Chains	
L.Y. Wang, Y.W. Wang, G.B. Gao, Z.P. Chu, Y.S. Liu, K.Y. Wang and X.Z. Zhou	1124
Characteristics of Pore Structure of Free-Steamming Foamed Concrete and its Influence on the Compression Strength	
Y.F. Luo, Q.J. Yu, J.X. Wei, J. Hu and F.X. Li	1130
Experimental Study on the Axial Compressive Strength and Elastic Modulus of GHPFRCC	
X.L. Li and W. Juan	1138
Mixture Ratio Design of Inorganic Polymer Concrete and the Study of Expansive Performance	
L.M. Yu, Z.A. Lu, X.H. Yuan and H.G. Chen	1142
Shrinkage and Cracking Behavior of Cement Based Materials Containing Undercalcined MgO-Based Expansive Agent	
S.Z. Zhang, Q. Tian, T. Yao and F. Guo	1148
The Research of the Effect of Fly Ash on the Shrinkage Property of Commercial Concrete	
Y. Liu, Y. Lai and Z.G. Luo	1154
Experimental Research on Coal Gangue Grouting Material for Gob Filling	
T.F. Gu, Z.D. Sun, F.T. Luo, K. Guo, Y.M. Liu, L. Feng and Q.Q. Zhang	1158
The Study for Concrete Frost Resistance Durability under the Action of Multiple Factors	
J.L. Tian, H. Yu and J.G. Niu	1167
Property of Water-Reducing and Crystallization on Superplasticize of the Concrete	
Z.J. Fu, F. Song, L.S. Yu and H. Wang	1171
Study on the Factors of Influence on the Production Process of Coal Gangue Sintered Brick	
J.D. Liu	1176
A Study on Modified Methylnaphthalene Sulfonate Formaldehyde Condensates: Synthesis, Structures and Asphalt Emulsification	
K.H. Shen, Y.B. Wang, Y.S. Wang and Y. Li	1180
Research on Composite Strengthening Nano-Technique of Recycled Aggregate	
R.T. Meng, T. Meng, M.Z. Huang and Q.L. Xu	1189
Techno-Economic Analysis of Fiber Reinforced Polymer Substation	
Y. Wang, L. Li, Y.F. Zhang, M.X. Xu and Q. Sun	1194
Research of Performance of Low Amount of Cement Manufactured-Sand Concrete	
C.H. Yu, G.H. Li, J.L. Gao, Q. Wei and D.Z. Xu	1200
Modeling of Perforated Screens or Membrane Using Rigid Frame Porous Models Combined with Thin Membrane Resonance Sound Absorbing Theory	
X.L. Gai, X.H. Li, B. Zhang, P. Xie and Z.H. Ma	1206
Experimental Study on Strength and other Performance of Solid Concrete Bricks Made from Recycled Coarse Aggregate	
X.X. He and T. Zhang	1212
Experimental Studies on the Impact of Waste Mineral Admixtures on Concrete Properties	
C. Lin, F.S. Liu, G.F. Zhou and Y.B. Zhang	1219
Preparation and Performance of Photosensitive Epoxy Acrylate Modified by N-[(4-Bromo-3,5-Difluoro) Phenyl]acrylamide	
X.D. Yao, R.N. Fang, H.J. Pang, P. Cui and G.J. Liu	1224
Research on the Effect of Beads on Properties and Microstructure of Cementing Materials	
W. Yang, N.Q. Feng, C.G. Bee and X.Q. Liu	1229
An Experiment for Effects of Different Additives on Strength of Sediment Solidification	
G.H. Chen and J.Z. Zhu	1235
Synthesis and Application of Organic-Inorganic Composite Flexible Architectural Coatings Emulsion	
J.H. Wu, G.J. Liu, G.X. Zhang, S.H. Liu, J.L. Gong and Y. Wang	1241
Study on Fired Brick Using Large Amount of Low Calcium Fluidized Bed Boiler Fly Ash	
C.B. Li and Z.F. Zhan	1249
Research on the Preparation of Wood-Based Composite Materials Using Wood Processing Residues	
X.R. Li, D.H. Li, E.D. Jiang, Y.L. Fu, L. Lai and X.J. Ning	1254
Relations between Concrete Structural Parameters and Abrasion Resistance	
N.V. Makarova	1259

Research on the Properties and Application of the New Lightweight Composite Insulation Wall Panel	
Q.H. Wang, Y. Feng and C.P. Wang	1263
Microstructure of Thin Wall Formed by Multi-Layer Laser Cladding	
F.X. Huang, D.M. Jiang, W.J. Zhang, Z.J. Zhang and Z.H. Yang	1267
Effect of Different Curing Regimes on Shrinkage and Strength Properties of Self-Consolidating Mortars Containing Silica Fume in Different Contents	
J. Esmaeili and J. Kasaei	1271
Analysis on Application Prospect of Shape-Stabilized Phase Change Materials in Asphalt Pavement	
L.H. He, J.R. Li and H.Z. Zhu	1277
Experimental Study on Strength of Recycled Concrete	
H.Y. Cai, L.B. Fu and L.B. Dang	1282
The Application of Closed-Cell Foaming Technology in Composite Thermal Insulation Material	
C. Wang	1286
Creep Property of Magnetorheological Elastomers of Seism Isolator for Building	
W.X. Yu, S.L. Yang and X. Yang	1291
Preparation of Refractory Fiber Cardboard for Building Insulation	
S. Wang, C.S. Zhao, D.Q. Wang and W.J. Han	1295
Regulation of Fine Grained Concrete Efflorescence Process	
V.V. Strokova, I.V. Zhernovskaya, Y.V. Fomenko and N.V. Makarova	1300
Study on Foaming Agent Foam Ability and Stability for Foam Concrete	
S.F. Dong and W. Zhang	1304
Influences of Limestone Powder on the Performance of Self-Compacting Concrete	
H.P. Gu, G.H. Li, J.L. Gao and X.H. Zeng	1308
Innovative Applications of Membrane Materials in Exhibition Design	
Z.G. Yang and M.Y. Xu	1313
The Research of Silane Oligomer with Lower Volatilization Rate for Protecting Concrete	
H.Y. Sun, Z. Yang, G.X. Sun and X.F. Xu	1318
Study on Slag Powder Concrete Preparation in Baotou Area	
B. Li, Y. Wen and S.F. Dong	1323
Effects of Two Polypropylene Fibers on the Properties of High Strength Concrete	
B.R. Zhou, D.D. Han, J.H. Yang, Y.L. Peng and G.X. Li	1328
Effects of Expansive Agent and Steel Fiber on the Properties of the Fly Ash Ceramsite Lightweight Aggregate Concrete	
S.P. Cao, Q.F. Zhou, Y.L. Peng and G.X. Li	1332
Experimental Study on High Strength Composite Ceramsite Using Fly Ash and Waste Glass	
L. Hong and W. Cheng	1337
The Relationships of Void Rate and Pavement Performances of Open Grade Friction Course with Analysis of Engineering Materials	
D.W. Yuan and Y.Q. Zhang	1343
Research on Bond Behavior of Corroded Reinforcing Bar in Concrete Wrapped with Carbon Fiber Reinforced Polymer Sheets	
J.H. Li and C.X. Miao	1348
Preparation and Research of High-Temperature Foam Ceramic	
X.L. Ji and Z. Chen	1353
Preparation and Characterization of Polycarboxylate Superplasticizer Synthesized at Non-Aqueous Condition	
X. Liu, Z.M. Wang, X. Liang, J. Zhu and Y. Zhang	1358
Quantitative Analysis of Cement-Based Materials and Sulfate Attack Products by XRD-Rietveld Analysis	
H. Li, J.P. Liu and W. Sun	1362
Improved Mechanical Property of Foam Glass Composites Toughened by Mullite Fiber	
H.W. Guo, Z.X. Mo, P. Liu and D.N. Gao	1370
Effect of Bentonite on the Performance of the Limestone Manufactured-Sand Mortar	
C.H. Yu, G.H. Li, J.L. Gao, B. Lan, Q. Wei and D.Z. Xu	1374

Metal Coat of Modern Architecture T.X. Dong	1379
Microstructure and Finite Element Analysis of Recycled Aggregate Concrete H.F. Yang, Z.H. Deng and Y.F. Hu	1383
Dynamic Compressive Performance of Concrete Exposed to High Temperature Based on Microstructure Analysis S.W. Yang, Z.G. Liu, Y.W. Wang, Z.R. Liu and H.J. Ba	1389
The Effect of Viscous Materials Making on Self-Compacting Concrete W. Cheng, R.F. Li, G.H. Li and H.P. Gu	1395
Autogenous Volume Deformation of Concrete due to MgO under the Temperature History of a Diversion Tunnel Concrete F. Guo, J.P. Liu, Q. Tian, T. Yao and S.Z. Zhang	1399
Experimental Study of Hygroscopicity of Lunar Soil Simulant R.Y. Shi, J.Q. Li, M. Zou, S.C. Fan, L. He and Y.J. Yang	1405
Surface Modification on Pre-Expanded Polystyrene Particles F.S. Luo	1411
Experimental Study on Stress-Strain Curve of Recycled Coarse Aggregate Concrete under Uniaxial Compression Z.H. Deng, L. Chen, J. Qian and C.L. Meng	1415
Experimental Study on the Shearing Property of Equal Strength Recycled Coarse Aggregate Concrete Z.H. Deng, Y. Liao, C.L. Meng and H.F. Yang	1420
Experimental Study on the Impact of Workability of Low Strength Manufactured Sand Concrete D.Z. Xu, G.H. Li, Z.Z. Liao, H.W. Yan and C.H. Yu	1428
The Compressive Strength and Flexural Strength Test of Recycled Pebble Aggregate Concrete Z.P. Chen, C.H. Zhou and P.H. Ye	1433
Numerical Analysis on Stress Field near Crack-Tip of Mode I in Shape Memory Alloy B. Zhou, J. Lv and D.X. Wang	1437
The Synthesis and Application of a Novel Class of Polyols for Preparation of Polyurethane X.L. Li, Z. Fang, D. Ji, Z.D. Wan and K. Guo	1441
Preparation of Innovative Porous Ultra-Lightweight Ceramsite by Dehydrated Sewage Sludge (DSS) and Yellow River Sediments (YRS) and its Characteristics of Ceramsite Affected by YRS Addition D.T. Yue, Q.Y. Yue, B.Y. Gao, H.T. He, H. Yu, S.L. Sun, Q. Li, Y. Wang and Y. Zhao	1446
The Effect of Slate Powder on Fly Ash in Suppressing Alkali Activity of Slate Aggregate L.S. Zhang, G.H. Li, W. Huang, X.C. He, F. Jiang and T.C. Liu	1450
High Strength Concrete Orthogonal Test of Employing Twin Admixture Technique of Grade II Fly Ash and S95 GGBS X.J. Dong, X. Liu and R. Jiang	1455

Chapter 5: Advanced Construction Materials

A New Flame-Retardant Epoxy Composites Based on Silica and Metal Salt of Phosphinate X.Q. Liu, H. Zhou, J.Y. Liu, H. Wang and S.J. Cai	1461
Research on Enterprises Resettlement in the Second Urban Land Resource Development - Taking High-Tech Zone in Suzhou for Example Y. Du and W.X. Yu	1465

Chapter 6: Control of Quality Engineering

Research on Strain Transfer of Embedded BOTDA Sensors Analyzed by FEM Y. Qiao, C.Z. Sun and B. Zhang	1473
Fire Prevention and Controlling Measures for Building External Thermal Insulation System F.D. Zhang, A.P. Chen and Y.X. Zhai	1480

Discussion on Influence Engineering Project Quality Six Factors and its Countermeasures Y.H. Zhang, L.J. Tang and N. Wang	1484
Concrete Compression Strength Non-Destruction Detecting with Rebounding and Ultrasonic Synthesis Method F. Gao, G.L. Liu and F.X. Wang	1488
Large Ranging of Ultrasonic Testing Inspection Internal Defects of Mass Concrete Structure L. Liu and W. Zhao	1492
Conceive on Construction of Government Supervision in Construction Quality Standard System H.D. Guo, L. Shang, L.Z. Lei and Y.X. Zhang	1498
Experimental and Numerical Study on the Effect of Construction Defects on the Stability of Tunnel Y. Liu, S.H. Wang, Y.P. Guan and L. Shuang	1507
Study on the Quality Control of the Concealed Works of Construction Project Z. Qian and X.G. Wu	1511
Research on Construction Quality Control Measures of Key Construction Works P. Bo, J.J. Li, C.Q. Liu and H.R. Cai	1515
The New Technique of Evaluation of the Early-Age Shrinkage Property of Concrete Material for Airport Pavement by Eddy Current Y. Liu	1520
Parameters Identification for Nonlinear Duffing System Based on Wavelet Transformation S. Zhou, D.M. Huang, W.X. Ren and Q.L. Wang	1524
The Research on Testing Processing Effect of Dynamic Compaction Subgrade Based on Transient Rayleigh Wave Method Y.K. Wu, H.Y. Wang and X.S. Sang	1531
Bridge Bored Pile Construction Management and Accident Treatment Y.H. Zhang, L.J. Tang and N. Wang	1535
Analysis of Fire Intelligent Inspection System L. Wang	1539
Construction Quality Control and Inspection Measures of Ultra Deep Jet Grouting Pile C.L. Wang, S.Q. Sun, J.Z. Xia, B. Qian, Y.S. Li, Z.X. Wang and C.X. Ni	1543
Concrete Structure Safety Inspection Analysis of a Floodgate on the Yellow River C. Ma, X.L. Sun and Y.B. Zhao	1548
Influence Study of Different Site Type on Seismic Performance of Pipeline with Defects L.L. Wang, L.L. Xu and X.Q. Zhang	1551
The Analysis on Influential Factors of Building Project L.B. Fu and Y.W. Wang	1555
The Practice in Reform of Refining Government Supervision on Construction Quality H.D. Guo, J.R. Liu, Y.X. Zhang, L.Z. Lei and Z.W. Mi	1562
Preliminary Study on Review Behavior of Design Documents of Construction Drawings C.B. Zheng	1568
Design Quality Assessment Method of the Primary and Secondary School Teaching Building Engineering Design System Y.Q. Su, L. Qiao and Q.L. Li	1572
Analysis of Responsibilities Division of Quality Defect during Defects Notification Period under the Condition of "Supply-Only" Materials Y.L. Yin and X.C. Ji	1579
The Analysis of Butterfly Effect on Project Quality in the View of Quality Chain G.B. Han and Q.C. Gao	1584
Study on Miners' Fatigue Risk Evaluating System R. Ni	1589

Chapter 7: Urban Planning and Design

Quantity or Quality Evaluation of Open Space in the Urban Ghetto of Downtown, Vancouver H.R. Wu and C.P. Hou	1599
--	------

Study on Contents and Methods of Historical and Cultural Village Planning and Design Based on Daliangjiang Historical and Cultural Village, Jingxing County, Hebei Province A.Q. Jia, H.Y. Liu and Y.G. Hao	1603
Analysis of Living Character of Ranzhuang Historical and Cultural Village L. Wang, G.Z. Shang, T.Y. Du and W. Fan	1607
The Urban Planning Strategies to Solve the Parking Difficulties in Harbin F. Lv and X.C. Qi	1612
The Development Main Points of the New Area in Small-Scale City of Northwestern China - Pingdiquan New Area in Jining District of Wulanchabu City as an Example H.J. Niu and J.B. Zhao	1617
Hubei New Town Planning System Research N. Lin	1621
Singapore's Urban Planning and Management of Enlightenment to Xiangyang Y. Li, Y. Li and H.X. Xie	1625
The Expressions and Enlightenment of Decentralism City Planning Thoughts in Modern China D.W. Wang	1630
A Study on Design of Residential Quarters from the Perspective of Residents' Behaviors and Psychology Y.Y. Lei	1634
Current Situation of Mountain Villages in the City Tourism Plan is Becoming a Great Concern-Take Nanyu Village in Shandong as Example Y. Bai and X.X. Xu	1638
Analysis on Characteristics of Road Planning of University Campus F.X. Ouyang	1642
Research on Industrial Planning Model and Development Path of XiXian New Area from the Perspective of Urban-Rural Planning S.L. Jia and P. Zhang	1648
The Planning Design of Ecological Residence Area Based on Sustainable Development Concept H. Zhang	1652
Rural Community Planning Research - Taking PingQuan County YangShuLing Town SanZuoDian Community Planning as an Example Y.F. Zhong and H. Qi	1657
The Urban Old Building Reconstruction Design Based on Sustainable Development Context C.H. Wu	1663
Study on Positive Significance of Humanity Factor in the City Planning X.C. Wang and G.S. Man	1669
The Research on the Site Selection of Tourist Resort Based on GIS Z.M. Guan and W.F. Qiao	1674
The Characteristics of the Elite Activities Space in the Information Society: A Case Study on the Yangtze River Delta L.Z. Shen	1679
Spatial Layout of Linear Cities in Eastern Region of Northwest China H. Yang	1684
Characteristic Analysis and Protection Study on the Pattern of Ancient City of Dai County in Shanxi Y.J. Liu and J.P. Wang	1688
A Brief Discussion on the Urban Brand Strategy of Fengcheng Town, Wenshui County L. Wang and C.L. Meng	1692
A Smart Time-Space Collaborative System for Construction and Design in Digital Cities Y. Ai, B. He, H. Liu and X.H. Liu	1696
Planning Control and Guidance Research on Residential Differentiation L.L. Li	1700
An Empirical Research on Industrial Structure Optimization of Provincial Area Based on Two-Oriented Society D. He and W.C. Li	1706
Progress of the Study of Rural Clustering and Village Allocation Planning Method X.X. Dang and L. Luo	1710

Research on Land Planning and the Integration of Beijing, Tianjin and Hebei Langfang M.H. Gao and B. Chen	1715
Research on Ecological Nodes of Campus Based on Eco-Network Planning for University Q.F. Zeng and H.B. Lin	1719
Research on Mixed Vitality of Historic District and Space Mode Optimization: A Comparison between Hefang Street and Xinyifang in Hangzhou X.Q. Zhu, J.J. Sun and J.Y. Fu	1724
Protection and Reconstruction Strategy Research of Mixed-Used Historical Settlements Shengzhou Dongqian Street as an Example X.Q. Zhu, J.Y. Fu and J.J. Sun	1730
The Enlightenment of the Planning Modes of Foreign Resort Island for Island Resort's Planning in Zhejiang Province Y. Xiong, F.H. Chen and P. Feng	1735
The Study of Arrangement Model and Potential Maximization of Rural Land P. Ren, B.T. Hong and J.M. Zhou	1740
An Empirical Study on Influencing Factors of Residential Location Choice in Hangzhou, China X.B. Xie, X.Q. Bu, M.J. Zheng and H.Z. Wen	1747
The Preliminary Study of Protection, Development and Development Mode in the Northwards Progress of Xi'an City Y.H. Zhao and Y.H. Lei	1752
The Status and Prospect of Rainwater Utilization Site Appropriateness Research in Northwest Semi-Dry and Semi-Humid Region J.H. Yang and B. Liu	1761
Research on the Settlement Causes and Tourism Development of Ancient Village in Western Beijing L.S. Xi and C.X. Zhang	1767
The Evolution of Urban Color and its Causes in Jinlang District, Shenyang X. Lu, C. Liu, X. Han, Y.H. Huang, H.Q. Xu and J.M. Fan	1772
Relocation Pattern for Minority Villages Stricken by Wenchuan Earthquake J. Xiao	1777
Fuzzy Comprehensive Evaluation on Multiple Constraint Factors of City Underground Space Development and Utilization C.A. Zhou, H. Ren and J.Y. Zhou	1783
Evolution of Urban Spatial Form under the Perspective of Industrial Structure Adjustment - The Case of Inner Mongolia Baotou J. Lei and H. Su	1789
Methods of Reusing the Old Industrial Sites Y. Hu	1793
Research on the Deconstruction and Application of "Xinya Style Architecture " Based on Building Information Modeling Technology R. Han, J. Lv and B. Li	1797
Research of City (Country) Urban System Planning Evaluation J.M. Zhang and X.D. Sun	1801
The Research of New Urbanization Model in Hohhot-Baotou-Ordos Region D.P. Liu and Y. Zhao	1807
The Relationship between the Requirement of Underground Space and Ground Space: The Main City of Nanjing J.J. Cheng and F. Zhong	1811
Study on Living Space of Landless Peasants after Dismantling Villages and Setting up Urban Communities - The Case of Hubin Community in the New Zone of Wuhan Y. Li and Y. Li	1817
Application of GIS in Urban Disaster Prevention Park Planning Z.D. Wu and H.Y. Liu	1822
Study on the Airport District Planning Based on Pulling of Strategic Resources Z.D. Wu and H.Y. Liu	1828
The First Exploration to Traditional Style Protection of the Historic Villages and Towns Q. Liang and G.H. Wang	1832

Study on the Space Design of Urban Commercial District in Cold Areas X.L. Xu, J. Liang, M.Y. Zhang, J.W. Li and L.W. Guo	1836
Cultural Identity and Continuity - Case Study of Authentic Conservation of Xi'an Bei Yuan Men Historic District H.Y. Li and F. Wang	1840
Developing an Urban Design Competition Proposals Evaluation System Based on the Sustainability Assessment at Area Scale for China B.Y. Zhao, X.P. Zhang and W. Qin	1847
Research on Location of Integrating Village Migration in Coal Mining Areas Based on AHP-Grey Correlation X.H. Zhang, W.B. Wang, S.M. Zhang and Y.Q. Zhu	1851
Analysis of the Relationship between Land Use, Development, and Construction near a Rail Traffic Station and Passenger Flow Volume: The Case of Tianjin Metro Line 1 S.H. Teng	1856
Analysis of Ecological Transformation of Block Based on Safety of Public Space: Imperial Street of Southern Song Dynasty as an Example J.Y. Fu and J.J. Sun	1863
The Construction of Non-Motorized Transportation Network Based on Residents' Preference in Urban Central Area X.S. Xi, B.X. Gu, M. Yin and X.S. Wang	1868
Research on Rural Planning Strategies Based on the Coordination with the Development of Large-Scale Construction Projects - A Case Study on Yanqing County in Beijing Q. Yuan, J.G. Zhao and Y.Y. Xia	1882
Study on Authenticity Protection and Restoration of Residential Historic District H. Leng, T. Shi and J. Zhao	1886
Traditional Village Revival and Rural Tourism: A Case Study of Yang-Shan Village in Jingning County H.Y. Zhou, H.J. Han and X.Y. Hu	1890
Interpretation of Residential Type of Mongolian Herdsman in Inner Mongolia Grassland J. Bai	1894
Historical Performance Evaluation of City Fire Fighting and Rescue Force J.T. Yang	1901
The Influence Mechanism of Urban Rail Transit on the Urban Land Use and Spatial Development: Nanjing Metro Line 1 as a Case Study Q.W. Rong	1905
Influencing Factors Study of the Contemporary Spatial Expansion of Wuhan X. Li	1911
Exploration on Traditional Courtyard Micro-Climate Characteristics and Improvement Method - Case Study of No. 6 Courtyard of Chang'anxue Alley in Xi'an Sanxuejie Historic District R.B. Fan and X.M. Li	1918
Research on Interaction of Xi'an Urban Development with Great Heritage Sites Protection L. Lv and R.Y. Lv	1928
A Study Based on Subject of Administration Perspective of Shenyang Early-Modern City Planning J. Wang and B.H. Li	1935
The Study of Region Combined with Era on Planning Design of First High School in Dongxiang County F.J. Xu and N. Wu	1939
Exploration on the Eco-Village Planning from the Perspective of Low-Carbon Y.Y. Zheng and S. Gao	1945
A Framework for the Study of Integrated Design of Rail Transit and Urban Public Space Y.W. Zhang, J. Li and Y. Yu	1949
Structure Model and Developing Rules of Space Form Evolution of Xi'an High-Tech Industries Development Zone Z. Cui and Y. Zhang	1953
Strategies for Protection and Development of Traditional Village H.X. Jia, Y. Peng and Q.H. Dong	1958

The Cause Analysis and Countermeasures of Waterlogging in Wuhan W. Xia	1962
Study on Protectional Ideas and Constructed Strategies of Vernacular Landscape during Planning and Design of Small Towns S.J. Bai and S.Y. Xiao	1966
A Brief Analysis of the Urban Street Design Based on TOD Mode Q. Ning, B.R. Zhou and Y.X. Zhou	1970
The Cultural Heritage Protection in the Process of Urbanization X.M. Wang and L. Fan	1975
Regenerative Design of the Moat in the Rehabilitation Historical Ancient City of Xi'an Y. Zhang and B.Y. Hou	1979
The Urban Environment Design Based on the Combination of Ecological and Cultural Expressions Z.Q. Xiao	1984
Research on the Urbanization Path in China Y.N. Yang and F.F. Yu	1988

Chapter 8: Landscape Planning and Design

A Study on Citizen's Preference for Waterscape Design in Urban Open Spaces N. Yu	1995
Discussion on the Intergration of Road Landscape Design and Urban Mining and Metallurgy Culture in Huangshi City O. Xie and Y.S. Tu	2002
Design of Landscape Architecture for the Huaiyin Garden as Flower Theme Park to Inherit Flower Culture, Jinan City D. Shen and Y. Liu	2005
The Study on Environment Behavior Influence of Settlement Pavement Design Strategies W.B. Sun	2010
On the Strategies of Optimizing the Landscape of the Urban Green Space: Based on Ecological Security F.Q. Ji and J.L. Chu	2014
Landscape Regeneration Strategy of Waste Quarries in Urban Area H. Tang and S.Y. Shen	2018
Application of Waste in Landscape Environment Restoration H. Tang and Y.Y. Xu	2023
Searching for Design Method about Waterfront Environment in the City Park with Ecology Priority B. Ma	2028
Explore Residential Area Landscape Design Features - Taking the "Pearl of the Blue Sea" for Example D.Q. Tong	2032
Analysis of the Function of Urban Sculpture in Landscape Environment W. Yang and C. Yan	2036
Study on the Coordination between City Sculpture and Landscape Environment C. Yan and W. Yang	2040
Research on the Facility Factors in the Hospital Healing Environmental Design X.X. Fan and T.Y. Jung	2044
The Study of Waterfront Landscape Planning and Design of the South Bank in Sui Chuan County F.J. Xu and Y. Ding	2050
The Effect of Grain Size on Landscape Indices Analysis of Shijiazhuang J.Y. Xiao, X. Li and N. Ji	2055
Plant Landscape Design Research of Urban Residential Area Based on Low-Carbon Concept Y. Li, L. Liu and X. Li	2059
The Application of Natural Building Stones Material in the Modern Landscape W.Z. Li	2063

Environment Design of Community Suitable for Elderly Living L. Lin, X.Y. Zhao and J. Zeng	2067
Discussion about Type Characteristics and Design Strategic Focus of Residential Area Landscape H.Y. Guo and Y.N. Cai	2071
Predicaments of Heritage of Rural Cultural Landscape during Urbanization and its Solutions S.Y. Xiao and S.J. Bai	2075
Guide of Urban Open Space for Research on the Urban Landscape in Xi'an B. Liu and Z.G. Liu	2079
Study on Constructing of Green Infrastructure and Riparian Wetland of Cities in Northwest Semi-Arid Area D.H. Xu, X.H. Ding, H. Liu and Z.Y. Zheng	2085
Economics Analysis of Landscape Based on SCM X. Wang, J.R. Zhang and Y.T. Wang	2092
Ecological Strategies of Landscape Planning and Design in University City K. Zhu and H. Tang	2096
Analysis of China's Highway Ecological Landscape Design Example Y. Zhang, Y. Zhang and Y. Wang	2100
Landscape Elements Analysis of Defensive Settlements along Ming Dynasty Great Wall with the Concept of Cultural Landscape X.M. Cao and R. Quan	2104
Application Research of Landscape Effect Degree (LED) in Damaged Mountain Restoration (Green Mine) in Beautiful JiNan City Y.W. Zhang, S.C. Li, B. Zhang, C.H. Yuan and X.G. Chen	2110
Analysis on Plant Design in Landscape Design Y. Zhang	2114
Status Analysis of Linpan Protection in Land Consolidation of Chengdu Plain L.L. Jia and H. Cui	2118
Analysis on Color Configuration of Plants in Landscape Design Y. Zhang	2122
Inherit and Reconstruction of Chinese Rural Landscape Culture - On the Development of Chinese Rural Settlements under the Background of Fast Urbanization Q.J. Sun, N.Z. Maliki and R.X. Zhang	2126
The Discussion on the Influence to Biological in Ecological Function Areas by Planning - Take the Example of Xing'an Mountains Ecological Function Areas G. Han, P. Bo and H.J. Xia	2131
Application of AHP in Highway Landscape Assessment System W. Wang and N. Li	2134
A Discussion on Content and Methodology of City Landscape H.Y. Guo and Y.N. Cai	2141

Chapter 9: Project Management in Building

Construction Project Cost Management Based on BIM Technology Y.L. Yin and K. Qian	2147
The Design and Application of Information Data Base of Construction Cost Y. Qiu, Y.L. Yin and G.Z. Zheng	2153
Determination of Comprehensive Unit Price of Variation Using Cost Plus Profit Principle J. Chen and H.R. Tang	2159
Research on Bias of Owner's Decision-Making in Risk-Sharing in Construction Project - A Perspective of Bounded Rationality Y.L. Yin, Z.C. Xu and Q.S. Zou	2164
Critical Issues for Implementing DB Projects in Taiwan M.T. Wang, C.C. Tsai, L.M. Chang, T.L. Ngo, V.D. Mai and Y.H. Sung	2171
Risk Analysis of Hydropower Construction Project Based on Fuzzy Comprehensive Evaluation Y.N. Wu, Z.S. Hu and R.H. Xu	2177

Design Process Optimization Method of Indemnificatory Housing Project Based on DMAIC Theory	
J. Zhu, P. Mao and M. Li	2182
The Project Bid Evaluation Based on Triangular Fuzzy Number and its Application	
Y.F. Xie, X.J. Cheng and X. Zhang	2188
Management Research on the Construction Enterprise Project Cost	
H.Y. Zhang and J.W. Zhao	2193

Chapter 9: Project Management in Building

Construction Delay Analysis and early Warning Model Based on Design Structure Matrix	
D.Y. Liu and J.G. Chen	2199
Maintenance, Building Depreciation and Land Rent	
B. Manganelli	2207
Construction Program Evaluation of Public Project Based on AHP and DEA	
B.K. Qi, C.F. Li, Z. Lu and M.Z. Wang	2215
The Maturity Model Research of Construction Project Management Informationization	
J. Chen, G.H. Yu, S.Y. Cui and Y.R. Feng	2222
Improving the Project Performance Based on Continuous Workflow and Reliable Planning	
X.F. Xue and J.G. Chen	2228
Study on Compilation and Application of Engineering Cost Index for Construction Project in China	
H. Ke, R.Z. Wu and G.F. Luo	2233
The Necessity of Project Portfolio Management in the Construction Industry of China Mainland	
N. Guo and S.W. Yu	2238
Application of Internet of Things Technology in the Property Management of Intelligent Residential District	
B. Jiang	2242
Study on Performance Evaluation Model for Agent Construction Manager Based on SCP	
X. Deng	2246
The Selection of BT Project Organizational Structure Based on Communication Efficiency	
J.L. Tian	2250
Research on Evaluation Method for Construction Bidding Projects	
Y.G. Liu and H.R. Tang	2254
Coordination of Construction Project Cost and Schedule Based on Grey Forecasting Method	
C.L. Sun, H. Song and R. Tian	2259
Research on Multi-Project Resource Allocation Process and Application	
X.L. Zhang, J. Li and Y.F. Zhu	2267
Study on the Problems and Countermeasures of Rural Drinking Water Safety Engineering Construction and Management in China	
X.K. He and C.M. Qin	2273
Using Fuzzy Matter-Element Model and Triangular Fuzzy AHP Method to Select the International Construction Project Material Suppliers	
J. Guan, Z.H. Zhang and Y. Wu	2277
The Practice and Research for Total Contract Management Mode of Land Replacement - Total Contract Management Experience of Weifang Cultural Arts Center Project	
X. Hua	2282
A Brief Analysis of Renovation Project Management of Shanty Towns	
J.G. Cai	2289
Research of Safety Management Innovation of Construction Project	
M. Cheng and G.Q. Ma	2295
Study on the Decision of BOT Project Concession Period Based on a Fuzzy Comprehensive Evaluation	
Q. Yu and Y.N. Zhang	2299
The Risk Evaluation Model of Construction Project Contract Based on BP Neural Network	
H. Liu, J.F. Yang and Z.Y. Zhang	2304

Structure Updates Chinese Kang Technical Countermeasures H.G. Ren and G.W. Li	2308
The Benefit-Cost Analysis on Construction Project Feasibility Y.T. Ma and C.J. Ma	2312
The Application Research for Business Operation Management Based on BIM Y.G. Xu and Z. Zhang	2316
BIM-Based Commercial Real Estate Operations Flatten Structure Research Y.G. Xu and Z. Zhang	2320
Study on Residential Construction by Self-Builders Y.L. Lee, S.C. Lee and Y.C. Shiau	2325
Analysis on Unified Specification of Engineering Quantities Calculation in Practice H.J. Ni	2330
Program Evaluation and Review Technique (PERT) in Construction Risk Analysis M. Liu	2334
Communication Network Analysis of Project Teams in Korean Building Constructions J.Y. Kim, S.T. No and Y.K. Park	2338
Study on the Sustainable Development in the Coalmine Construction Project Based on Order Parameter X.B. Shi and C. Zhao	2342
Project Management Factors Affecting Green Building Projects: Case Study of Singapore Y.Y. Li, P.H. Chen, D.A.S. Chew, C.C. Teo and Y.Q. Xu	2346
Study on Behavioral Risks Based on Complexity Theory X.D. He, Y.L. Wang and Y.Y. Zhang	2353
The Focus on Coordination in the Project Management B.X. Cui	2358
A Group Decision Making Model of Water Resources Management Based on Supporting Degrees of Experts Y.J. Zhao, F. Zhang and D. Zhang	2362
Study on Information System Based on Gridding Management for Hydropower Project during Construction H.L. Cai, S.S. Ye, X. Xiao, Z.Y. Wu and J.F. Zeng	2366
The Application of Earned Value Management in Small and Medium-Sized Hydropower Stations Project J.Y. Zhang and S.J. Wang	2371
Project Cost Control Based on Dynamic Y.M. Hu and C. Liang	2379
Contractor Evaluation Model for Large Project Based on Grey Relevancy W. Zhang, Y. Yang and W. Liu	2384
Framework of a Smart Local Infrastructure Management System H.Y. Xie, T.T. Liang, R.F. Babiceanu and C.W. Lu	2388
A Study on Application of Supportive Housing in Chinese Affordable Housing H.T. Jiang and Q.C. Ban	2393
Issues on the Construction Process of Punched Cast-In Situ Piles F.F. Jiang, S.L. Wang, X.L. Zhang, Z.X. Wang, L. Liu and F.F. He	2398
Application of BIM on Quantity Estimate for Reinforced Concrete Y.M. Cheng and J.Y. Chen	2402
Construction Project Cost Control under the Mode of List Valuation J.H. Liu	2406
Optimization Design of Cantilever Supporting Structure W. Xu, J.S. Feng and F.F. Feng	2410
Game Analysis on Collusion Tender in the Construction Projects Bidding H.B. Shi, X.W. Li and H.J. Xu	2414
Route Selection of Expressway Based on VE and AHP H.Z. Zhu and Y.Q. Chen	2420
Research on the General Construction Layout of Tsingtao Bay Bridge Q. Yuan, Y.Z. Wang and Y.G. Wang	2426

Ordered Weighted Geometric Averaging Operator Multi-Attribute Decision-Making Model under the Preference Circumstances J.W. Huang, D.L. Lu and T. Zhang	2430
Application of Gray-Fuzzy Comprehensive Evaluation in Duration Risk Forecast of Hydropower Project H. An, S.Y. Tang and R. Wang	2434
Influence and Control Measures of Architectural Design on Project Cost L.M. Zhang	2441
Study and Application of Information Management System for Government-Invested Construction Projects X.H. Wang, H.N. Li, J. Liu, S.H. Jiang and H.C. Ma	2445
Research of Cost Estimation of Energy-Saving Buildings Based on the Full Lifecycle Theory H.L. Li, H.T. Liu and X.Q. Li	2454
Hydraulic Construction Project Safety Management: A Human Side Perspective H.Q. Cai	2460
Establishing of Construction Project Risk Indicators System Based on Factor Analysis L.M. Xia and X.N. Li	2464

Chapter 10: Engineering Management and Engineering Education

The Exploration of BIM Technology Application in the Building Fire Emergency Plan X.Y. Bi, J. Wang and J.Y. Zhang	2473
The Construction Agency's Reasonable Profit Research Based on System Dynamics Y. Wang and L. Wang	2478
A Comparison of the Relative Advantages of China and India in International Construction C. Chen, I. Martek and M. Shah	2483
Construction of the Core Competitiveness Evaluation Index System of Engineering Consulting Firm Based on Fuzzy Analytic Hierarchy Process (FAHP) L.J. Shen, L.F. Ruan and J.B. Ye	2489
The Evaluation of Design Supervision Service Based on the Method of SERQUAL P.C. Pan	2494
Modification to the FIDIC Silver Book in a Buyers Market Context: A Case Study of the Hai Phong Power Plant II Project C. Chen, C.H. Jiang and H.J. Li	2498
The Study on the Comprehensive Benefit of Public Buildings Based on Fuzzy Analytic Hierarchy Process Q.J. Guo, F.T. Hao and Z.W. Pan	2505
Strategies for Inherent Safety Design during Engineering Construction X. Wang, L.J. Zhang and X.Y. Liu	2510
Research on the Relationship between Agricultural Information and Urban Agriculture Economic Growth H.H. Shi, Y.J. Shi and G.C. Xu	2515
The Problems in PPP Project Decision Process in China Comparing with Singapore X. Qi, C. Yi and J. Li	2519
The Impact of BIM Application to the Project Organizational Process W. Ting, Y.K. Ying and L.P. Xiao	2524
Green Evaluation Analyse of the Construction Quality Management Y.P. Yang	2529
Discussing the Influence of BIM for the Construction Project Cost H.K. Zheng and J.W. Cao	2533
Based on the DEA Model of Security Housing Construction Efficiency Research D. Li and Q.J. Du	2537
The Study of Safety Management in Constructional Engineering R.J. Zhu, Y. Peng and Y.S. Chen	2542
The Research of Risk Management in Project Contracts R.J. Zhu, Y. Peng and Y. Sun	2546
Explore and Analyse Construction Project Risk Management H.Y. Zhang and J.W. Zhao	2550

Research on Construction Cost Control of Contestable Measure Items - Taking a Project in Shijiazhuang as an Example X.M. Yu, Z.B. Xie and L.J. Cao	2555
The Study on Value-Added Information Service Modes Based on the Sci-Tech Novelty Search W. Zhang, S.J. Chen, Q.T. Fan, Y. Du and X. Li	2560
The Study on Hotspot Research Fields of Beijing Municipal Scientific and Technical Innovation - Based on the Statistical Analysis of Novelty Search Projects in 2007-2011 W. Zhang, Y. Du, W. Xiao, S.J. Chen and W. Gao	2565
A Study on Construction Technology of XuPingnan Expressway ATB Base T. Peng	2570
The Impact of Development Speed on New Product Success: A Meta-Analysis P.B. Gao, B. Yu and W.W. Wu	2574
Reference to Similar Work in the 99 Version of the FIDIC Construction Contract Change Valuation Methods to Improve Research L.M. Xia and R. Guo	2578
Research on Model of Division of Tender of Engineering: A Minimization Cost Perspective L. Yan and Q. Sun	2584
Discussion on Application of PDCA Theory in Metal and Non-Metal Mine Safety Standardization Management System Y.J. Liu, Z.C. Tian, M. Han and Y.H. Ren	2590
Analysis of Unsafe Acts in Mine Roof Accident and Prevention Measures W.T. Yin, G. Fu, P. Gao and S.H. Shi	2594
Construction Productivity Factors Affected by the Motivation of Foreign Laborers in Construction Fields Y.S. Shin, J.D. Kim, T.Y. Kim and G.H. Kim	2599
Based on Factor Analysis of Building Influencing Factors System of the Highway Construction Project's Cost L.M. Xia, K.L. Song and Z.Q. Deng	2603
Study on Forecast of Engineering Project Cost Using Single Regression Method W.Q. Li, F. Li and Y.X. Yang	2610
Study on Service-Oriented Organization of Large-Scale Construction Y.Q. Xu and D.D. Wang	2614
Study on the Engineering Cost Management Systems H.Z. Zhang, F. Pan, Z.H. Zhang and C.Y. Cheng	2621
Research on Organization Design of Large-Scale Construction Programme in China from the Perspective of Service-Dominant Logic Y.Q. Xu, D.L. Zeng, D.D. Wang and X. Qi	2625
The use of Past Projects as Means to Enhance the Education Experience of Civil Engineering Students L.T. Leong and W. Elleithy	2634
Engineering Project Risk Interpretation Structure Model Building and Analysis R. Zhang	2640
Application of Game Theory in Bidding Strategy X.H. Qin and F. Luo	2645
Improvement and Application of Risk Matrix C.J. Yi, C.Y. Zheng and Q.H. Fu	2650
Risk Analysis and Control in the Yellow River-Crossing Tunnel of South-to-North Water Diversion East Line B. Liu, Y.Z. Wang and M.T. Niu	2655
A Study of the Constitute System of Cost Claim under the Valuation Mode of Bill of Quantities (BQ) Y.L. Yin, Y.C. Huo and T. Sun	2659
Risk Management of International Project Based on AHP and FMEA J. Zhong and Z.Y. Lin	2665
Study on Process Optimization of Design Phase Based on BIM in China L. Zhang, G.B. Wang and X.F. Zhang	2671
Discussion about the Professional Quality and the Education for Civil Engineers J.M. Liu	2676

Integrated Risk Management Based on Life Cycle of Engineering Project F.Z. Luo and Y.H. Han	2680
Value Engineering-Based Selection Strategies of Real Estate Development Scheme M. Cheng and G.Q. Ma	2684
Evaluating Competitiveness of Urban Logistics Using Fuzzy Logic AHP J.Y. Li and Y.Q. Che	2688
Research of Construction Enterprises Adverse Selection Based on the Signaling Model W. Ying and H. Jia	2692
Exploration of Safety Engineering Course Oriented to Civil Engineering Discipline H.L. Guo and X.J. Yue	2696
Supplier Selection Based on FAHP-VIKOR-IVIFs H.L. Jiang and H.X. Yao	2703
Analysis of Prominent Problems Existing in Construction Domain of China and Study on Institutionalized and Informatized Solutions X.H. Wang, H.N. Li and S.H. Jiang	2708
Marketing of Glass Industry and Establishing of Customer Relationship G. Wang and F.Y. Ning	2716
Road Inspection Scheduling Model Using Constraint Programming H.S. Wang and S.S. Liu	2720
The Analysis of Definition of Large Projects Basing on Time and Space Scales Y. Sui, W. Wu and M.X. Zhang	2726
A Hesitant Fuzzy Multiple Attribute Group Decision Making Approach Based on TOPSIS for Parts Supplier Selection J.L. Zhang, X.W. Qi and H.B. Huang	2730
Research on Influencing Factors Model of Highway Engineering Cost Based on Pathway Analysis L.M. Xia, Y.N. Bian and Z.Q. Deng	2738
The Influence of Group Efficacy, Group Identification on Group Performance of University Students Organizations X.J. Li, L.Z. Jia and Y.M. Zhang	2744
Green Building Supplier Selection Based on Advanced Entropy-Revised G1 Combination Weighting and TOPSIS Y.H. Mao, P. Wang, F. Sun and W.H. Zhou	2748
Comprehensive Evaluation on Multiple Constraint Elements of City Underground Space Development and Utilization Based on Analytic Hierarchy Process and Fuzzy Comprehensive Evaluation Method C.A. Zhou, C. Chen and H. Ren	2754
Shaping the "Field Effect" in Communication Space of the College Teaching Building H.O. Wang	2759
Research on Evaluation Index System and University's Green Degree Evaluation Model Y.L. Chen, X.P. Feng and Y.K. Liu	2763
A Survey on the Influential Factors in Energy Performance Contracting Process in China Y. Qu, C.H. Quan, J. Darkwa and D. Chow	2768
Study on Application of Time Petri Net in Nursing Home Site Selection W.Z. Yan and G.Y. Ren	2775
Research on BIM-Based Construction Project Organization Interface Management H.L. Liu, G.B. Wang and L. Zhang	2781
Literature Review on the Incentive Policies to Promote the Development of Green Building G. Liu and X. Li	2785
An ANP-Based Value Engineering Study Performance Assessment Model for Public Works W.T. Chen, S.S. Liu and S.W. Liou	2793
On the Situation and Countermeasure of the Talent Structure of Safety Management in the Construction Enterprises X.W. Pei	2798
The Critical Group of the Vertex Corona of Cycles and Complete Graphs in Industry X.H. Tan, J.G. Zhu, C.W. Cai, K.R. Yu and H.Y. Qian	2802

"A+T-CDIO"-Architecture Major Oriented Talents Cultivation Objectives Establishment and Curriculum System Construction - Using Architecture Major of Ningbo University of Technology as Example C.Y. Liu and R. Duan	2806
Study on Grey Comprehensive Evaluation Based on the APH of the Site Selection of China Inland Nuclear Power Station Y.N. Wu, L. Tan, R.H. Xu and Y.S. Yang	2810
Research on the Calculation Method of Engineering Insurance Rate Based on Bill of Quantities W.K. Chen, P. Yu and Z.Y. Zhang	2818
Risk Management of Information System Project H.B. Liu, F. Li and W.Q. Li	2826
The Comparison and Analysis of Governance Framework for Public Projects: China and the Developed Countries, and Implications Y.N. Wu, N. Mandula, H.Z. Qi and Z. Wang	2830
On how the Knowledge Network Reduces Knowledge Transaction Cost: From the Prospect of Transaction Cost Theory S. Peng, M.Y. Zhou and W.X. Yu	2834
Study on the Evaluation Index System of Project Performance Based on Knowledge Management L.M. Xia and J.J. Zheng	2839
Research on the Application of BIM in EPC Delivery Model J. Zhu and W.G. Han	2845
Improving Life Cycle Quality of Navy Vessel through Integrated Management Approach Q.L. Ma, Z.R. Xie and J.W. Lv	2849
The Study of the Factors Affecting Urban Residential Land Price H. Jiang, S.H. Jia and Y.F. Huang	2854
Study of the Integrated Evaluation Index System of the Design of Energy-Saving Building and the Optimization of these Designs Based on FAHP-Entropy Weight J.B. Ye, L.J. Shen and P. Gu	2859
Computer Integrated Construction and Facility Management H. Liu and W. Wu	2865
The Application of Box-Cox Transformation in Selecting Functional Form for Hedonic Price Models H.Z. Wen, X.Q. Bu and L. Zhang	2869
Management and Modern Aspects of Safety in Civil Engineering P. Suchardova and O. Sucharda	2876
Post-Evaluation about Construction Process for Cogeneration Plant Based on Fuzzy Soft Set D.X. Niu, L.L. Fan and Q.L. Wu	2881
Identifying Appropriate Procurement Systems in the Construction Industry in Iraq Using Procurement Systems Judgment Method H.D. Al-Jawhar and S.E. Rezouki	2885
Empirical Analysis on the Risk Factors of Total Repurchase Price in BT Project of Urban Rail Transit L.M. Xia and L. Sun	2890
Hydraulic Construction Safety Management Model Research Based on Knowledge Management H. Li and G.Q. Shang	2896
Operation and Management of Urban Planning Exhibition Hall in the Mixed-Use Mode: Hangzhou as Example X.Q. Zhu, J.Y. Fu and J.J. Sun	2900
Countermeasure to Collapse Accident during Use of Fastener-Style Steel Pipe Scaffolding Z.X. Yu, H. Li, T. Cheng, L.P. Qin, Z.H. Wu and Y. Chen	2905
General Situation of Constuction Machinery Development in Mechatronics Technology M. Tian, X.W. Zhang, H.Y. Zu and Y.N. Qiao	2909
Application of FCJ in the Evaluation of Low-Carbon Construction Program L. Liu and T. Zhang	2913

Analysis for Collapse Accident of Fastener-Style Steel Pipe Formwork Support System Z.X. Yu, H. Li, T. Cheng, L.P. Qin, Z.H. Wu and Y. Chen	2917
Solving Economical Operation Problem of Basin Cascade Plants Based on Bi-Level Coupling Genetic Algorithm X.L. Yin and Y. Yang	2921
A Simplified Way of Implementing Value Engineering for Public Works W.T. Chen, T.C. Tsai, S.W. Liou and W.S. Shen	2925
Study on Choice Model of Sales Channel on Grain Supply Chain H.F. Song and Y.Z. Liu	2931
Comprehensive Assessment on Emergency Evacuation Capability of the Subway Station Based on Fuzzy Network Analysis S.L. Zhang, M.L. Liu and E.M. Sun	2935
