Preface

2010 International Conference on Frontiers of Manufacturing and Design Science (ICFMD2010) will be held in Chongqing, China during December 11-12, 2010. The aim is to provide a platform for researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities in Manufacturing Technology and Design.

ICFMD 2010 will be the most comprehensive Conference focused on the Frontiers of Manufacturing and Design Science. The conference will promote the development of design and manufacturing science, strengthening the international academic cooperation and communications, and exchanging research ideas.

In this conference, we had received more than 1800 submission from email and electronic submission system, which were reviewed by international experts, and about 820 papers have been selected for presentation. We believe the proceedings will provide the readers a broad overview of the latest advances in the field of manufacturing and design science.

We would like to thank the conference chairs, organization staff, and the members of International Technological Committees for their hard work. Thanks are also given to Trans Tech Publications.

We look forward to seeing all of you next year at the ICFMD2011.
