

Table of Contents

Preface and Conference Organization

Chapter 1: Materials and Processing Technologies

Numerical Simulation of Thickened Insulated Siding Wall Shear Behavior K.W. Ding, Y. He, Y.Q. Che and Y.L. Liu	3
Experimental Study about Bearing Capacity and Deformation on Concrete Composite Slabs with Additional Bars J.H. Cui, C.Y. Weng and Y.L. Liu	7
Nonlinear Analysis of Steel Tube Filled with Steel-Reinforced Concrete after High Temperature B.D. Zhao, X. Liu and P.C. Chen	11
Finite Element Analysis of Shear Behavior of Reinforced Concrete Beam Strengthened by High-Strength Steel Wire Mesh C.X. Yang, Z. Liu, L.P. Sun and J. Li	15
Dynamic Properties of Steel Fiber Concrete under the Action of Noncyclic Variable Amplitude Load J.S. Lei, Y.W. Zeng, G. Peng and Q.F. Wang	20
Correlation Analysis of CPT Parameters and the Physico-Mechanical Parameters of the Loess-Like Silty Clay Soil M. Zhang, B.M. Wang and S.J. Wang	26
Impact-Resistant Performance Analysis of Composite Laminates for Reinforced Concrete Beam Fixed and Hinged at Different Ends R.L. Yang, L. Zhao and J.H. Zhou	30
Nano Materials and its Application in Space C. Wu, W.X. Ma, Y.P. Chen, Y. Li, Y. Chen and J. Li	34
Study on the GFRP Tube Columns by Eccentricity and Concrete Strength Affection X. Dong, Y.F. Zhang, Y. Yu, X.Y. Zhou and H.W. Guan	38
Nonlinear Aeroelastic Panel Flutter Based on Proper Orthogonal Decomposition J. Zhou and Z.C. Yang	42
A Method to Evaluate Mixture Segregation Based on Space Grid of Image Processing Technology H.C. Li, H.Y. Yue, F. Ye and J. Liu	49

Chapter 2: Structural and Mechanical Engineering

On Reduction of Stress Concentration around the Pin Hole in Turbine Discs L. Shi, Y.R. Wang, S.H. Yuan and D.S. Wei	55
The Research on Bearing Carrying Capacity of Aging Reinforced Concrete Beam Strengthened with CFRP B. Jia, D. Li, X. Liu and N.Q. Meng	59
The Study of the Flexural Capacity of Old and New Prestressed Concrete Hollow Slab Strengthened with CFRP B. Jia, L. Fu, Y. Zhang and Y. Lu	66
Analysis of the Press's Building Structure Z.X. Ma, Y.L. Wang and G.C. Yan	70
The Arching Process Research of SRC Beam J. Liu, H.J. Yuan and H. Li	74
Housing Industrialization and Steel Structure Housing X.Q. Pan, L. Cao and B.B. Wang	78
Research of the Thermal Performance of a New Type of Rock Wool Color Steel Sandwich K.W. Ding, W. Sun and D. Chen	81

The Impact to the Guyed Mast Welding Earplant Joint's Wind-Induced Cumulative Fatigue Damage by Different Eliminate Proportion of Welding Residual Stress	85
W.L. Wang, J. He and W.L. Qu	
On Health Monitor Technology Development for Damaged Aircraft Structures	90
X.M. Liu, Y.T. Ge and X.T. Yin	
Structural Analysis and Shape Optimization with Finite Cell Method	97
L. Meng, W.H. Zhang and Z.C. Deng	
Stress Distribution Form and Function Representation of Four Free Edges Square Basal Bottom Slab Touching Foundation	101
A.M. Li, H.H. Cheng and M.J. Huang	
Analysis of Dynamic Characteristics of Structure Design of Bridge Crane in 65t	109
J. Yang and Y.D. Dong	
Diagnosis Method Study of Transformer Windings Deformation Basing on Sweep Frequency of Short-Circuit Impedance	113
Y.P. Gong, Y. Xu, W.H. Wang, J.G. Bi, N. Yang and Y. Yang	
Statistical Analysis of Reinforced Concrete Structures Accidents	118
J.B. Sun, Y.Z. Zuo, H.W. Teng, T. Zhang and H. Liu	
Study on Rayleigh Damping in Dynamic Analysis for Story-Adding RC Structure of Light-Weight Steel	123
T. Zhang, Y.Z. Zuo, H.W. Teng, D.Y. Ma and H. Liu	

Chapter 3: Seismic and Vibration Engineering

Research on the Effects of Blocking Mass on Vibration Resistance Performance of L-Shaped Plates	131
H.B. Wen, L.B. Liu, Z.L. Peng and Q.D. Zhong	
Structural Modal Parameter Identification of the Bridge Subject to Environment Excitation	136
Y. Chen, C.Y. Huang and S.Y. Zhu	
The Research on Vibration Testing and Analysis Method of the Steel Truss Coal Trestle	141
C.F. Wei, S.Y. Hu and B.S. Zhao	
Analysis of Cantilevered Laminate with Piezoelectric Ceramics PZT5A Based on ANSYS	145
H.Y. Jia and X.F. Wang	
Magnetorheological Semi-Active Suspension System for a Tracked Vehicle	150
Z.Z. Peng, J.Q. Zhang, L. Zhang and D.S. Huang	
Effects of High-Speed Railway in Tunnel on Vibration Response of Upper Building	155
S.H. Xu, X.H. Zhang and H. Chen	
A Design Method of Position Schemes for Particle Dampers Applied to a Flywheel	163
B. Liu, Y.R. Wang and H.H. Feng	
The Vibration Characteristic Analysis of Feed System of CNC Machine Tool	169
Q. Wu and J.J. Yang	
Vibration Characteristics Analysis of Wide-Chord Hollow Fan Blade	174
X. Guo, Q.Z. Yang and Y.Q. Shi	
Feature Extraction of Diesel Engine Wear Fault Based on Local Tangent Space Alignment	179
H.B. Xiao, X.P. Xie, S.Q. Zhou and H.X. Xie	
Field Test and Analysis for Environmental Vibration Induced by Road Traffic Load	183
X.F. Fang and D. Li	
Research of Frequency Band by Multiple-Mode Extended for Longitudinal Vibration Acoustic Transducer	188
Z.Q. Wang, T. Li, H.R. Wang and S.Y. Wang	
Low Frequency Micro-Vibration Active Isolation Control System Design and Experimental Research	195
S.Q. Li, L.L. Wang and Z.F. Tao	
Study on Vibration Characteristics of the Vehicles Wing Structure in High Temperature Environment	200
D.F. Wu, L. Zhu, Y.W. Wang, S.G. Zhao and Y. Pu	
A Transfer Matrix Method for Frame Shear Wall Structures	207
S.Y. Zhang and M.H. Dong	

Study on the Deformation Mechanism of Floor Slab with Hole under Horizontal Earthquake	
S. Suo and S.Y. Zhang	213
Research of the Influence of Dual Functional Hysteretic Dampers on Seismic Behavior of Structure with Big Openings	
Y. Liu, Y. Li and H.L. Wang	217
The Characteristics of Geological Disasters Triggered by Wenchuan Ms8.0 Earthquake in Wudu District and Wenxian County of Gansu Province	
X.M. Zhong, P.B. Hou, Q. Wang and J. Wang	221

Chapter 4: Bridge, Road, Tunnel and Underground Facilities

Reinforcement Effectiveness Analysis of Road Pile-Plank Structure in Soft Soil Area	
H. Chen, S.H. Xu and B.Q. Zhang	227
Research on Monitoring the Bridge Deformation by Using GPS Technology	
C.X. Yu, J.D. Zhang, W.M. Xu and M.Z. Chen	233
Rockburst Dangerous Area Dividing in Guo-Tun Deep Mine	
J.K. Li, Y.B. Wang and Y.B. Fan	238
Mitigation Measures Research of Vortex-Induced Vibration of the Forth Nanjing Yangzi River Bridge	
J. Ding and H.L. Liao	242
Bayesian Network Based Expert System for Tunnel Surrounding Rockmass Classification	
H.T. Xie	248
Study on Effect of Seismic Joint to Seismic Response of Tunnel Passing through Fault	
F. Gao, X.G. Shu, D.L. Xue and J. Liu	252
Influence Evaluation of Fastener Stiffness Match on Subway Rail Switch Safety	
M.Z. Ma, P. Wang and J.M. Xu	256
Research and Analysis of a Suspension Bridge	
C. Lei, P.F. Li, Q. Wang and S. Wan	262
Analysis of Separated Bridge for Lateral Connection	
H.Q. Yu and M.Q. Lin	267

Chapter 5: Aviation, Aerospace Engineering

Study on Atmospheric Transmission Characteristics of the Mid-Infrared Laser	
Y.Z. Zhang, W.H. Hu and Y.X. Wang	273
Areo-Engine Cycle Parametric Analysis and Installed Performance Calculation Based on Aircraft Flight Mission	
H. Zhou, Z.X. Wang and X.B. Zhang	277
Numerical Simulation on the Infrared Radiation Characteristics of S-Shaped Nozzles	
X. Gao, Q.Z. Yang, H. Zhou and J.N. He	282
Design on Distributed Reconfigurable Satellite Full Life Cycle Value Assessment System	
X.L. Han, Y. Li, Q.R. Zhou, H. Wang, G.Q. Wu, S. Zhang and R.B. Cao	287
Applying GA Algorithm to the Modular Division for Distributed Reconfigurable Satellite System	
S. Zhang, G.Q. Wu, X.L. Han, R.B. Cao, Y. Li, Q.R. Zhou and H. Wang	292
Coupled Fluid, Thermal and Structural Analysis of Nozzle in Solid Rocket Motor	
L. Sun, F.T. Bao, W. Shi and H. Xu	297
Load-Carrying Ability and Application of Composite Materials Air Cushion in the Aerostat	
T.H. Zhang, Y.C. Yang, H. Gao and L.H. Jiang	302
Mistuning and Structural Coupling Effects on Flutter of Turbomachinery Blades	
Z.Z. Fu and Y.R. Wang	311

Chapter 6: CAD/CAE and Computer Applications in Industry

Evolutionary Structural Optimization Using Material Efficiency Grades X.G. Hu and H.M. Cheng	317
The M-Band Symmetric Orthogonal Scaling Function in Higher Dimensions F.J. Zhang	322
Using GIS-Based Methods to Visualize the Dispersal Corridor	326
Implicit Description of Structure Shape Based on KS Function Y. Zhou, W.H. Zhang and D.H. Zhang	331
A Noval Information Management Method of Text Recognition Based on Ontology Semantic Domain Y.X. Yu and L.Y. Wang	335
Surf Crest Tracking Algorithm in Wave Image H. Cui, Z.Q. Wang, H. Liu and Y. Xu	341
Performance Evaluation of Smart Grid Based on Optimal Fuzzy Algorithm Method Q.R. Wang	346
Modeling and Simulation on Unidirectional Pedestrian Flow Based on Cellular Automata Q.Q. Hu and Z.G. Song	350
A Model of Point Multiresolution Rendering Method F.C. Qian, N. Shan, Y.L. Ye, Y.Z. Ma and X.Y. Hu	355
CFD Analysis of Shrouded Diameter in Aerosol Sampling Inlet B.Q. Wang, Y.Y. Li, R.H. Chen, Z.B. Wang and S. Yao	359
EEG Autocorrelation Analysis of Neuronal Population at Criticality Z. Wu, X.F. Xia and J.S. Wang	363
MEMS/GPS Integrated Navigation System Based on EKF L. Hong, M.J. Li and N. Han	367
Re-Entrant Jet Analysis of Cavitating Turbulent Flow on a Hydrofoil H.M. Zhang and L.X. Zhang	375
A Simulated Study on the Combustion and Emission Performances of Diesel Engines J. Wang, Q. Wang, M. He and S. Jun	381
Design and Test of High Speed Digitization Sampling Circuit Based on FPGA P. Qin, H. Lu, Z.Y. Jiang, J.L. Bai, L. Gao and G. Meng	386
Study on the Decoder for Reed-Solomon (255, 239) Code Y.T. Ge, X.M. Liu and X.T. Yin	390
Research on 3D Inspection Simulation Training System of 500kV Power Transmission Lines W.X. Xiang, H. Luo, Z.P. Hu, H.W. Hu and C. Hu	394

Chapter 7: Engineering Management

Study on Transportation Safety Management of Sodium Cyanide H.D. Lin and G.J. Gao	403
Research on Present Situation, Problems and Countermeasures of R&D in Shanghai Private Technology Enterprises P.X. Yang, H.T. Yang and S.W. Zuo	409
Study and Apply on the Integrative Application of SBO and Business Intelligence D. Wang, R. Luo and S. Yin	414
Pre-Warning Pattern for Safety Monitoring of Artificial Islands in Coastal Areas during Operating Period C.M. Su, Q. Sha, Y.C. Mou and Z.B. Jiao	419
