

Preface

Dear Distinguished Delegates and Guests,

The Organizing Committees welcome all of you to participate in the 3rd International Conference on Mechanical Automation and Materials Engineering (ICMAME2014) held on June 28-29, 2014 in Wuhan, China.

The theme of ICMAME2014 highlights Mechanical Automation and Material Engineering. The conference aims to provide a high-level international forum for researchers and engineers to present and discuss recent advances and new techniques in Mechanical Automation and Material Engineering. It also serves to communication among researchers and practitioners working in a wide variety of scientific areas with a common interest in improving information technology and computer science related techniques.

ICMAME2014 would provide a remarkable opportunity for the academic and industrial community to address new challenges, share solutions, and discuss future research opportunities within the area mentioned above. This conference is also a platform for the new faces to become known and for previous attendees to refresh their friendships. It is expected that the large number of attendees including well-known scientists and engineers will bring many benefits to the scientific and technological development for many countries and to the formation of new international cooperation and strengthening of established international collaborations.

The Organizing Committees would like to express sincere thanks to all the members of contributors for their great efforts in preparation and commitment to make this conference a success.

We hope that all participants and other interested readers benefit scientifically from the proceedings and also find it's simulating in the process. Besides, we hope you enjoy all the wonderful experiences offered by the city of Wuhan, which is one of the most important and beautiful city in China.

With our best wishes,

ICMAME2014 Organizing Committees

June 28-29, 2014

Committees

General Chair

Y.Q.Chang School of Materials Science and Engineering, University of Science and Technology Beijing, China

Program Committee

H.S. Wang, School of Mechanical and Electrical Engineering, Central South University, China

H.C. Hu, School of Mechanical Engineering, Southwest Jiaotong University, China

J.T. Yuan, School of Mechanical Engineering, Nanjing University of Science & Technology, China

M.H.Chen, School of Mechanical and Electrical Engineering, Nanjing University of Aeronautics and Astronautics, China

W.G. Li, School of Mechanical and Automotive Engineering, Institutes of Technology of South China

W. Chen, School of Mechanical Engineering, Jiangsu University, China

L.Z. Xu, School of Mechanical Engineering, Yanshang University, China

J.Z. Zha , School of Mechanical and Electronic Control Engineering, Beijing Jiaotong University, China

Y.W. Zhao, School of Mechanical and Electrical Engineering, Zhejiang University of Technology, China

K. Xu, School of Mechanical Engineering, Beijing University of Science and Technology, China

L.G. Cai, School of Mechanical and Electrical Engineering, Beijing University of Technology, China

J.X. Wang, School of Engineering, Anhui Agricultural University, China

Q.F. Wang, School of Mechanical and Energy Engineering, Zhejiang University, China

X. Ling, School of Mechanical and Power Engineering, Nanjing University of Technology, China

Y.L. Cheng, School of Engineering and Technology, Huazhong Agricultural University, China

R.L. Cai, School of Mechanical and Power Engineering, East China University Of Science and Technology, China

Sen-Yeu Yang, College of Engineering, National Taiwan University, Taiwan

B.Z. Gong, School of Engineering, Ningbo University, China

X.J. Chen, School of Mechanical Engineering, Xi'an Jiaotong University, China

Sponsors

Advanced Science and Engineering Technology Institute

Ttp trans tech publications inc.

Huazhong University of Science and Technology

Changchun Polytechnic University

Taichung University of science and technology
