

## **Preface**

It is my honor to welcome you to Xi'an, China to participate in the 2014 International Conference on Mechanics and Mechatronics (ICMM2014). The ICMM2014 provided an excellent international academic forum for sharing knowledge and results in theory, methodology and applications of mechanics and mechatronics. The ICMM2014 aims to cover the recent research and application in the area of mechanics, mechatronics, control and automation, computer science, mechanical engineering and manufacturing technology, applied material engineering and material processing, etc.

The ICMM2014 has attracted more than 300 submissions. More than 100 participants attended this conference. The ICMM2014 provided a platform to bring not only researchers but also governmental agents, industrial professionals in mechanics and mechatronics. With this platform, the ideas and results from the conference will embark whole process of making new discoveries and translating them into products and service for the marketplace.

I believe many of you will benefit in many ways in this conference either as speakers or as participants. I also hope this conference is a good platform to build research network in many fields and open for great opportunity of cooperation in future.

Finally, I wish all of you good luck and all the best at this conference.

Dr. A. Mehran Shahhosseini

ICMM2014 General Chair

## **Organizing Committee**

### **General Chair**

A. Mehran Shahhosseini, Indiana State University

### **Steering chair**

Dr. Xiaomin Wu, Nanchang University, China

### **Technical Committee Chair**

Dr. Huang Yuan, Jinan University, China

### **Technical Program Committee**

Prof. ShiFeng Zhou, South China university of technology, China

Prof. Anmin Hu, Shanghai Jiaotong University, China

Dr. Jinzhou Liu, Henan University, China

Dr. Gaoxin Tao, Industry and Information Technology Department of Hebei Province, China

Dr. Yuyang Tian, Anyang Normal University, China

Dr. Desheng Li, Anhui Science and Technology University, China

Dr. Jiankang Zhao, China Electric Power Research Institute, China

Dr. Zimin Yao, Qiqihar University, China

Dr. Yongjun Wu, Huazhong Normal University, China

Dr. Qing He, North China Electric Power University, China

Dr. Yuanyuan Wang, XinJiang University, China

Dr. M. Pecht, University of Maryland, USA

Dr. Ai Fong, City University of Hongkong, China
