

Preface

Scientists continue to search for clean and renewable energy alternatives to our current power production methods. And the global reduction of greenhouse gases is dependent on the adoption of energy conservation technologies at industrial level as well as this clean energy generation. The 2014 2nd International Conference on Renewable Energy and Environmental Technology (REET 2014, ICREEET 2014) took place in Dalian, China, August 19-20, 2014. This conference series provides a forum for accessing to the up-to-date knowledge from both industrial and academic worlds and allows for the free exchange of ideas and challenges faced by these two key stakeholders and encourage future collaboration between these groups.

Following evaluation and feedback by the International Scientific Committee, accepted papers are selected for publications in those volumes. Studies presented in this book cover these topics: Environmental Chemistry and Biology, Environmental Materials and Processing Technology, Environmental Safety and Health, Environmental Planning and Assessment, Environmental Analysis and Monitoring, Environmental Restoration Engineering, Pollution Control Engineering, Waste Disposal and Recycling, Water Supply and Drainage, Hydrology, Water Resources Engineering, Soil and Water Conservation, Ecological Environment and Architectural Environment Protection, Forest Cultivation, Protection and Plant Protection, Geographic Information Science and Remote Sensing, Urban and Regional Planning, Land Resources Planning, Mineral Prospecting and Exploration, Mining, Mineral Processing and Metallurgical Engineering, Oil and Gas Well Development Projects, Agricultural Products Processing and Biological Pharmaceutical, Energy Saving, Environmental Protection, Low Carbon Ideas, and Sustainable, Environmental Protection and Economic Development, Global Climate Change and Carbon Emissions, Eco-Economy, Circular Economy, Low Carbon Economy.

We want to thank the Organizing Committee, the Institutions and Sponsors supporting the conference, and everyone who contributed to the organization of this meeting, for their invaluable efforts in order to guarantee the complete success of this conference.
