

Preface

The first International scientific conference of young scientists “Electrical Engineering, Energy and Mechanical Engineering” take place in Novosibirsk, Russian Federation, a Novosibirsk State Technical University from 2 to 6th of December 2014.

Organizers of the conference are State budget educational institution of higher education “Novosibirsk State Technical University”, Autonomous non commercial organization “Interuniversity Center for Promoting Research and Innovative Activities of Students and Young Scientists” and Students’ Scientific Society of NSTU under support of Russian Fund of Fundamental Researches.

The program includes more than 600 participants with more than 300 scientific researches covering three different directions are Electrical Engineering, Energy and Mechanical Engineering. This proceedings gathers of the contributions of the participants from 7 countries. There are 9 subsections for all three main sections.

Languages of communications at the conference are Russian and English.

The site of the conference is www.eem.conf.nstu.ru

On behalf of the committees, we would like to welcome you in Novosibirsk and to wish you an exciting conference!
