

# Preface

It is indeed, a great privilege for us to present the proceedings of the 2014 4th International Conference on Machinery Electronics and Control Engineering (ICMECE 2014), to the authors & delegates of the event. We are sure you will find the same educative and inspiring.

ICMECE 2014 had been an attempt to create a platform for discussing the new challenges of Machinery Electronics and Control Engineering. For us, ICMECE 2014 was a wonderful opportunity and the support that we received and the enthusiasm which was witnessed has been truly beyond our expectations. Hence on the eve of completion of this long journey, we are engulfed not by an iota of tiredness but by a deep level of satisfaction.

Throughout our work, we tried to take the news about ICMECE 2014 to as many relevant corners of the world as possible. Towards that we were blessed with a team, the members of which worked shoulder-to-shoulder which resulted in optimization of coordination among each other. Towards that they were clearly instructed not to resort to giving any false promise in order to attract manuscripts &/or participation. Even now we are optimistic and hopeful of getting the proceedings of ICMECE 2014 published in Applied Mechanics and Materials under Trans Tech Publications Inc. Every author, especially the younger ones wants to maximize attraction of his/her manuscripts & we will try our level best to support them in their endeavors. All of us want a better tomorrow and the entire organization of ICMECE 2014 fully understand this fact & undertake to make honest efforts to realize the same.

The response to the call-for-papers had been overwhelming – both from China as well as abroad. Unfortunately, due to various constraints, we could hardly accept a fraction of the same. Many manuscripts from premiere institutions and of possessing sufficient quality, could not be shortlisted due to various constraints. That is why, while congratulating the authors of the shortlisted manuscripts, we must advise the others not to feel disheartened.

Our thanks goes to the members of the Intl. Advisory Board who played a very cogent role in showing us proper direction which ensured proper navigation. The Program Chairs & the Members of IPC deserves applause for ensuring timely & proper reviewing of the manuscripts. They were under great pressure but did a very decent job which ensured the quality of the conference. We thank Qingdao University of Science and Technology Governing Body for its constant support and encouragement to its faculties in ensuring the success of ICMECE 2014. Finally we must thank all the authors who had submitted their manuscripts, irrespective of the outcomes of the reviewing process.

Let us hope that the participants of ICMECE 2014 will have fruitful deliberations among each other and that the overseas delegates will enjoy their sojourn in Qingdao, China.

With warm regards,

Prof. Lei Jia, Shandong University, China

Prof. Jinshou Yu, East China University of Science and Technology, China

General Chairs – ICMECE 2014

# Committees

## General Chair

Prof. Lei Jia, Shandong University, China

Prof. Jinshou Yu, East China University of Science and Technology, China

## Organizing Committee

Prof. Qigong Wang, Institute of Automation Shandong Academy of Sciences, China

Prof. Ximei Liu, Qingdao University of Science and Technology, China

## Program Committee

Prof. Biao Huang, University of Alberta, Canada

Prof. Tzyh Jong Tarn, Department of Electrical and Systems Engineering Washington University, USA

Prof. Tsu-Tian Lee, National Taipei University of Technology, Taiwan

Prof. Gang Feng, City University of Hong Kong, Hong Kong

Prof. Jianfeng Li, Shandong University, China

Prof. Yutian Liu, Shandong University, China

Prof. Huanshui Zhang, Shandong University, China

Prof. Chenghui Zhang, Shandong University, China

Prof. Bo Yang, Linyi University, China

Prof. Nan Zou, Shandong University, China

Prof. Xuemin Tian, China University of Petroleum, China

Prof. Haisheng Yu, Qingdao University, China

Prof. Yibin Li, Shandong University, China

Prof. Yibin Song, Yantai University, China

Prof. Yong Zhang, Jinan University, China

Prof. Yuqiang Wu, Qufu Normal University, China

Prof. Xingguang Qi, Shandong Polytechnic University, China

Prof. Yumei Wang, Weifang University, China

Prof. Yanbin Qu, Harbin Institute of Technology, China

Prof. Xiaohua Liu, Ludong University, China

Prof. Baochen Jiang, Shandong University, China

Prof. Ronghu Chi, Qingdao University of Science and Technology

Prof. Tong Zhao, Qingdao University of Science and Technology

Prof. Huiming Liu, Qingdao University of Science and Technology

Prof. Mingyan Jiang, Shandong University, China

Prof. Chengdong Wu, Northeastern University, China

Prof. Zhiyong Feng, Tianjin University, China

Prof. Hongshen Yan, Southeast University, China

Prof. Qijuan Chen, Wuhan University, China

Prof. Mei Su, Central South University, China

Prof. Gangyan Li, Wuhan University of Technology, China

Prof. Kang Ding, South China University of Technology, China

Prof. Duoqian Miao, Tongji University, China

Prof. Fangyi Li, Shandong University, China

Prof. Guangming Zhang, Nanjing University of Technology, China

Prof. Yanfeng Geng, China University of Petroleum, China

Prof. Lizhong Xu, Yanshan University, China

Prof. Fengchong Lan, South China University of Technology, China  
Prof. Jun Kong, Northeast Normal University, China  
Prof. Yide Ma, Lanzhou University, China  
Prof. Fuzeng Yang, Northwest A&F University, China  
Prof. Zhihong Sun, Donghua University, China  
Prof. Tieli Sun, Northeast Normal University, China  
Prof. Xianming Zhang, South China University of Technology, China  
Prof. Junmin Wang, Donghua University, China  
Prof. Jiwen Yang, Soochow University, China  
Prof. Chaotian Chen, Guangdong Polytechnic Normal University, China  
Prof. Yuebin Wang, Hunan Institute of Science and Technology, China  
Prof. Wei Xu, Jilin Agricultural Science and Technology College, China  
Prof. Dang Luo, North China University of Water Resource and Electric Power, China
