

Preface

Dear Distinguished Delegates and Guests,

The organizing Committee of ICVMEE 2014 warmly welcomes you to join the International Conference on Vehicle, Mechanical and Electrical Engineering (ICVMEE 2014: www.icvmee.org/), held on November 29-30, 2014.

The aim of ICVMEE 2014 is to provide a platform for researchers, engineers, and academicians, as well as industrial professionals, to present their research results and development activities in vehicle, mechanical, and electrical engineering, and its applied technology. There are six themes in this proceeding: Vehicle Engineering, Electric and Hybrid Vehicle, Transportation Engineering, Mechanical Principles and Design, Machining, Manufacturing and Molding, System Modeling, Algorithms, Intelligent Automation and Control Systems System Test and Diagnosis, Signal and Image Processing, Computational Mathematics, Information Technology and Networks Applications, Internet and Communications Technologies, Electrical and Electronic Technology, Power System and Energy Engineering. It provides opportunities for the delegates to exchange new ideas and application experiences, to establish business or research relations and to find global partners for future collaboration.

Hopefully, all participants and other interested readers benefit scientifically from the proceedings and also find it stimulating in the process.

With our warmest regards,

Zhigang Fang
