

Preface

The 2014 3rd International Conference on Applied Mechanics and Materials, ICAMM2014, was held in Shenzhen, China from November 15 to November 16, 2014. It is an annual conference covering all aspects of mechanics and materials: theoretical, experimental, and computational Mechanics and all engineering materials. Specific symposium topics of interest include: Solid Mechanics and Its Applications; Fluid Mechanics and Its Applications; Explosion Mechanics and Its Applications; Computational Mechanics and Its Applications; Structural Mechanics, Geotechnical Mechanics and Civil Infrastructure Construction; Composites; Micro/Nano Materials; Metals and Alloys; Chemical Materials and Processing Technology; Biological Materials and Environment-Friendly Materials; Building Materials; Physics of Materials, Properties and Performances; Materials and Technology in Surface Engineering; Thermal Analysis and Monitoring; Materials Processing Technology; etc. Members of the applied mechanics and materials communities are invited to propose symposia and to actively participate in the conference.

We are delighted to welcome authors and delegates to this conference. We would like to thank the local organizing committee, the scientific committee, the reviewers and lastly the authors of the papers featured in this conference proceedings. I extend my warmest welcome to all our conference delegates.

Conference Organization

Co-Chairmen

Prof. Seung-Bok Choi, Inha University, Korea

Prof. Prasad Yarlagadda, Queensland University of Technology

Prof. Yun-Hae Kim, Korea Maritime University, Korea

Technical and Organizing Committee

Prof. Shilang Xu, Zhejiang University, China

Prof. Lingwei Kong, Institute of Rock and Soil Mechanics, CAS

Prof. Yuanming Lai, Lanzhou Branch, Chinese Academy of Sciences

Prof. Yongkang Sui, Beijing University of Technology, China

Prof. Qingyuan Wang, Sichuan University, China

Prof. Chaohe Chen, South China University of China

Prof. Guangfan Li, Hainan University, China

Prof. Junfeng Wang, Hainan University, China

Prof. Keqi Tian, Anhui University of Science and Technology, China

Prof. Zi-Mao Zhang, Beijing Jiaotong University, China

Prof. Feng Han, Beijing University of Technology, China

Prof. Jian Shan, Southeast University, China

Prof. Ai Qi, Fuzhou University, China

Prof. Anlin Lin, Southwest Jiaotong University, China

Prof. Jianhui Luo, Hunan University, China

Prof. Qiang Li, Harbin Institute of Technology, China

Prof. Shisheng Fang, Hefei University of Technology, China

Prof. Jiru Zhang, Wuhan University of Technology, China

Prof. Xuetao Yang, China Three Gorges University, China

Prof. Chengbin Du, Hohai University, China

Prof. TAN Kang Hai, Nanyang Technological University, Singapore

Prof. J. H. Bungey, University of Liverpool, Liverpool, UK

Prof. K. J. Bathe, Massachusetts Institute of Technology, USA

Prof. Lawrence C. Bank, University of Wisconsin-Madison, USA

Prof. Longsheng Bao, Shenyang Jianzhu University, China

Prof. Tai Bao, Guizhou University, China

Prof. Jian-Fei Chen, the University of Edinburgh, UK

Prof. Changyu Cui, Harbin Institute of Technology, China

Prof. Zhiheng Deng, Guangxi University, China

Prof. Shengguo Ding, Guizhou University, China

Prof. Xiuli Du, Beijing University of Technology, China

Prof. Ping Feng, Tianjing University, China

Prof. Luciano Feo, University of Salerno, Italy

Prof. Yaojun Ge, Tongji University, China

Prof. Han-Bin Ge, Meiji University, Japan

Prof. Zong Woo Geem, iGlobal University, USA

Prof. I. E. Harik, University of Kentucky, USA

Prof. David Hui, University of New Orleans, USA

Prof. Yong Huang, Guizhou University, China

Prof. Zhihong Huang, Guizhou University, China

Prof. Tan Kiang Hwee, National University of Singapore

Prof. Tim Ibell, University of Bath, UK

Prof. Weiliang Jin, Zhejiang University, China

Dr. Tianjian Ji, The University of Manchester, UK

Prof. A. Kaveh, Iran University of Science & Technology, Iran

Prof. Kang Seok Lee, Chonnam National University, South Korea

Prof. Marcus M.K. Lee, the University of Southampton, UK

Prof. Hongnan Li, Dalian University of Technology, China

Prof. Zhengliang Li, Chongqing University, China

Prof. Zhengnong Li, Hunan University, China

Prof. Qiusheng Li, Hong Kong City University, Hong Kong

Prof. Aiqun Li, Southeast University, China

Prof. Hui Li, Harbin Institute of Technology, China

Prof. Shirong Li, Yangzhou University, China

Prof. Guangfan Li, Hainan University, China

Prof. Ayman Mosallam, Univ of California Irvine, USA

Prof. Aftab Mufti, University of Manitoba, Canada

Prof. Antoine E. Naaman, University of Michigan, USA

Prof. Jianguo Nie, Tsing Hua University, China

Academician Prof. Wei Sun, Southeast University, China

Prof. Hamid Ronagh, The University of Queensland, Australia

Prof. R. Sri Ravindra rajah, University of Technology, Australia

Prof. Yaozong Shi, Highway Survey and Design Institute of Hainan Province

Prof. Ramiro Sofronie, University of Bucharest, Romania

Dr. Scott T. SMITH, Hong Kong University, Hong Kong

Prof. M. N. Soutsos, University of Liverpool, Liverpool, UK

Prof. Mark G Stewart, The University of Newcastle, Australia

Prof. J-G. Teng, Hong Kong Polytechnic University, Hong Kong

Prof. Tamon UEDA, Hokkaido University, Japan

Senior Engineer. Jianxin Xu, China Communications Water Transportation Planning and Design Institute Co.,Ltd

Prof. Shanhua Xu, Xi'an Univ. of Architecture and Tech., China

Prof. Tao Xie, Guizhou University, China

Prof. Zhixin Yan, Lanzhou University, China

Prof. Chuangbin Zhou, Wuhan University, China
