

Table of Contents

Preface, Committee and Sponsors

Chapter 1: Construction Technologies, Architecture and Urban Planning

Research on Linux-Based PC Cluster System and its Application in Numerical Simulation for Shallow Buried Soft Soil Tunnel J. Du, Z.R. Mei, L.L. Fu and K. Zhang	3
Finite Element Analysis of High Strength Recycled Concrete Beam Flexural Properties H.L. Zhang and C.C. Pei	11
Strength Test Research on Cement-Soil of Peat Soil in Kunming S. Gao, H.M. Zhao, J. Cao and Z.G. Song	15
Urban Rain Flood Disaster Mechanism and Prevention Research L.J. Xu, J.Y. Deng, C. Chen and S.S. Han	21
Study on Highway Transportation Route Selection of Heavy and Oversize Cargo Y.M. Zhou, C.H. Zeng and F. Xian	25
Research on Civil Engineering with Comprehensive Evaluation Model of Urban Old-Age Real Estate Building Energy Saving H. Liu and Y.B. Zhao	29
A Novel Deployable Emergency Bridge X.Y. Wu, J.J. Huang and A.P. Luo	33
Study on Mechanical Performance of Deep Pile Cap Failure H.L. Guo	39
A Literature Review on Observation of the Pedestrian Step Forces L. Xu, H.Y. Wang and Z.G. Song	43
Study on Reinforcement of Artificial Boundary Pillar Using Slope-Toe-Enclosure Compound with Prestressed Cable-Bolts W. Du, C.A. You and Y.Y. Li	50
Numerical Study on Damage Mechanism of PRC T-Beam under Close-In Blast Loading B. Yan, Y.H. Zhou, F. Liu and Z.G. Jiang	55
Structure and Calibration Methods of Rainfall-Runoff Models F. Guo, J.J. Ma and L.J. Zheng	65
Uniaxial Spring and Multi-Axial Spring Model for Structural Nonlinear Analysis Y.B. Huang, W.L. Huang, S.L. Zhang, L.G. Du and J.H. Gao	69
Evaluation of Highway Traffic Safety Facilities Based on Set Pair Analysis Y. Wu, J. Lu, W.Q. Zhu and H.T. Qiu	73
The Research on Healthy City Planning Based on GIS M.G. Liu and Z.Y. Cheng	77
Comparative Study on the Effects of Infill Walls on Reinforced Concrete Frame Structures H. Jin	81
Research on Combination of Russian Architecture and Beidaihe City Landscape A.Y. Li, L. Xu and X.Y. Guan	85
Research on Architecture Design of Multi-Storey Residential in West City Y. Guo	89
Study on Concrete Construction Technology of High-Rise Building Y. Guo	93
Testing Study on Moisture Content Effect on Thermal Conductivity for Clay Y. Duan, H. Jin and X.Z. Wang	97
Finite Element Analysis of Reinforced Concrete Beam for Carbon Fiber-Reinforced Plastic N. Huang, H. Li and P.F. Xu	101
Strategy for Application of Non-Wood Fibrous Material on Roofs at Rural Areas in Cold Region X.R. Wang and Y. Zhang	105

Thermal Comfort Study Based on Airflow within a Passenger Compartment L.P. Xiang and H.Q. Wang	109
Research on the Influence of Coal Mining on Aquifer P.J. Wang, H. Jin and T.J. Zhang	113
Research on Cataclastic Rock Bolting Control P.X. Dong, Z.Q. Yang, Q. Gao, H.Z. Ma, X.G. Wu and Z.B. Zhang	117
Numerical Analysis on Drainage Parameters in a High Drainage Roadway Y.S. Yan, J.Z. Zhang, H.G. Wang and Z.G. Yan	122
Numerical Design of High Drainage Roadway Location in Fully Mechanized Coal Face Y.S. Yan, J.Z. Zhang, Z.G. Yan and H.G. Wang	126
The Analysis of Lift Transport Platform Static Strength Based on ANSYS Y.F. Si, C. Chen and B.J. Liu	130

Chapter 2: Materials Science and Chemical Technologies

Multipolar Surface Plasmon Peaks in Gold Nanoshells X.F. Zhang and F.S. Liu	137
Comparing Diffuse Approximation and Kriging Method for Predicting the Tool Life when Milling Ultrahigh Strength Steel S. Feng, Z.Q. Wang and H.Q. Xue	141
Research on Fast-Growing Poplar Dyeing Technology Based on Material Properties D.J. Shen and Y.F. Zhang	151
Study on the Corrosion Inhibition of Extractive from <i>Jatropha curcas</i> L Seed Meal on Copper J. Wang, S.H. Hu and S.J. Zhuo	156
Geometric Model of CVD Mono-Crystalline Diamond Growth L.Z. Zhang, F.Z. Wang and G. Tian	160
The Application and Characteristics Analysis of a Variety of Plastic Material in the Stadium J. Jiang	164
Analysis of Mechanics of Disturbed Materials Based on Theory of Duality Disturbance J.H. Gao, S.L. Zhang, W.L. Huang, Y. Zhang, S.R. Lin and G.W. Zhang	169
The Research on Solar Cells Based on Improving Conversion Efficiency Y.W. Tang	173
Additives-Effects during Environmental Protection Methyl Sulfonic Acid Salt Bath of the Performance Y. Tan	178
Green Composite Scale Inhibitor in Central Air Conditioning Cooling Water M.D. Li, X.D. Zuo, B. Yang, J.M. Zhao, Y.T. Chen and S.X. Guo	183

Chapter 3: Environmental Engineering, Biofuel and Biotechnology

Research on Environmental Pollutants for Health Risk Assessment Z.Y. Wang, N. Cui, C.R. Liu, T.Y. Zhang and S.F. Yang	189
A Design of the Environment Monitoring System C.Y. Xie	195
Application of Comprehensive Identification Indexes in Water Environment Evaluation of Taihu Basin Y.J. Hu	199
The Quantitative Research of Impact of Climate Change and Reservoir Operation on the Runoff Y.J. Bi, Y. Zhao, W.H. Xiao, X.N. Zhou and S.P. Zhang	203
Research on Evaluation Index System and Fuzzy Clustering Iterative Model for Local Water Conservancy Development X.N. Zhou, F.X. Chai, H. Zhang and X.M. Xie	208
Review on Sources and Sinks of Main GHGs in Atmosphere Z.Q. Yu and Y.F. Wang	213

Features of Water Function Zoning of the Surface Water in Sichuan Province R.K. Cai, F.Q. Ni and Y. Deng	221
Prediction of Karst Groundwater Level Based on R-Language - Taking Jinci Spring Basin as an Example H.J. Shi, X. Qi and H. Jin	230
Material Properties in Advances in Organic Fertilizer Z.Q. Yu and F.P. Ren	235
The Effects of Polysaccharide from <i>Gynostemma pentaphyllum</i> Supplementation on Exhaustive Exercise-Induced Fatigue C.J. Li and A. Li	241
Studies on the Protection of Aircraft Oil Tank's Microbic Erosion Based on Properties of Machinery and Biological Materials Z. Wei, F.C. Wang, Y.S. Wang and H.W. Yu	245
Effect of Natural Cyclodextrins on Cell Growth, Activity and Permeability of <i>Arthrobacter simplex</i> Q. Gao, Y.B. Shen, W. Huang and M. Wang	249
UPLC-ESI-MS/MS Method for Determination of Recombinant Antihypertensive Peptide in Rat Plasma Y.L. Cong, S. Li, B. Chen, H.Y. Sun, D. Liu and S.F. Cui	254
The Adsorption of Heavy Metal from Aqueous Solutions onto the Porous Biomorphic-Genetic Composite of Hydroxyapatite/Carbon with Eucalyptus and Bamboo Template S. Cao, B. Huang, Z.Q. Zhu and Y.N. Zhu	260
A Novel Cross-Platform Architecture Design for Oil Spill Forecasting Model F.X. Yao, F.J. Yu, Y. Zhao and G. Chen	265
Urban Sludge and the Performance of the System of Wood Activated Carbon Research Y.K. Cheng	271
Performance Comparisons of Spark-Ignition Engine Fueled with Butanol/Gasoline and Ethanol/Gasoline Blends R.F. Zhu, M.Y. Shi, Y.L. Wang and J.W. Tan	275
Combustion Behaviors of a Compression-Ignition Engine Fueled with Biodiesel at Different Fuel Delivery Advance Angles J. Zang, R.F. Zhu and D.S. Zhang	279
Performance of a Compression-Ignition Engine Fueled with Diesel/Biodiesel Blends R.F. Zhu, Y.L. Wang, H. Wang and Y.T. Sun	283

Chapter 4: Control Engineering

Application Research on Vehicle Steering Stability Based on ADAMS/CAR B.J. Liu, C. Chen and Y.F. Si	289
Design of Wheel Lifting Hydraulic System for Amphibious Vehicle X.T. Li, L.Q. Xie, H.B. Wang, F.F. Zhai, H. Wang and L.J. Zhao	293
Research on Electric-Fluid Mechanics with Intermittent Oscillatory of RCC Circuit W.Z. Hou	297
Master Control System Design for Frequency Modulation Continuous Wave Radar (FMCW) L.Q. Xie, H.B. Wang, F.F. Zhai and H. Wang	303
The Research of Lift Control System in Four-Point Platform Based on DSP F.P. Wang, C. Chen and T.T. Zhou	307
Progress in Hypersonic Inlet Flow Controls by Magnetohydrodynamic S. Zhang, G. Hong, D.Y. Zhang and F.Q. Cheng	311
The Research on Control System of Hydraulic Test Bench W. Liu and Y.P. Wang	316

Chapter 5: Engineering Management and Engineering Assessment

Coal Enterprise Safety Management Process Based on the Process Management of Performance Excellence Model J.W. An, Y. Liu and J.X. Huo	323
Risk Assessment of Crowd Crushing and Tramping Accidents in Urban Rail Transit Station Based on DEA Z.D. Jiao and C.H. Gan	327
Study on Coordination Assessment of Fixed Facilities' Capacity in Railway Marshalling Yards Z.D. Jiao and C.H. Gan	331
Research on Civil Projects among the Participates in Government Investment Projects Based on Rent-Seeking Theory Y.N. Wu, S.Q. Zheng and L. Tan	335
Research on Construction Engineering with Data Processing in the Endowment Real Estate Financing Efficiency Evaluation M. Lu and Q.B. Hao	339
Data Processing in Risk Research on Non-Profit Government Investment Project of Agent Construction System Based on FATP Y.N. Wu, Y.Q. Hu and K.F. Chen	343
Data Processing in the Key Factors Affecting China's Endowment Real Estate Enterprises Financing H. Liu and N. Zhang	349
