

Preface

Indonesia Conference on Mechanical Engineering(in bahasa called as Seminar Nasional Tahunan Teknik Mesin, SNTTM) is an annual program of Indonesia Consortium on Mechanical Engineering in Higher Education (ICME) as a forum for sharing and discussing among domestic and international researcher in the field of mechanical engineering.

The 13th Indonesia Conference on Mechanical Engineering was hosted by Universitas Indonesia (Jakarta, Indonesia) on October 15-16, 2014. Numbers of papers submitted to the conference are 220 papers. The conference covers topics of fields applied mechanics, mechanical materials processing, dynamics, mechanical engineering. Among the submitted papers, conference committee selects 27 papers to be published in Applied Mechanics and Materials. While others papers are published in proceeding.

We hope that the conference contributes to scientific development on mechanical engineering field. We would like to thank to all authors, referees and sponsors that actively participated in this event. Special Thanks are also addressed to editors of Applied Mechanics and Materials and Trans Tech Publications for their great support to the publications.

We hope that this event can become an example of how research products integrated with industries and give significance contribution to the society.
