

Table of Contents

Preface and Committees

Chapter 1: Hydraulic, Mechanical and Electromechanical Systems Components, Materials Processing

Power Loss of Slipper within Axial Piston Pump Z.B. Wang, J.H. Jiang and Y. Sun	3
Performance Analysis of Double Nozzle Flapper Servo Valve Based on Liquid-Solid Couple Effect and Moving Grid Approach D.R. Gao, J.H. Zhao and S.L. Zhou	13
Wear Testing of Principal Friction Pairs in Axial Piston Pump Based on Taguchi Design Method C.R. Zhao, J.H. Jiang and C. Ke	26
Design and Simulation Analysis of the Multi-Stage Linear Synchronous Expanding and Contracting Hydraulic Cylinder W.S. Ding, J.Y. Liao and L.Y. Yuan	35
Flow Field Simulation and Experimental Research on the Triangle Groove Cone Throttle Valve Y.J. Li, Y.F. Bai, J. Zhang and J.H. Jiang	42
Fluid-Solid Coupling Heat Analysis of Aerostatic Guide Components W. Long, Y. Liu, Z.Y. Wu, J.T. Wei and Z.Y. Mo	50
Analysis of the Cavitation in the Jet Flow Field of the V-Type Valve Orifice H.L. Ren, T.L. Lin, C. Miao, Z.S. Li and S.J. Fu	55
The Simulation and Analysis on Leakage Flow Rate of Plunger Pair of Plunger Water Hydraulic Motor Z.Y. Shan, R.B. Yuan and C. Li	62
Research on the Ideal Cushion Method of Pneumatic Cylinder H.T. Wang, L.W. Xu, W. Xiong and T.Z. Zhang	68
Mechanical Property Analysis on Cutting Tool of the Ice and Snow Removing Machine Based on ANSYS Z.D. Hu, S.R. Du, B.C. Shen and L.H. Wang	74
The Experimental Analysis of Rotation Speed and Medium Filling Rate on Grinding Performance to a Horizontal Stirred Mill Y.H. Tang, W.M. Dong and Y. Jin	80
The Machine Design and Parameter Analysis of the Bar Bending which Based on the ADAMS X.Q. Xia, W.M. Dong and J.S. Luo	84
Discussion on Structural Design of O-Ring Seal Used in Aviation 28MPa Hydraulic System Q.H. Zhou	88
Comparative Studies of Contact Strain between O-Ring and the Sealing Groove under Normal Condition and Failure Mode X.X. Zhao, P.F. Wen, X.K. Guo, F.Y. Xu, S.S. Zhang and C.L. Zhou	95
The Simulation Model of Rotation Speed and Media Loading on Grinding Performance of a Horizontal Stirred Mill S.H. Zhang, W.M. Dong and X.F. Liu	102

Chapter 2: Flow Machinery and Engineering

Analysis of Surge Curve of a Sintered Exhauster Based on Site Tests W.J. Ye, Y.M. Shao, W. Deng, X. Deng, B. Fu and X.C. Zhu	109
Research on Ram Air Turbine Blade Properties J. Wang, Y.L. Lu and X.T. Zhai	117

Numerical Simulation of the Laminar Flow Field in Stirred Tank with Double Layer Combined Impeller Stirring Eccentrically Y.N. Liang	125
Performance Analysis of Centrifugal Compressor under Different Operation Conditions Y.L. Lu, Y.F. Zhao and B. Liang	133
The Formation Mechanism and Simulation of Micro Bubble in Multi-Phases Flow in Mesoscopic Scale W. Long and Z.S. Ling	141
Fault Analysis of a Dust-Removing Blower in a Sintering Plant Based on Envelope Analysis Z. Wang, Y.D. Yang, J. Liu, X.P. Qu and Y.Y. Zhou	145
ADAMS Simulation Analysis for Stripping Unit of Sponge Copper Automatic S.J. Wang, W.M. Dong and Y.J. Xiang	151
Study of Stirrer Disc Structure Type on Grinding Performance of a Horizontal Stirred Mill J.K. Jiang, W.M. Dong and Z. Su	156

Chapter 3: Hydraulic Systems, Servosystems and Transmission, Driving Systems

Distributed Monitoring and Intelligent Fault Diagnosis System for Large-Scale Electro-Hydraulic Devices G.Y. Hao, J. Cheng, Z.G. Zheng, Z.G. Yu and G. Wu	163
The Modeling and Simulation of Hydraulic Actuated Control System of Helicopter in Volumetric Speed Control F. Gu, J.H. Jiang, F.M. Diao, Q. Du, L. Gao, Y.N. Song and Y. Li	169
A Research on Dual Hydraulic Motor Synchronizing Driving System with Pressure Coupling Y.L. Dong and Z.S. Qian	175
Integration Design and Simulation of Hydraulic Actuated Control System of Helicopter F. Gu, J.H. Jiang, F.M. Diao, Y.N. Song, Q. Du, L. Gao, Y. Li and C. Qu	182
Research on Hydraulic Free Piston Engine with High Scavenging Efficiency H.L. Ren, T.L. Lin and H.B. Xie	187
Research on Operating Parameters Matching and Efficiency Optimization for Hydraulic System Based on AMESim X.X. Zhao, S.S. Zhang, W. Ke, P.F. Wen and C.L. Zhou	192

Chapter 4: Advanced Control Research and Application

Distributed Embedded Control Architecture of a Leader-Follower Mobile Robot Formation R. Li and Y.H. Li	201
Performance Comparison of Displacement and Speed Control in Electro-Hydrostatic Actuator J.H. Jiang, Q. Liu, J.L. Liu and Z.X. Hou	205
Research on Fuzzy Control of MR (Magneto-Rheological) Damper for Landing Gear Based on FuzzyTECH S.X. Zhu, J. Li and B. Wang	212
Position and Speed Double Closed Loop Control Performance of Electro-Hydraulic Actuator System Research Based on AMESim J. Hu, M. Liu and W. Li	220
Application of BP Neural Network PID Controller in Landing Gear Based on MRF Damper S.X. Zhu, Y. Han and B. Wang	226
Research and Simulation of Fuzzy PID Controller L. Ding and W. Cheng	233
Simulation of LQR Controller on Magnetorheological Landing Gear J. Tian, Z.X. Liu and S.X. Zhu	239
Design of a Pneumatic Flow Rate Control Microvalve Driven by a Stepper-Motor J.X. Wang, Z. Wen and S.J. Li	244

Design and Simulation for Electro-Hydraulic Proportional Tension Control System Y.L. Liu, R.B. Yuan and Z.Y. Shan	250
---	-----

Chapter 5: Industry Application

A PV Module Surface Dust Removal Device Simulation J.H. Li, K.Q. Zhou, H.X. Gong and X.C. Zhu	259
---	-----

Fuel System Configuration and Restructuring of MALE and HALE UAV X.D. Liu, S.L. Li and Y. Tang	268
--	-----
