

Preface

2015 7th International Conference on Mechanical and Electrical Technology (ICMET 2015) was held in Bali, Indonesia during July 1-2, 2015. The conference provides a platform to discuss Advances in Mechanical and Electrical Technology etc. with participants from all over the world, both from academia and from industry. Its success is reflected in the papers received, with participants coming from several countries, allowing a real multinational multicultural exchange of experiences and ideas.

The present volumes collect accepted papers and represent an interesting output of this conference. This book covers these topics:

- Materials and Technologies of Chemical Industry;
- Steels and Alloys;
- Materials Processing and Manufacturing Tool in Mechanical Engineering;
- Materials and Technologies in Biomedicine;
- Designing and Engineering Decisions in Mechanical Engineering;
- Motor Systems and Vehicle Engineering;
- Sensors and Technologies of Measurement;
- Robotics, Mechatronics and Control;
- Power Engineering;
- Electrical Engineering and Power Electronics;
- Industrial Engineering.

This conference can only succeed as a team effort, so the editors want to thank the international scientific committees and the reviewers for their excellent work in reviewing the papers as well as their invaluable input and advice.
