

# Table of Contents

## Chapter 1: Materials and Materials Processing

<b>Effects of the Laser Head Distance and Cutting Speed of the Laser Cutting Machine in the Polymethyl Methacrylate Cutting Process</b> B. Delfian Prihadianto and G. Nugroho	3
<b>Effect of Fiber Size on Mechanical and Water Absorption Properties of Recycled Polypropylene/Empty Fruit Bunches (rPP/EFB) Bio-Composites</b> O. Saputra, L. Rinawati, K. Setia Rini, D.A. Saputra and E. Pramono	7
<b>Optimization of Cutting Parameters Based on Specific Cutting Energy Consumption for Aluminum 6010 by Using the Analysis of Variance (ANOVA)</b> S. Raharno, Y.Y. Martawirya, H.R. Visith and J.A.C. Wijaya	14
<b>Development of a Methodology for Assessing the Energy Efficiency Performance on Turning Processes</b> S. Raharno, Y.Y. Martawirya and J.A.C. Wijaya	19
<b>Study of Active Compounds from Red Cabbage (<i>Brassica oleracea var. capitata f. Rubra</i>) Extract as a Green Corrosion Inhibitor for API 5L Grade X60 Steel in NaCl 3.5% Environment</b> A. Rustandi and M.A. Barrinaya	24
<b>Experimental Study on the Compressive Strengths of Woven Glass-Epoxy Composites</b> B.K. Hadi and R.S. Trisolicha	31
<b>Characterization of Commercial Automotive Brake Pad Materials</b> E. Surojo, W.W. Raharjo, J. Jamasri and A. Utama	36
<b>Vickers Microhardness Dependence Load and Determining of Tensile Strength of HQ 705 Steel from Microhardness Curves</b> V. Malau and L. Arifudin	43
<b>Stress-Distribution around Pin-Loaded Hole for Orthotropic Laminates</b> S. Hidayat, B.K. Hadi, H. Syamsudin and S. Mihradi	53
<b>A Preliminary Study: Influence of Alkali Treatment on Physical and Mechanical Properties of Agel Leaf Fiber (<i>Corypha gebanga</i>)</b> H. Hestiawan, J. Jamasri and Kusmono	61
<b>Numerical Study on Weld Joints of Steel Longitudinal Welded Piles during Pile Driving Process</b> J. Wisnugroho, S. Wicaksono, D. Suharto and M. Siswosuwarno	67
<b>Development of Chatter Threshold Determination Methodology in Milling Process by Using Inclined Workpiece</b> T. Prakosa, Y.Y. Martawirya, I. Nurhadi and I.P. Nurprasetio	74
<b>The Influence of Preheat on Distortion and Fatigue Crack Propagation Rate of FCAW Weld in A 36 Steel Structure</b> N. Subeki, J. Jamasri, M.N. Ilman and P.T. Iswanto	83
<b>The Effect Rust and Over-Protection Voltage of Impressed Current Cathodic Protection towards LR Grade a Steel Disbondment</b> M. Fitruallah, S.M. Mawaddah, Wahyudin, P. Tarigan, O. Soesaptri, Suryana, Y. Dwiyanti, T. Partuti, A. Juniarrah, A. Aziz and A. Trenggono	92
<b>The Influence of Quench Tempering and Carburizing Treatment towards Mechanical Properties and Microstructure of Medium Carbon Steel for Automotive Application</b> A. Aziz, M. Fitruallah, Suryana and F. Firmansyah	99
<b>Effect High Salinity and Red-Blue Light Treatment on Lipid Content of the Microalgae <i>Chlorella zofingiensis</i> Dönz as Biodiesel Source</b> E.A. Suyono, A. Listyarini and A. Hardiyati	103
<b>Manufacturing of Mini-Channel by Electrical Chemical Machining Processes</b> M. Mahardika, A. Mulianto and A. Sudiarso	111

**The Effects of Reduction Parameter to Composite Pelet of Iron Ore and Coal Using Single Conveyor Belt Hearth Furnace**

J.W. Soedarsono, A. Rustandi, Y. Pratesa, R.D. Sulamet-Ariobimo, B.H. Prabowo and J.S. Exsaudy

115

**Effect of Welding Current and Welding Time for Micro Resistance Spot Welding on Dissimilar Thin Thickness Materials of Al 1100 and KS 5 Spring Steel**

A.S. Baskoro, H. Muzakki and W. Winarto

120

**Chapter 2: Research and Design of Machines and Mechanisms in Mechanical Engineering**

**Smooth Particle Hydrodynamics (SPH) for Simulating 2D Elastodynamics Problems**

V.T. Nguyen, C.X. Canh and L.R. Zuhal

127

**Modeling of Wing Flapping Motion**

T.D. Nguyen, S. Sdywaliva and T. Mulyanto

132

**Dynamics of Multiple-Drive Belt Conveyors during Starting**

I. Kusumaningtyas, A.J.G. Nuttall and G. Lodewijks

141

**The Modeling of a Propeller Turbine Runner in 3D Solid Using 3D Equation Curve in Autodesk Inventor 2015**

I. Djodikusumo, I.N. Diasta and F. Koeshardono

147

**Geometric Modeling of a Propeller Turbine Runner Using ANSYS BladeGen, Meshing Using ANSYS TurboGrid and Fluid Dynamic Simulation Using ANSYS Fluent**

I. Djodikusumo, I.N. Diasta and I. Sanjaya Awaluddin

164

**Study the Strength of Material and Composite Structures of Belly-Landing Mini UAV**

M.F. Soetanto and R.I. Tritjahjono

178

**A Study on Hovercraft Resistance Using Numerical Modeling**

A.T. Phan

186

**Design Optimization of Rotor Lock Disc for Horizontal Axis Wind Turbine Generator**

G.L. Augusto, A.B. Culaba, L.A. Gan Lim and A.B. Maglaya

191

**Steel Plate Behavior under Blast Loading-Numerical Approach Using LS-DYNA**

V. Minh Thanh, S.P. Santosa, D. Widagdo and I.S. Putra

200

**Estimation of Lateral/Directional Static Stability Characteristics of a Turboprop Aircraft at one Engine Inoperative Condition**

R.A. Wandini, T. Mulyanto and H. Muhammad

208

**Estimation of Acoustic Energy and Performance Characterization of Acoustic Concentrator**

M.H. Thein and K.M. Lim

217

**Numerical Simulation of 2D Flow around Deforming Fish-Like Body**

C.X. Canh, L.R. Zuhal and H. Muhammad

228

**Affordable and Reliable Avionics Architecture Design for Advanced Regional Turboprop Aircraft**

T. Indriyanto and H. Hartalita

233

**Influence of CME-Diesel Blends on the Performance of a Light Duty Common Rail Direct Inject Engine**

J.G.E. Mercado and E.N. Quiros

241

**Behavior of Tubular-Hat Structure Subjected to Low Velocity Impact Three-Point Bending**

H.A. Ly and H.N. Le

246

**Dynamics Simulation and Analysis of Transition Stage of Tilt-Rotor Aircraft**

M.R. Hadytama and R. Sasongko

251

**Light Monorail Body Carriage Design**

Subarmono, M.A. Wibisono and T.I. Pujawira

259

**Application of Genetic Algorithm for the Design Optimization of Geodesic Beam Structure**

I.G.N. Sudira, B.K. Hadi, M.A. Moelyadi and D. Widagdo

266

**Spectral Error Analysis of Windowed Discrete Sinusoidal Signals**

B. Heryadi, I.P. Nurprasetio and Z. Abidin

273

**Chapter 3: Mechatronics and Control**

<b>Quadrotor Research Platform with Obstacle Avoidance</b> K.N. Cobankiat, T.A. Pua, R.V. Que, W.J.Y. Wee Ebol and A.Y. Chua	283
<b>Study and Fabrication of Virtual TIG Welding Equipment</b> T.D. Nguyen	288
<b>Preparation for Capturing Human Skills during Tooling Tasks Using Redundant Markers and Instrumented Tool</b> P. Gia Hoang, H. Asif and D. Campolo	293
<b>Mathematical Approach for Geometric Error Modeling of Three Axis CNC Vertical Milling Machine</b> W. Kwintarini, A. Wibowo and Y.Y. Martawirya	303
<b>Manufacturing Process and Flight Testing of an Unmanned Aerial Vehicle (UAV) with Composite Material</b> G. Nugroho, A.A. Rafsan Jani, R.R. Trio Sadewo and M. Satrio	311
<b>Assembly Programmable Logic Control (PLC) in the Rotary Dryer Machine for Processing Waste Liquid System</b> Hendra, A. Indriani, Hernadewita and Y. Rizal	319
<b>Error of Assembly Microcontroller Arduino Mega and ATmega in the Control of Temperature for Heating and Cooling System</b> A. Indriani, Hendra and Y. Witanto	324
<b>Development of Air Combat Effectiveness Simulation and Analysis Scheme for beyond Visual Range (BVR) Case</b> P.A.P. Suseno and R. Sasongko	329
<b>Development of Photometric Stereo-Based 3 Dimensional Object Reconstruction for Welding Application</b> A.S. Baskoro and B. Surya	337

## Chapter 4: Industrial Engineering

<b>An Object-Oriented Modelling of Production Scheduling for Flexible Manufacturing System</b> A. Setiawan, L. Qashmal, R. Wangsaputra, Y.Y. Martawirya and A.H. Halim	345
<b>Priority Evaluation of Life Cycle Impact Factors for Algal Biofuel Production in the Philippines Using Analytic Hierarchy Process</b> A.T. Ubando, C.B. Felix, I.H.V. Gue, A.P. Mayol, N.A. Toledo, S.S. Garibay, C.N. Jimenez, J.B.M. Biona and A.B. Culaba	355
<b>Maintenance on Job Shop Industry: Review and Analysis</b> H. Budi Harja, T. Prakosa and Y.Y. Martawirya	365
<b>An Object-Oriented Modelling for Simulating Workshop Consisted of Machining Center, Pallet Stocker and Stacker Crane</b> R. Hartono, S. Raharno and Y.Y. Martawirya	373
<b>The Influence of Eco Maintenance on Power Consumption of the Lathe Machines</b> S. Cahyati, Triyono, M.S. Annas and A. Sumpena	381
<b>Computer Aided Stamped Batik Design and Manufacturing for Batik Machine with Wax Moving Module</b> M.A. Wibisono, I.G.B. Budi Dharma, M.I. Rif'ah and P. Arsiwi	388

## Chapter 5: Materials and Technologies for Biomedical Engineering

<b>Electropolishing of Orthodontic Bracket Produced by Investment Casting Process</b> S. Supriadi, T.W. Sitanggang, B. Irawan, B. Suharno, T. Prasetyadi and F. Faturrahman Zulfickry	397
<b>Design and Fabrication of Multi-Layered Microfilter by Electropolishing Technique</b> M.A. Setyawan, T. Sriani and G.S. Prihandana	402
<b>Development and Characterization of Porous Biphasic Calcium Phosphate Bone Graft from Natural Biological Origin Raw Material for Biomedical Application</b> M.K. Herliansyah and M.I. Anshory	407
<b>Effect of Shot Peening Pressure Variation on Surface Characteristic of SS-316L Dynamic Compression Plate (DCP)</b> Y.R. Saputra, P. Prihandoko, Sunardi, T. Sriani and G.S. Prihandana	418

<b>Design and Analysis of Exoskeleton as a Rehabilitation Device</b> R.A. Wicaksono, S.D. Haryanto, P. Prihandoko, G.S. Prihandana and T. Sriani	423
<b>Effect of Time Variation on Shot Peening Process to the Surface Properties of SS-316L Osteosynthesis Plate</b> P. Prihandoko, Y.R. Saputra, T. Sriani, Sunardi and G.S. Prihandana	430
<b>Design and Fabrication of an Affordable Transfemoral Prosthetic Leg</b> E.O. Bachtiar, T. Dirgantara, S. Mihradi and A.I. Mahyuddin	435
<b>3D Reconstruction and Stress Analysis of the Free End Second Premolar Root Form Dental Implant</b> S. Wicaksono, P.L. Ferdian, T. Dirgantara, A.I. Mahyuddin, S. Mihradi and G. Subrata	445

## Chapter 6: Environmental Engineering

<b>Structures of Water Molecules in Carbon Nanotubes Induced with Electric Fields and its Application for Water-Methanol Separation</b> W. Winarto, D. Takaiwa, E. Yamamoto and K. Yasuoka	453
<b>Portable Desalination Chamber Utilizing Water Permeable Polyethersulfone (PES) Membrane</b> R.A. Yanto, A.P. Anugrah, T. Sriani and G.S. Prihandana	457
<b>Fabrication of Hydroxyapatite Disc as Filtration Membrane in Waste Water Treatment System</b> S.D. Haryianto, T. Sriani and G.S. Prihandana	461
<b>Analysis of Success Factors for E-Waste Collection in Indonesia</b> M. Anityasari and Y.S. Nur	467
<b>Determination of Lead Contamination in Urban Soil, Yogyakarta City, Indonesia</b> S.A. Zaw Aye, H. Hendrayana, D.P. Eka Putra and T. Sato	473
