

Table of Contents

Chapter 1: Materials and Materials Processing

Effects of the Laser Head Distance and Cutting Speed of the Laser Cutting Machine in the Polymethyl Methacrylate Cutting Process B. Delfian Prihadianto and G. Nugroho	3
Effect of Fiber Size on Mechanical and Water Absorption Properties of Recycled Polypropylene/Empty Fruit Bunches (rPP/EFB) Bio-Composites O. Saputra, L. Rinawati, K. Setia Rini, D.A. Saputra and E. Pramono	7
Optimization of Cutting Parameters Based on Specific Cutting Energy Consumption for Aluminum 6010 by Using the Analysis of Variance (ANOVA) S. Raharno, Y.Y. Martawirya, H.R. Visith and J.A.C. Wijaya	14
Development of a Methodology for Assessing the Energy Efficiency Performance on Turning Processes S. Raharno, Y.Y. Martawirya and J.A.C. Wijaya	19
Study of Active Compounds from Red Cabbage (<i>Brassica oleracea var. capitata f. Rubra</i>) Extract as a Green Corrosion Inhibitor for API 5L Grade X60 Steel in NaCl 3.5% Environment A. Rustandi and M.A. Barrinaya	24
Experimental Study on the Compressive Strengths of Woven Glass-Epoxy Composites B.K. Hadi and R.S. Trisolicha	31
Characterization of Commercial Automotive Brake Pad Materials E. Surojo, W.W. Raharjo, J. Jamasri and A. Utama	36
Vickers Microhardness Dependence Load and Determining of Tensile Strength of HQ 705 Steel from Microhardness Curves V. Malau and L. Arifudin	43
Stress-Distribution around Pin-Loaded Hole for Orthotropic Laminates S. Hidayat, B.K. Hadi, H. Syamsudin and S. Miharadi	53
A Preliminary Study: Influence of Alkali Treatment on Physical and Mechanical Properties of Agel Leaf Fiber (<i>Corypha gebanga</i>) H. Hestiawan, J. Jamasri and Kusmono	61
Numerical Study on Weld Joints of Steel Longitudinal Welded Piles during Pile Driving Process J. Wisnugroho, S. Wicaksono, D. Suharto and M. Siswosuwarno	67
Development of Chatter Threshold Determination Methodology in Milling Process by Using Inclined Workpiece T. Prakosa, Y.Y. Martawirya, I. Nurhadi and I.P. Nurprasetio	74
The Influence of Preheat on Distortion and Fatigue Crack Propagation Rate of FCAW Weld in A 36 Steel Structure N. Subeki, J. Jamasri, M.N. Ilman and P.T. Iswanto	83
The Effect Rust and Over-Protection Voltage of Impressed Current Cathodic Protection towards LR Grade a Steel Disbondment M. Fitrullah, S.M. Mawaddah, Wahyudin, P. Tarigan, O. Soesaptri, Suryana, Y. Dwiyantri, T. Partuti, A. Juniarsih, A. Aziz and A. Trenggono	92
The Influence of Quench Tempering and Carburizing Treatment towards Mechanical Properties and Microstructure of Medium Carbon Steel for Automotive Application A. Aziz, M. Fitrullah, Suryana and F. Firmansyah	99
Effect High Salinity and Red-Blue Light Treatment on Lipid Content of the Microalgae <i>Chlorella zofingiensis</i> Dönn as Biodiesel Source E.A. Suyono, A. Listyarini and A. Hardiyati	103
Manufacturing of Mini-Channel by Electrical Chemical Machining Processes M. Mahardika, A. Mulianto and A. Sudiarso	111

The Effects of Reduction Parameter to Composite Pelet of Iron Ore and Coal Using Single Conveyor Belt Hearth Furnace J.W. Soedarsono, A. Rustandi, Y. Pratesa, R.D. Sulamet-Ariobimo, B.H. Prabowo and J.S. Exsaudy	115
Effect of Welding Current and Welding Time for Micro Resistance Spot Welding on Dissimilar Thin Thickness Materials of Al 1100 and KS 5 Spring Steel A.S. Baskoro, H. Muzakki and W. Winarto	120

Chapter 2: Research and Design of Machines and Mechanisms in Mechanical Engineering

Smooth Particle Hydrodynamics (SPH) for Simulating 2D Elastodynamics Problems V.T. Nguyen, C.X. Canh and L.R. Zuhail	127
Modeling of Wing Flapping Motion T.D. Nguyen, S. Sdywaliva and T. Mulyanto	132
Dynamics of Multiple-Drive Belt Conveyors during Starting I. Kusumaningtyas, A.J.G. Nuttall and G. Lodewijks	141
The Modeling of a Propeller Turbine Runner in 3D Solid Using 3D Equation Curve in Autodesk Inventor 2015 I. Djodikusumo, I.N. Diasta and F. Koeshardono	147
Geometric Modeling of a Propeller Turbine Runner Using ANSYS BladeGen, Meshing Using ANSYS TurboGrid and Fluid Dynamic Simulation Using ANSYS Fluent I. Djodikusumo, I.N. Diasta and I. Sanjaya Awaluddin	164
Study the Strength of Material and Composite Structures of Belly-Landing Mini UAV M.F. Soetanto and R.I. Tritjahjono	178
A Study on Hovercraft Resistance Using Numerical Modeling A.T. Phan	186
Design Optimization of Rotor Lock Disc for Horizontal Axis Wind Turbine Generator G.L. Augusto, A.B. Culaba, L.A. Gan Lim and A.B. Maglaya	191
Steel Plate Behavior under Blast Loading-Numerical Approach Using LS-DYNA V. Minh Thanh, S.P. Santosa, D. Widagdo and I.S. Putra	200
Estimation of Lateral/Directional Static Stability Characteristics of a Turboprop Aircraft at one Engine Inoperative Condition R.A. Wandini, T. Mulyanto and H. Muhammad	208
Estimation of Acoustic Energy and Performance Characterization of Acoustic Concentrator M.H. Thein and K.M. Lim	217
Numerical Simulation of 2D Flow around Deforming Fish-Like Body C.X. Canh, L.R. Zuhail and H. Muhammad	228
Affordable and Reliable Avionics Architecture Design for Advanced Regional Turboprop Aircraft T. Indriyanto and H. Hartalita	233
Influence of CME-Diesel Blends on the Performance of a Light Duty Common Rail Direct Inject Engine J.G.E. Mercado and E.N. Quiros	241
Behavior of Tubular-Hat Structure Subjected to Low Velocity Impact Three-Point Bending H.A. Ly and H.N. Le	246
Dynamics Simulation and Analysis of Transition Stage of Tilt-Rotor Aircraft M.R. Hadytama and R. Sasongko	251
Light Monorail Body Carriage Design Subarmono, M.A. Wibisono and T.I. Pujawira	259
Application of Genetic Algorithm for the Design Optimization of Geodesic Beam Structure I.G.N. Sudira, B.K. Hadi, M.A. Moelyadi and D. Widagdo	266
Spectral Error Analysis of Windowed Discrete Sinusoidal Signals B. Heryadi, I.P. Nurprasetyo and Z. Abidin	273

Chapter 3: Mechatronics and Control

Quadrotor Research Platform with Obstacle Avoidance K.N. Cobankiat, T.A. Pua, R.V. Que, W.J.Y. Wee Ebol and A.Y. Chua	283
Study and Fabrication of Virtual TIG Welding Equipment T.D. Nguyen	288
Preparation for Capturing Human Skills during Tooling Tasks Using Redundant Markers and Instrumented Tool P. Gia Hoang, H. Asif and D. Campolo	293
Mathematical Approach for Geometric Error Modeling of Three Axis CNC Vertical Milling Machine W. Kwintarini, A. Wibowo and Y.Y. Martawirya	303
Manufacturing Process and Flight Testing of an Unmanned Aerial Vehicle (UAV) with Composite Material G. Nugroho, A.A. Rafsan Jani, R.R. Trio Sadewo and M. Satrio	311
Assembly Programmable Logic Control (PLC) in the Rotary Dryer Machine for Processing Waste Liquid System Hendra, A. Indriani, Hernadewita and Y. Rizal	319
Error of Assembly Microcontroller Arduino Mega and ATmega in the Control of Temperature for Heating and Cooling System A. Indriani, Hendra and Y. Witanto	324
Development of Air Combat Effectiveness Simulation and Analysis Scheme for beyond Visual Range (BVR) Case P.A.P. Suseno and R. Sasongko	329
Development of Photometric Stereo-Based 3 Dimensional Object Reconstruction for Welding Application A.S. Baskoro and B. Surya	337

Chapter 4: Industrial Engineering

An Object-Oriented Modelling of Production Scheduling for Flexible Manufacturing System A. Setiawan, L. Qashmal, R. Wangsaputra, Y.Y. Martawirya and A.H. Halim	345
Priority Evaluation of Life Cycle Impact Factors for Algal Biofuel Production in the Philippines Using Analytic Hierarchy Process A.T. Ubando, C.B. Felix, I.H.V. Gue, A.P. Mayol, N.A. Toledo, S.S. Garibay, C.N. Jimenez, J.B.M. Biona and A.B. Culaba	355
Maintenance on Job Shop Industry: Review and Analysis H. Budi Harja, T. Prakosa and Y.Y. Martawirya	365
An Object-Oriented Modelling for Simulating Workshop Consisted of Machining Center, Pallet Stocker and Stacker Crane R. Hartono, S. Raharno and Y.Y. Martawirya	373
The Influence of Eco Maintenance on Power Consumption of the Lathe Machines S. Cahyati, Triyono, M.S. Annas and A. Sumpena	381
Computer Aided Stamped Batik Design and Manufacturing for Batik Machine with Wax Moving Module M.A. Wibisono, I.G.B. Budi Dharma, M.I. Rif'ah and P. Arsiwi	388

Chapter 5: Materials and Technologies for Biomedical Engineering

Electropolishing of Orthodontic Bracket Produced by Investment Casting Process S. Supriadi, T.W. Sitanggang, B. Irawan, B. Suharno, T. Prasetyadi and F. Faturrahman Zulfickry	397
Design and Fabrication of Multi-Layered Microfilter by Electropolishing Technique M.A. Setyawan, T. Sriani and G.S. Prihandana	402
Development and Characterization of Porous Biphasic Calcium Phosphate Bone Graft from Natural Biological Origin Raw Material for Biomedical Application M.K. Herliansyah and M.I. Anshory	407
Effect of Shot Peening Pressure Variation on Surface Characteristic of SS-316L Dynamic Compression Plate (DCP) Y.R. Saputra, P. Prihandoko, Sunardi, T. Sriani and G.S. Prihandana	418

Design and Analysis of Exoskeleton as a Rehabilitation Device R.A. Wicaksono, S.D. Hariyanto, P. Prihandoko, G.S. Prihandana and T. Srian	423
Effect of Time Variation on Shot Peening Process to the Surface Properties of SS-316L Osteosynthesis Plate P. Prihandoko, Y.R. Saputra, T. Srian, Sunardi and G.S. Prihandana	430
Design and Fabrication of an Affordable Transfemoral Prosthetic Leg E.O. Bachtiar, T. Dirgantara, S. Mihradi and A.I. Mahyuddin	435
3D Reconstruction and Stress Analysis of the Free End Second Premolar Root Form Dental Implant S. Wicaksono, P.L. Ferdian, T. Dirgantara, A.I. Mahyuddin, S. Mihradi and G. Subrata	445

Chapter 6: Environmental Engineering

Structures of Water Molecules in Carbon Nanotubes Induced with Electric Fields and its Application for Water-Methanol Separation W. Winarto, D. Takaiwa, E. Yamamoto and K. Yasuoka	453
Portable Desalination Chamber Utilizing Water Permeable Polyethersulfone (PES) Membrane R.A. Yanto, A.P. Anugrah, T. Srian and G.S. Prihandana	457
Fabrication of Hydroxyapatite Disc as Filtration Membrane in Waste Water Treatment System S.D. Hariyanto, T. Srian and G.S. Prihandana	461
Analysis of Success Factors for E-Waste Collection in Indonesia M. Anityasari and Y.S. Nur	467
Determination of Lead Contamination in Urban Soil, Yogyakarta City, Indonesia S.A. Zaw Aye, H. Hendrayana, D.P. Eka Putra and T. Sato	473
