ISBN(softcover): 978-3-03835-702-5 ISBN(eBook): 978-3-0357-0190-6

Table of Contents

Chapter 1: Research and Design of Industrial Robots, Robotic Systems and Automated Production Lines

Objectives and Effects of Cell Production
M. Hajduk, J. Putala, R. Rusnák, M. Šulik and Z. Pilat 3

Kinematic Design of Parallel Delta System in Matlab
K. Łygas, P. Wolszczak, T. Klepka and D. Ghiculescu 7

Proposal End-Effectors for Robotic Workplaces with SCARA Robot
J. Semjon and M. Šulik 13

Identification of Palletizing/Depalletizing Operations in Food Industry Suitable for Robotics
M. Hajduk 19

The Assembly of Electric Socket at Automated Workplace with SCARA Robot
M. Vagaš 25

Virtual Designing of Robotic Workstations
Ł. Sobaszek, A. Gola and J. Varga 31

Verification of Designed Assembly Process at Research Robotized Workplace
M. Vagaš and J. Putala 38

The Concept of Robotic Station for Measurement of the Friction Force between Fibre-Optic Cable and Duct
T. Klepka, P. Zaprawa and D. Ghiculescu 44

Simulation Based Analysis of Reconfigurable Manufacturing System Configurations
A. Gola and A. Świć 50

Chapter 2: Vision Systems and Pattern Recognition in Robotics

Positioning of Randomly Distributed Objects with Camera Omron F150-3
R. Jánoš 63

Camera Systems of Industrial Robots
V. Baláž, M. Vagaš, J. Semjon and R. Rusnák 68

Simple Algorithm for Patterns Recognition
J. Varga and M. Sukop 75

Possibility of 3D Scanning Application in the Robotized Manufacturing Processes
P. Tuleja 79

Application of Artificial Neural Networks in Image Recognition
J. Zubrzycki, K. Jonak and M. Zubrzycki 84

Application of Two-Layer Kohonen Networ in Image Recognition
J. Zubrzycki, K. Jonak and M. Zubrzycki 91

Verification of Parameter Camera System Omron F150 Robotized Workplace with SCARA Robot
J. Semjon 97

Selection of Models for Research Workplace
Ľ. Šidlovská 102

Chapter 3: Mechatronic Devices and Systems

Modelling Characteristics Turning Processing for Want of Management by an Elastic Deformed Condition
A. Świć, J. Zubrzycki and A. Gola 109

Dynamics and Noise Level Estimation in Two-Phase Flow through a Mini Channel
G. Górski, G. Litak, R. Mosdorf, A. Rysak and K. Urbanowicz 115

Responses of Nonlinear Electro-Mechanical Energy Harvester by Means of Recurrences
B. Ducharne, G. Litak, H. Przywara and G. Sebald 122

Modelling of Energy Harvesting System from Vertically Excited Magnetostrictive Beam
M. Borowiec and A. Syta 128

The Creation of Mechatronic Recovery Energy System for Mobile Machines
A. Avsiyevich, M. Masalski and A. Shashko 138

Working out Universal Mechatronics Mobile Base
D. Mironov, H. Gaivoronskiy, A. Pobegailo and M. Teliak 142
