

Preface

The growth in the field of technologies in the present competitive era should be sustainable one which could be achieved only through the sharing of surplus knowledge in a perfect platform. Our International conference on “Futuristic innovations in Mechanical Engineering and Manufacturing Engineering and Manufacturing Management” (ICFIMEMM-2016) has been organized precisely in order to meet out the objectives and to set out new goals with the continuous encouragement from the Chairman, Secretary, Principal, Executive Director, Dean (Mech & Civil Engg.) and Head of the Department (Mechanical) of M.Kumarasamy College of Engineering. We can say with confidence that the research scholars have experienced the fruitful part of the technical session. Also it nurtures the creativity among the young minds. The conference has been planned to achieve the quality standard by constituting the Advisory Committee comprising eminent professionals from Academics and Industries. Around 180 papers have been received and under the loyal review by the experts of review committee, 130 papers were selected for presentation in Conference. We express our heartfelt thanks to the management for providing extended support to make the conference as royal. Our sincere thanks to the Advisory Committee to enlighten the event and the technical committee for ensuring good quality presentation during the conference.
