Preface

It was our great honor to organize the 1st Infrastructure Technology Symposium. Infrastructure Technology Symposium is a part of 3rd International Conference on Science and Technology that was held in Yogyakarta, Indonesia on 11 – 12 July 2017. Infrastructure Technology Symposium is a conference dedicated to issuing the research results related to hydraulics, hydrology, environmental, water resources, earthquake engineering, structural analysis, construction methods and materials.

Around 56 papers were submitted to Infrastructure Technology Symposium. All of these submitted papers were subjected to strict reviewing by 2-3 experts from some universities. 15 papers were accepted and presented in Infrastructure Technology Symposium.

This book is a collection of all the accepted papers. It also includes the paper of keynote and invited speakers. Finally, the committee of 1st Infrastructure Technology Symposium wants to thank all authors for the contribution in ICST 2017. All reviewers should be thanked for their insightful comments on the paper.
