

## **Table of Contents**

### Preface

### **Chapter 1: Machines and Equipment**

<b>Modelling the Stiffness Element in the Multi-Degree of Freedom Mass-Spring System</b> A.R. Bahari, M.A. Yunus, M.N.A. Rani, W.I.I. Wan Iskandar Mirza and M.A.S.A. Shah	3
<b>The Effect of Cooling Method in Parabolic Solar Dish Concentrator</b> A.N.A. Nyandang, B. Singh, M.F. Remeli, R.A. Bakar and A. Oberoi	11
<b>Effect of Dimensionless Numbers on Air Core Diameter of Pressure-Swirl Atomizer</b> Z.A. Ghaffar, S. Kasolang, A.H.A. Hamid and M.S.F.M. Rashid	22

### **Chapter 2: Mechatronics and Robotics**

<b>Design and Development of Ladder Climbing Robot</b> L.K. Moey, N.L.S. Teng, J.Y. Ng, M.I. Solihin and N.H. Badrulhisam	31
<b>Aerodynamic Performance of a Flapping Wing Inspired by Bats</b> S. Suhaimi, S. Shuib, H. Yusoff and A.H. Kadarman	42
<b>Design and Development of Actuator System for Automated Polypropylene Bag Assembly Machine</b> R.A. Jaafar, I.I. Ihsan, A.M. Samsuri, N.S.N. Mahadi and M.A. Ayub	50
<b>Development of Examination Hall Assistive Robot (EHAR)</b> M.A.H. Sham, N.A. Elias, N.A.N.M. Kamarolzaman, N. Aziz, N.S. Khusaini, S. Khusairi and Z. Mohamed	61

### **Chapter 3: Biomedical Engineering**

<b>The Mechanical Properties of Mimic Skin</b> N.N. Mohd Nazali, N.A.A. Anirad and N.F.A. Manan	73
<b>Influence of Dental Implant Design on Stress Distribution and Micromotion of Mandibular Bone</b> N.F. Ismail, M.S. Islam, S. Shuib, R. Ahmad and M.A. Shahmin	81
<b>Three-Dimensional Modeling and Finite Element Analysis of an Ankle External Fixator</b> N.F. Ismail, M.A.F. Bin Adnan, S. Shuib and N.A.H. Nik Abd Rashid	94
<b>Design and Development of Insole Monitoring System for Runner</b> M.S. Mat Dris, M.H.M. Ramli, N.S. Khusaini, N. Aziz and Z. Mohamed	103

### **Chapter 4: Materials and Processing Technologies**

<b>Investigation on Parameter Contribution to the Property of Weld Joint AA5052-H112 Sheets in Friction Stir Spot Welding under Fatigue Load and Failure Mode</b> Armansyah, J. Saedon, H.C. Ho and S. Adenan	117
<b>Fatigue Life Behaviour of Transverse Fillet Weld and Transverse Fillet on Weld of the HSLA S460G2+M Followed by HFMI/PIT</b> D. Andud, S. Saidin and Y.H.P. Manurung	126
<b>Green Manufacturing - Textured Novel Cutting Tool for Sustainable Machining: A Review</b> A. Farooqi and N. bin Yusoff	135
<b>An Investigation on the Surface Integrity of Grade 5 Titanium Alloy Proceeding the Wire Electro-Discharge Machining (WEDM) Process</b> N. Musa, J.B. Saedon and M.S. Adenan	144
<b>Extraction of Silica from Rice Husk and Bamboo Leaves and its Effect on the Ceramic Body Glazing Process</b> N.S.M. Zarib, S.A. Abdullah and N.N. Ishak	156

<b>Dicing Characterization on Optical Silicon Wafer Waveguide</b> J.B. Saedon, S.M.M. Ibrahim, A.R.A. Ghani and M.H.B.A. Razak	163
<b>Effect of Process Parameter on Tensile Strength of Spot Welded S235 Sheet Using Simulation and Experimental</b> M.N. Yusuf, W.E.W.A. Rahman and Y.H.P. Manurung	169
<b>Product Performance Analysis of Fine Bone China Using Ceramic Slip Rotary Moulding Process</b> N. Nasir, N.H. Saad, N.H.A. Wahab, B. Abdullah and A.R.M. Sahab	180
<b>Resin Mould for Ceramic Slip Rotary Moulding (CSR) System</b> N.H.A. Wahab, N.H. Saad, N. Nasir and A.R.M. Sahab	187
<b>Surface Structure of Epoxy Treated Semantan Bamboo (<i>Gigantochloa scorchedii</i>)</b> N.F. Ismail, S. Shuib and A.Z. Romli	193

## **Chapter 5: Engineering Management, Ergonomics and Products Design**

<b>Reliability of Kinovea Software for Ergonomic Analysis Calibrated Using Cost-Effective Equipment</b> N. bin Hidzir Pauzi, M.N.A. bin Ab Patar, N.A. binti Mohd Salleh and S.A. Abdullah	209
<b>A Case Study: Framework of Gap Analysis on Integration of Audit System between IATF 16949 and Toyota Production System</b> N.H. Saad, Q.M. Khalid, N.H.A. Halim and N.S. Khusaini	219
<b>Ergonomics Intervention in Indoor Spectrum Measurement Activities</b> E. Mohamad and N.H. Saad	230
<b>Mid-Life Refurbishment Maintenance Strategy to Sustain Performance and Reliability of Train System</b> M.F.M. Idris and N.H. Saad	238
<b>A Critical Analysis on Organizational Diagnostic Models and New Diagnostic Model Proposition for Construction Companies</b> I.S. Baharudin and B. Abdullah	253
<b>Process Improvement at Automotive Assembly Line Using Line Balancing and Lean Manufacturing Approach</b> M.H. bin Tajul Arifin and W.E.W.A. Rahman	268
