Table of Contents

Preface

Chapter 1: 1 doa Chemistry and 1 hytochemical randrysis	Chapter 1: F	Food Chemistry	and Phytoche	mical Analysis
---	--------------	----------------	--------------	----------------

S. Panich	3	
Biological Activities and Optimal Conditions for Making Khlu Tea U. Polyium and N. Sakulyunyongsuk	11	
Phytochemicals Investigation and Antioxidant Activities of the <i>Xylocarpus granatum</i> Extracts L. Dolvium	17	
U. Polyium Effect of Photosynthetic Microorganism on Lime Plant Growing and Fruiting		
V. Boonyaroj, K. INKAEW and S. Saramanus	23	
Chapter 2: Coatings and Surface Engineering		
The Effect of Annealing Temperature on Structure of TiCrN Thin Film Deposited by DC Magnetron Sputtering Method A. Buranawong and N. Witit-Anun	31	
Effect of Sputtering Current on the Structure of TiCrN Thin Films Prepared from Mosaic Target by Reactive DC Magnetron Sputtering S. Alaksanasuwan, A. Buranawong and N. Witit-Anun	37	
The Study on High Temperature Stability Test of Ni/Cr Cold Spray Coating J. Tharajak and N. Sanpo	43	
The Comparison Study on Abrasive and Erosive Resistance Properties of Thermal Spray Coatings		
J. Tharajak and N. Sanpo	49	
Chapter 3: Materials, Applied Technologies and Renewable Energy		
Chapter 3: Materials, Applied Technologies and Renewable Energy Hysteresis Effect of Sensor Materials for Measuring of Brinell Hardness Truncated Using High-Frequency of Cyclic Measurement R. Muangma and K. Supawan	57	
Hysteresis Effect of Sensor Materials for Measuring of Brinell Hardness Truncated Using High-Frequency of Cyclic Measurement R. Muangma and K. Supawan Determination of Residual Heavy Metals in an Incinerator Bottom Ash from Municipal Solid Waste Power Plant		
Hysteresis Effect of Sensor Materials for Measuring of Brinell Hardness Truncated Using High-Frequency of Cyclic Measurement R. Muangma and K. Supawan Determination of Residual Heavy Metals in an Incinerator Bottom Ash from Municipal Solid Waste Power Plant W. Chansuvarn Improvement of Mechanical Properties of Polylactic Acid/Oil Palm Fiber Composites by	57 65	
Hysteresis Effect of Sensor Materials for Measuring of Brinell Hardness Truncated Using High-Frequency of Cyclic Measurement R. Muangma and K. Supawan Determination of Residual Heavy Metals in an Incinerator Bottom Ash from Municipal Solid Waste Power Plant W. Chansuvarn Improvement of Mechanical Properties of Polylactic Acid/Oil Palm Fiber Composites by Alkali Treatment T. Srinara, N. Lowrattanaounjit and K. Chaochanchaikul		
Hysteresis Effect of Sensor Materials for Measuring of Brinell Hardness Truncated Using High-Frequency of Cyclic Measurement R. Muangma and K. Supawan Determination of Residual Heavy Metals in an Incinerator Bottom Ash from Municipal Solid Waste Power Plant W. Chansuvarn Improvement of Mechanical Properties of Polylactic Acid/Oil Palm Fiber Composites by Alkali Treatment	65	
Hysteresis Effect of Sensor Materials for Measuring of Brinell Hardness Truncated Using High-Frequency of Cyclic Measurement R. Muangma and K. Supawan Determination of Residual Heavy Metals in an Incinerator Bottom Ash from Municipal Solid Waste Power Plant W. Chansuvarn Improvement of Mechanical Properties of Polylactic Acid/Oil Palm Fiber Composites by Alkali Treatment T. Srinara, N. Lowrattanaounjit and K. Chaochanchaikul Wicking Properties of Men's Quick-Dry Sportswear Y.N. Fan, W.Y. Wang, C.W. Kan, K. Maha-In, W. Changmuong, S. Wanitchottayanont and R. Mongkholrattanasit Comparison of Scintillation Light Yield of CWO and BGO Single Crystals for Gamma Ray Detection	657379	
Hysteresis Effect of Sensor Materials for Measuring of Brinell Hardness Truncated Using High-Frequency of Cyclic Measurement R. Muangma and K. Supawan Determination of Residual Heavy Metals in an Incinerator Bottom Ash from Municipal Solid Waste Power Plant W. Chansuvarn Improvement of Mechanical Properties of Polylactic Acid/Oil Palm Fiber Composites by Alkali Treatment T. Srinara, N. Lowrattanaounjit and K. Chaochanchaikul Wicking Properties of Men's Quick-Dry Sportswear Y.N. Fan, W.Y. Wang, C.W. Kan, K. Maha-In, W. Changmuong, S. Wanitchottayanont and R. Mongkholrattanasit Comparison of Scintillation Light Yield of CWO and BGO Single Crystals for Gamma Ray	65 73	
Hysteresis Effect of Sensor Materials for Measuring of Brinell Hardness Truncated Using High-Frequency of Cyclic Measurement R. Muangma and K. Supawan Determination of Residual Heavy Metals in an Incinerator Bottom Ash from Municipal Solid Waste Power Plant W. Chansuvarn Improvement of Mechanical Properties of Polylactic Acid/Oil Palm Fiber Composites by Alkali Treatment T. Srinara, N. Lowrattanaounjit and K. Chaochanchaikul Wicking Properties of Men's Quick-Dry Sportswear Y.N. Fan, W.Y. Wang, C.W. Kan, K. Maha-In, W. Changmuong, S. Wanitchottayanont and R. Mongkholrattanasit Comparison of Scintillation Light Yield of CWO and BGO Single Crystals for Gamma Ray Detection A. Phunpueok, V. Thongpool, S. Jaiyen and H.S. Hsu Thermal Conductivity Properties of Summer Cooling Towels Y.L. Lam, W.Y. Wang, C.W. Kan, M. Viengsima, K. Manarungwit, N. Sasithorn, J. Pattavanitch	65 73 79 89	

Generating Electrical Performance of Plant Fuel System Using Hydroponic System	
Containing ZnO Nanoparticles	
S. Siri and K. Sompornpailin	109
A Study on Slag Composition inside Biomass Boiler System	
J. Tharajak and N. Sanpo	113
*
