

Table of Contents

Preface

Chapter 1: Functional Nanostructures

Au/Go Based Partially Uncladded SMF for Detection of Glucose Concentration N.S. Fauzi, W.M. Mukhtar, R.M. Halim, A.R.A. Rashid and N.A.M. Taib	3
Synthesis and Characterization of Anodic Alumina Oxide Using Oxalic Acid as Electrolyte Solution A. Khairudin, N.M. Mohd Lotfi, S. Suhaimi, M.I.N. Mohamad Isa and A.S. Ahmad Khair	11

Chapter 2: Nanomechanics

Deformation Behaviour of SWCNT and MWCNT under Torsional Loading: Insights from Molecular Dynamics D. Bedi, S. Sharma and S.K. Tiwari	21
Analytical Study of Single-Walled Carbon Nanotubes Using Strain Gradient Timoshenko Nanobeam B. Babu, N. Saju, T.D. Castro and D. Rohit	29

Chapter 3: Alloys

Predictive Modeling of Half-Metallicity in Heusler Compound through Machine Learning Modeling A. Ashok and N. Bhagat	39
Effect of Material Modeling on Prediction of Isothermal Formability of AA6082-O Sheet at Elevated Temperature S.S. Panicker and S. Basak	51
Investigation of Microstructure, Corrosion Performance and Mechanical Properties of Mg-6.5Zn- 7.24Sn- 1.22Ca Alloy M.N.R. Nafi, A.N. Ahmed and H.M.M.A. Rashed	59

Chapter 4: Building Materials

Enhancing Cement-Based Composites Properties by NaOH-Treated Luffa Fibers S. Zidi, N. Belaid and I. Miraoui	79
Mechanism of KH550 Improving Basalt Fiber Cement-Based Interface and Mechanical Properties Y.G. Liu, L. Yu and Z.L. Wang	91
Numerical Modelling of Nanoindentation in Cement Paste V. Renuka, S.V. Rao and T. Tadepalli	105

Chapter 5: Construction Mechanics

The Compression Deformation Analysis of Packer Rubber Cylinder via the Yeoh-Revised Model and its Verified Test P. Fan and J. Zhang	115
Vibration Behavior of Foam-Based Laminated Sandwich Beams Using a Modified Layerwise Theory S. Momeni and A. Zabihollah	129
Predicting the Natural Frequency Response and Strain Energy Release Rate in Delaminated Adhesively Bonded Joints through Finite Element Analysis and Experimental Validation N. Kumar and S. Biswas	139

Chapter 6: Engineering Design

Analysis of the Effect of Auxiliary Leaf Springs on the Operation of HOWO 9-Ton Trucks

H.Q. Vu, T.T. Nguyen and T.D. Nguyen

149

The Stereolithography 3D Printing of a Gyroid TPMS Sheet: Manufacturing, Properties and Applications

X.A. Wang, J.Y. Li, E.W. Qin, D. Chen, W. Li and G.L. Shi

161
