

Preface

Nowadays, More and more experts and scholars are paying their attention on Machinery, Materials science , Control and Industrial Engineering. It is very important to combine these together from the angle of theory and practice in the field of industrial engineering. The 5th International Conference on Computing, Control and Industrial Engineering (CCIE2014) will provide a good platform once again for scientists and engineering managers to exchange their thoughts and cooperation. we will have two important forms to hold this international conference: Specialist reporting and Group reporting, to discuss and share the newest important academic thought and academic achievements in Mechanical Engineering and Electronic Engineering, Material Engineering and others.

The conference is sponsored by Wuhan Textile University, Hubei Mechanical Engineering Society, Huazhong University of Science and Technology, Wuhan University of Technology, China University of Geosciences (Wuhan), Hubei University of Technology, Ordos College of Inner Mongolia University, Caterpillar Inc.(USA)

We will have about 150 representatives from domestic and overseas to attend this international conference, Here ,I'd like to express my sincere gratitude to those leaders, Colleges and Universities, Research Institutes, Multinational Companies and all representatives, appreciate your great support on CCIE 2014.
