

Preface

2014 International Conference on Frontiers of Energy, Materials and Information Engineering (ICFEMI 2014) will be held on August 21-22, 2014, in HongKong, China. The conference aims mainly at promoting the development of Energy, Materials, Information Engineering and New Technology, strengthening the international academic cooperation and communications, and exchanging research ideas.

In this conference, we received more than 10200 submissions from all over the world, which were reviewed by international experts, and about 411 papers have been selected for presentation, representing 11 national and international organizations. We believe the proceedings will provide the readers a broad overview of the latest advances in the field of Energy, Materials, Information Engineering and New Technology.

On behalf of the guest editors for this conference proceeding, we would like to thank the conference organization staff, and the members of International Technological Committees for their hard work. Dr. Thomas Wohlbier, Managing Editor of Journal of Advanced Materials Research, is greatly acknowledged.

We look forward to seeing all of you next year at the ICFEMI 2015.
