## **Preface**

On September 21 and 22, 2014 in Hong Kong, 2014 International Conference on Green Materials and Environmental Engineering (GMEE2014) was successfully held.

With people's awareness of how their activities can impact the earth, more and more attention was drawn to topics like environment protection and sustainable development; many institutes and organizations were also founded around the world for related purposes. GMEE2014, as a major activity in this field, also aims at bringing together inspiring researches and innovative ideas and finding more efficient and effective approaches to have things done.

On September 21 and 22, GMEE 2014 was attended by many excellent researchers from various countries. At the convention the following subjects were discussed: alternative energy, nontraditional materials and technologies and some engineering solutions in other branches in the context of sustainable development. Some of these recent advances we are able to present you here in these proceedings.

GMEE2014, with its concern to both present and future development of ours and its interdisciplinary features, has remarkably differentiated itself from many other similar conferences in the world. For that, We would like to thank all those people who have worked for or participated in GMEE2014.

We especially want to express my gratitude to all those people who have shown their interest in GMEE2014 whether their papers are included in this book or not. Your interest has proved how much we care about our environment and planet; your support has made us achieve so much.

The work of the TTP's and all other person's is also remarkable. Our deep and sincere gratitude goes to the press for publishing this book, to the committee for reviewing the papers and the organizers and other people for their invisible but valuable contribution.

Finally, we look forward to a fast delivery of this book and hope it can be useful in your future research.

**GMEE2014** Committee

# **GMEE2014 Organizing Committee**

#### **Honor Chair**

AK Bhatnagar, University of Hyderabad, India

#### **General Chair**

J. Yeh, Tallinn University of Technology, Estonia

### **Program Chair**

- A. Leung, Advanced Science and Industry Research Center, Hong Kong
- H. Yuan, Jinan University, China

#### **International Scientific Committee**

- Q. Wen, Huazhong University of Science and Technology, China
- I.V. Minin, Siberian State Geodesy Academy, Russia.
- F. KHADRAOUI, ESITC Caen, France
- A. Bhattacharjya, Amrita Vishwa VidyaPeetham University, India
- H. Chung, National Central University, Taiwan
- M. Yousefi, Islamic Azad University, Iran
- S. Mukherjee, Banasthali University, India
- R. R. Jorge, Technological University of Ciudad Juarez, Mexico
- S. Ehsan, University of Malaysia, Malaysia
- T. R. Vijayaram, VIT University Chennai Campus, India
- X. Lee. Hong Kong Polytechnic University, Hong Kong
- J. Xu, Northeast Dianli University, China
- Q. B. Zeng, Shenzhen University, China
- Z. Y. Jiang, University of Wollongong, Australian
- V. K. Jain, Indian Institute of Technology, India
- F. Keller, Institute of Electrical Engineering, Slovak
