

Preface

The 2nd International Materials, Industrial, and Manufacturing Conference (MIMEC2015) was held in Bali, 4 – 6 February 2015. In accordance to its name, Proceedings of MIMEC2015 is publishing manuscripts within the area of Materials Engineering, Industrial Engineering, and Manufacturing Engineering. Considering the complexity and multidisciplinary nature of engineering problems, manuscripts on related fields or of interdisciplinary nature are also included.

This time, we received more than 400 submissions from 43 countries across 5 continents. We are indeed very happy for the response obtained considering that this is only the second in MIMEC conference series. For this, we would like to thank all Authors for choosing MIMEC2015 to publish their works and to congratulate them on the publication of their manuscripts in MIMEC2015 Proceedings. Appreciation also goes to our International Scientific and Advisory Board members, Keynote Speakers, and Invited Speakers for their support. We are grateful to the sponsors and exhibitors for their contribution and participation in MIMEC2015. The effort of organizing committee members and student volunteers are also acknowledged. Support from the Faculty of Mechanical Engineering, Universiti Teknologi Malaysia is very much appreciated. We would also like to thank the local organizing committees from Institut Teknologi Sepuluh Nopember, University of Lampung, Udayana University, and International Network on Science, Technology and Education Programme. We would also like to extend the appreciation to sponsors and exhibitors, institutions/agencies/organizations/individuals that support/sponsor the works of the Authors and the publishing/registration fees and related expenses.

We hope this MIMEC2015 Proceedings can benefit the authors, the readers, and public in general. It is intended that this conference series will continue and flourish. Please continue and extend your support to us. Pardon for any lack of service and inconvenience. Let us know how to serve you better.

Thank you and best wishes,

Denni Kurniawan, Universiti Teknologi Malaysia, Malaysia
Fethma M. Nor, Universiti Tun Hussein Onn Malaysia, Malaysia
Editors, Proceedings of MIMEC2015
