

# Table of Contents

## Preface and Committees

### Calculation of Thermodynamic Properties in Solid-Liquid, Solid-Gas and Liquid-Gas Region

J. Avsec and I. Medved' 1

### Photo- and Thermo-Induced Effects in Chalcogenide Glasses from Point of View of the Barrier-Cluster-Heating Model

I. Baník and G. Pavlendová 9

### New Planar Disc Transient Method for the Measurement of Thermal Properties of Materials

V. Bohac, P. Dieška, V. Vretenár, D. Opatt-Fidříková, V. Štofanik and M. Markovič 16

### In Situ Analysis of Hygrothermal Performance of the Sedlec Ossuary

Z. Pavlík, L. Balík, J. Maděra, L. Kudrnáčová and R. Černý 22

### Condensed Materials Thermal Diffusivity Measurements Using Temperature Waves Method in Adiabatic Regime

A.D. Ivliyev, V.V. Meshkov and M.Y. Chernoskutov 28

### Diatomite/Palm Wax Composite as a Phase Change Material for Latent Heat Storage

J. Fořt, A. Trník, M. Pavlíková and Z. Pavlík 33

### Deterioration of Remains Exhibited in the Excavation Site Exhibition Hall, Heijyo-Kyu Palace Site

S. Wakiya, N. Kuwabara, S. Hokoi and D. Ogura 39

### The Influence of Texture and Firing on Thermal and Elastic Properties of Illite-Based Ceramics

D. Antal, T. Húlan, A. Trník, I. Štubňa and J. Ondruška 53

### New Approaches to the Thermal Design of Energy Saving Buildings

P. Jarošová and J. Vala 59

### Thermal and Kinetic Characteristics of some Oil Shale Samples

T. Kaljuvee, R. Kuusik and V. Petkova 67

### Validation of Genetic Programming Tool for the Inverse Analysis of Moisture Transport in Building Materials

J. Kočí and R. Černý 75

### Effect of Carbonation on Long-Term Measurements of Sorption Isotherms of Autoclaved Aerated Concrete

O. Koronthalýová and L. Bagel 81

### Effect of Salt Contamination on Water Vapour Sorption Hysteresis of Ceramic Bricks

O. Koronthalýová 87

### Effects in Monitoring of the Thermal Moisture Regime of Cultural Objects Located in Different Climate Conditions

L. Kubičák, J. Hudec, D. Fidříková, P. Dieška and M. Vitkovič 93

### Application of Thermophysical Methods for Oxide/Silicate Glasses

M. Chromčíková and M. Liška 99

### Uncertainty Analysis of Computational-Experimental Approach for Determination of Equivalent Thermal Conductivity of Highly Perforated Bricks

J. Maděra, V. Kočí and R. Černý 105

### Water Vapour Sorption and Hysteresis Models Applicable for Silicate Building Materials

P. Mihalka and P. Matiasovsky 111

### Fast Inverse-Analysis Calculation of Diffusion Coefficient for Salt Transport in Porous Building Materials

I. Medved', Z. Pavlík, M. Pavlíková and R. Černý 117

### DC Conductivity of Illite with Fly-Ash between 20 – 1050 °C

J. Ondruška, I. Štubňa, V. Trnovcová, T. Húlan and L. Vozár 123

### Wireless Electro Osmosis

G. Pavlendová, J. Lukovičová and I. Baník 129

### In Situ Examination and Laboratory Testing of the Enclosure Wall of the Star Game Preserve

Z. Pavlík, L. Balík, J. Maděra, M. Pavlíková, J. Fořt and R. Černý 137

<b>Heat and Water Vapor Transport Properties of Sandwich Composite with Aerogel Insulation</b>	
J. Pokorný, M. Pavlíková, J. Žumár, A. Trník and Z. Pavlík	143
<b>DSC Investigations of the Phase Transition in the High Strength Steel S960QL</b>	
T. Ślęzak, J. Zmywaczyk, P. Koniorczyk and L. Sniezek	148
<b>Material Properties of Refractory Concrete under High Temperature</b>	
S. Šťastník, F. Šot and J. Vala	155
<b>The Possibility of Building Classification for Mould Threat Using Gas Sensors Array</b>	
Z. Suchorab, L. Guz, G. Łagód and H. Sobczuk	161
<b>Thermogravimetry of Portland Cement from Argentina and Czech Republic</b>	
A. Trník, L. Scheinherrová, T. Kulovaná, Z. Pavlík, V. Rahhal, E.F. Irassar and R. Černý	169
<b>Identification of Effective Material Characteristics in Semilinear Equations of Heat and Mass Transfer</b>	
J. Vala and P. Jarošová	174
<b>Thermal Properties of Mannitol Derivative</b>	
L. Trhlíkova, O. Zmeskal, R. Prikryl and P. Florian	181
<b>Thermo-Mechanical Analysis of Chosen Epoxy Resins Used in Aviation Technology</b>	
K. Prusak, J. Zmywaczyk, P. Koniorczyk, J. Godzimirski and M. Cegła	187
<b>Thermo-Mechanical Analysis of Homo- and Heterogeneous Solid Rocket Propellants</b>	
M. Cegła, J. Zmywaczyk, P. Koniorczyk, J. Borkowski and K. Prusak	194
