Preface

We are delighted to invite you to participate 2010 International Conference on Materials Science & Technology (ICMST 2010) on December 27-28, Jeju Island, Korea.

The objective of ICMST 2010 is to provide a forum for researchers, educators, engineers, and government officials involved in the general areas of Materials Science & Technology, mechatronics, robotics, automation, power and sensors to disseminate their latest research results and exchange views on the future research directions of these fields.

2010 International Conference on Materials Science & Technology (ICMST 2010) is co-sponsored by University of Kentucky Lexington, USA and Huazhong University of Science and Technology, China. The mission is to bring together innovative academics and industrial experts in the field of Materials Science and Engineering Science. The ICMST 2010 will also include presentations of contributed papers and state-of-the-art lectures by invited keynote speakers. The conference will bring together leading researchers, engineers and scientists in the domain of interest.

We would like to thank the program chairs, organization staff, and the members of the program committees for their hard work. Special thanks go to TTP Publisher.

We hope that ICMST 2010 will be successful and enjoyable to all participants. We look forward to seeing all of you next year at the ICMST 2011.
