

# PREFACE

Dear Distinguished Delegates and Guests,

The Organizing Committee warmly welcomes our distinguished delegates and guests to 2012 2nd International Conference on Advanced Material Research (ICAMR 2012) held during January 7-8, 2012 in Chengdu, China.

ICAMR 2012 is sponsored by Singapore Institute of Electronics (SIE) and Science & Engineering Institute (SCIEI). The conferences together report the results of research efforts in a broad range of Material Science. These conferences are aimed at discussing with all of you the wide range of problems encountered in present and future high technologies. The ICAMR 2012 is organized to gather members of our international community scientists so that researchers around the world can present their leading-edge work, expanding our community's knowledge and insight into the significant challenges currently being addressed in that research. The conference Program Committee is itself quite diverse and truly international, with membership from the Americas, Europe, Asia, Africa and Oceania.

This proceeding records the fully refereed papers presented at the conference. The main conference themes and tracks are Material Science. The main goal of these events is to provide international scientific forums for exchange of new ideas in a number of fields that interact in-depth through discussions with their peers from around the world. Both inward research; core areas of Material Science and outward research; multi-disciplinary, inter-disciplinary, and applications will be covered during these events.

The conference has solicited and gathered technical research submissions related to all aspects of major conference themes and tracks. All the submitted papers in the proceeding have been peer reviewed by the reviewers drawn from the scientific committee, external reviewers and editorial board depending on the subject matter of the paper. Reviewing and initial selection were undertaken electronically. After the rigorous peer-review process, the submitted papers were selected on the basis of originality, significance, and clarity for the purpose of the conference. The selected papers and additional late-breaking contributions to be presented as lectures will make an exciting technical program. The conference program is extremely rich, featuring high-impact presentations.

The high quality of the program – guaranteed by the presence of an unparalleled number of internationally recognized top experts – can be assessed when reading the contents of the program. The conference will therefore be a unique event, where attendees will be able to appreciate the latest results in their field of expertise, and to acquire additional knowledge in other fields. The program has been structured to favor interactions among attendees coming from many diverse horizons, scientifically, geographically, from academia and from industry. Included in this will to favor interactions are social events at prestigious sites.

We would like to thank the program chairs, organization staff, and the members of the program committee for their work. Thanks also go to Editors from TTP Press, for their wonderful editorial service to this proceeding.

We are grateful to all those who have contributed to the success of ICAMR 2012. We hope that all participants and other interested readers benefit scientifically from the proceedings and also find it stimulating in the process. Finally, we would like to wish you success in your technical presentations and social networking.

We hope you have a unique, rewarding and enjoyable week at ICAMR 2012 in Chengdu of China. With our warmest regards,

ICAMR 2012 Organizing Committees  
January 7-8, 2012  
Chengdu, China

# Organizing Committees

## Honorary Chairs

Prof. Houssain Kettani, Polytechnic University Puerto Rico, USA  
IEEE Fellow, Prof. Chin-Chen Chang, Feng Chia University, Taiwan  
Prof. Sarat Kumar Patra (HOD), National Institute of Technology, Rourkela, India

## Organizing Co-Chairs

Prof. S.R.Bhadra Chaudhuri, Bengal Engineering & Science University, India  
Dr. Luo Zhenfei, University of Electronics Science and Technology of China, China  
Prof. K.S. Aithal, Manipal University, India  
Dr. Wen Desheng, Sichuan Computer Federation, China

## Program Committee Chairs

Prof. Adrian Olaru, University Politehnica of Bucharest, Bucharest, Romania  
Prof. Raja Suzana Raja Kasim, Universiti Teknologi MARA, Malaysia  
Prof. Christos Grecos, University of West of Scotland, UK  
Dr. Yucong Duan, University of Bourgogne, France

## Publicity Co-Chairs

Prof. Safaa S. Mahmoud, Ain Shams University, Egypt

## Publication Chair

Dr. Sophie Zeng, Singapore Institute of Electronics, Singapore

## Sponsor

Singapore Institute of Electronics (SIE) and Science & Engineering Institute (SCIEI)
