Preface

Inaugural Talk

Concepts and Physical Phenomena in Magnetic Shape Memory Science

V.A. Chernenko

3

I. Sample Preparation

Development of Ni-Mn-Ga Based Ferromagnetic Shape Memory Alloy by Rapid Solidification Technique

A. Mitra and A.K. Panda

17

Magneto-Mechanical Behaviour of Textured Polycrystals of NiMnGa Ferromagnetic Shape Memory Alloys

S. Roth, U. Gaitzsch, M. Pötschke and L. Schultz

29

Magnetization and Domain Patterns in Martensitic NiMnGa Films on Si(100) Wafer

V.A. Chernenko, R. López Antón, S. Besseghini, J.M. Barandiarán, M. Ohtsuka, A. Gambardella and P. Müllner

35

II. Thermal Treatments and Phase Stability

Intermartensitic Transformations in Ni-Mn-Ga Alloys: A General View

C. Seguí, E. Cesari and J. Pons

47

Martensite Transformation and Magnetic Property Dependence on the Annealing Temperature in Ni-Rich Ni-Mn-Ga Alloy

R.K. Singh and R. Gopalan

57

Influence of Annealing Temperature on the Properties of Co-Ni-Ga Ferromagnetic Shape Memory Alloy

S. Sarma and A. Srinivasan

63

Textural Ordering in NiTi, Ni-Fe-Ti, and Ni-Mn-Ga Shape Memory Alloys - Kinetics of Intra- and Inter-Domain Processes

A.M. Awasthi, S. Bhardwaj, S. Banik and S.R. Barman

69

Effect of Site Disorder on Martensitic Transformation in Ferromagnetic Ni₅₅Fe₂₀Al₂₅ Alloy as Inferred from Magnetic and Magneto-Transport Measurements

A.C. Abhyankar, B.A. D'Santhoshini, S.N. Kaul and A.K. Nigam

77

III. Magnetic and Structural Characterization

Acoustic Energy Absorption in Ferromagnetic Ni-Mn-Ga Shape Memory Alloy Polymer Composites

M. Mahendran, J. Feuchtwanger and R.C. O'Handley

87

Co-Ni-Ga Alloys with Room Temperature Ferromagnetic Martensite Phase

A. Srinivasan and S. Sarma

95

Structural Characterization of Co_{70-x}Ni_xGa₃₀ Ferromagnetic Shape Memory Alloys

S. Sarma and A. Srinivasan

103

Structural Studies on Mn Excess and Ga Deficient Ni-Mn-Ga

S. Banik, P.K. Mukhopadhyay, A.M. Awasthi and S.R. Barman

109

Mapping of Magnetic Domains by MFM in Ni₂MnGa

D. Jain, S. Banik, L.S. Sharath Chandra, S.R. Barman, R. Nath and V. Ganesan

115

Transformation Behavior of Ni-Mn-Ga Ferromagnetic Shape Memory Alloy K. Pushpanathan, R. Senthur Pandi, R. Chokkalingam and M. Mahendran	121
Effect of Stress Relaxation on Quenched NiFeAl Ferromagnetic Shape Memory Alloy R.B. Kanth, P.K. Mukhopadhyay and S.N. Kaul	129
Lattice Thermal Expansion of the Shape Memory Alloys Cu-Al-Ni, Cu-Al-Zn, Cu-Al-Be and Cu-Al-Pd S. Potharay Kuruvilla and C.S. Menon	135

IV. Microscopic Studies of Magnetic Shape Memory Alloys

Magnetic Compton Scattering Study of Shape Memory Alloys B.L. Ahuja, V. Sharma and Y. Sakurai	145
Hybridization Effects in Ni-Mn Based Shape Memory Alloys: XAFS Study K.R. Priolkar, P.A. Bhobe and P.R. Sarode	155
Electronic and Structural Properties of Ferromagnetic Shape Memory Alloys Studied by Density Functional Theory A. Chakrabarti and S.R. Barman	165
Signature of Austenitic to Martensitic Phase Transition in Ni₂MnGa in Mn and Ni K-Edge XANES Spectra V.G. Sathe, S. Banik, A. Dubey, S.R. Barman, A.M. Awasthi and L. Olivi	175
A Charge Compton Profile Study of Ni₂MnGa: Theory and Experiment G. Ahmed, B.L. Ahuja, N.L. Heda, V. Sharma, A. Rathor, B.K. Sharma, M. Itou, Y. Sakurai and S. Banik	181

V. Effects of External Fields

Effect of External Fields on the Martensitic Transformation in Ni-Mn Based Heusler Alloys X. Moya, L. Mañosa, A. Planes, S. Aksoy, M. Acet, E.F. Wassermann and T. Krenke	189
Effect of Magnetic Field on Martensite to Intermediate Phase Transformation in Ni₂MnGa T. Fukuda and T. Kakeshita	199

VI. Coupled Effects: Magnetoresistance and Magnetocaloric Effects

Magneto-Transport and Magnetic Properties of Ni-Mn-Ga S. Banik, R. Rawat, P.K. Mukhopadhyay, B.L. Ahuja, A. Chakrabarti and S.R. Barman	207
Magnetic Investigations on Ni-Mn-Sn Ferromagnetic Shape Memory Alloy S. Chatterjee, S. Giri, S.K. De and S. Majumdar	215
Magnetocaloric and Shape-Memory Properties in Magnetic Heusler Alloys A. Planes, L. Mañosa, X. Moya, J. Marcos, M. Acet, T. Krenke, S. Aksoy and E.F. Wassermann	221
