

Preface

The present book includes a set of accepted and selected papers from the 2013 International Conference on Applied Science, Engineering and Technology (ICASET2013), which is to be held in Qingdao, in May 2013. ICASET2013 is a comprehensive conference, and it is an integrated conference concentrating its focus upon Material Science, Chemistry and Chemical Engineering, Information Technology, Computer Science, Electronic Engineering and Engineering Management, et. al. In this book, you can learn much more knowledge about Applied Science, Engineering and Technology of researchers all around the world. The main role of the proceeding is to be used as an exchange pillar for researchers who are working in the mentioned fields.

All papers included in this book have been peer reviewed through processes administered by the scientific committee before accepted for publication. These papers recorded valuable explorations of the authors in relative fields of Microelectronics and Materials, Applied Chemistry and Chemical Engineering, Information Technology, Computer Engineering and Network Technology, Environmental Science and Management Engineering.

Here, we would like to show our first sincere thanks to all the invited keynote speakers who took the time to contribute with a paper to this book. Secondly, all members of conference committee and reviewers should also be appreciated for their hard work. Thirdly, the authors should be thanked too for their enthusiastic writing attitudes toward their papers. Fourthly, in the ICASET2013 preparation, Qingdao Science Culture Communication Co., Ltd provided professional services, and will continuously give support in the conference services. At last, on behalf of the conference organizing committee, we would like to appreciate Mr. Thomas Wohlbier, Ms. Anne Wohlbier and Trans Tech Publications for their kind and enthusiastic help and support for our conference. Thank you all.

The editors.
