

Preface

The International Conference on Energy and Environmental Protection provides a forum for accessing to the most up-to-date and authoritative knowledge from both industrial and academic worlds, sharing best practice in this exciting field. The first ICEEP was successfully taken place in Hohhot during the period 23-24 June, 2012. Following the success of the inaugural conference, the 2nd ICEEP was held in Guilin, from 19 to 21 April 2013, organized by Inner Mongolia University and co-organized by Key Laboratory of Environmental Biotechnology, Research Center for Eco-Environmental Sciences, Chinese Academy of Sciences. The ICEEP2013 was organized in four simultaneous tracks: “Applied Energy Technology”, “Advances in Environmental Technologies”, “Power and Electrical Engineering” and “Resources and Sustainable Development”.

The present volumes contain the selected papers from many submissions for this conference and provide up-to-date, comprehensive and worldwide state-of-the art knowledge in this field. All papers included in this collection had undergone the careful peer-review by the experts of international and domestic of China before it is selected for publications. Studies presented in this book cover these topics: Engineering Thermophysics, Applied Thermal Engineering, Power Machinery and Engineering, Fluid Engineering and Machinery, HVAC, Air Conditioning and Refrigeration, Power System and Automation, High Voltage and Insulation Technology, Motor and Electrical, Electrical Engineering Principles and Applications, Power Electronics and Power Drives, Smart Grid Technologies, Power System Management etc.

We would like to take this opportunity to thank many people. First and foremost we want to express my deep appreciation to invited keynote speakers, invited session chairs, invited session organizers and reviewers for their efforts and kind help in this congress. Final thanks go to all authors and participants at ICEEP2013 for helping to make it a productive and interactive meeting.
