

Table of Contents

Preface

Chapter 1: Advanced Material Technologies and Machining

Experimental Study on Milling Force of Nickel-Based High-Temperature Alloy GH3039 Y.B. Liu and C. Zhao	3
Non-Destructive Testing of Polycrystalline Silicon Solar Panel by Scan Acoustic Microscopy Z.Y. Xu, S.Y. Gao, J. Huang and Y. Wang	9
Process Experimental Research of Micro-Hole in Electrochemical Micromachining by Nanosecond Pulse Current Z.Y. Li, H.L. Liu and Z.P. Duan	15
Study about Formation Mechanism of Red Spark Discharge of Micro-Arc Oxidation M.Q. Pan, Y.J. Wang, T. Chen, J.Z. Liu, L.G. Chen and S.C. Di	21
By External Forces Based on the Equivalent Moment Method for the Installation of an Electronic Radar Rod Deflection J.D. Cao, Y.F. Wen and D.D. Qiao	27
Grinding Technology for Engineering Ceramics - A Review J.X. Xue, L.L. An and Q.P. Sun	31

Chapter 2: Tribological Materials Properties, Friction, Wear and Strength

A Study on the Structure and Properties of Metal Framework Steering Wheel Coated with Polyurethane Y.H. Cao and X.G. Fu	39
Fabrication and Fracture Analyses of SiC Particulate-Reinforced Al Matrix Composites D.S. Li, X.L. Zhou, A.H. Zou, X.Z. Hua and Y.W. Yu	43
Microstructure and Properties of Laser Cladding Co-Based Alloy Layer X.R. Zhao, D.W. Zuo, H. Cheng, Q.T. Li, S. Dai and S.S. Feng	47
Study on Friction and Wear of Several Metal Materials under Oil Lubrication Z.B. Guo and S.L. Gao	55
The Evaluation of Tool Wears in Machining of SiCp/Al Composites Y.J. Wang, T. Chen, M.Q. Pan, J.Z. Liu, L.G. Chen and L.N. Sun	61
Tribological Properties of Ceramics Tool Materials in Contact with Wood-Based Materials X.L. Guo, P.X. Cao, H.N. Liu, Y. Teng, Y. Guo and H. Wang	65
A New Technology of Aircraft Structural Health Monitoring X.H. Lu and H.F. Zuo	71
Crowned Profile Design of Roller Bearings Used in Rolling Mill Based on Three Dimension FEA Y.G. Wei, H.T. Li and Y.T. Wang	75

Chapter 3: Advanced Manufacturing Technologies and Equipment, Mechanical Engineering

Preliminary Study on the Effect of Mass-Induced Damping on Machining Delicate Workpiece Geometry A. Kamaruddin, W.C. Pan, S.L. Ding and J. Mo	83
Research and Development on the Query Systems of NC Machining Process J. Huang and J.X. Shen	91
Research on the Process of Numerical Control Electrochemical Turning Based on Finite Element Method X.Q. Fu, J.Y. Xian, M. Kang and M.H. Xiao	95

Simulation Design of a Novel Algorithm on Space Vector PWM H. Ji and Z.Y. Li	103
The Control of Bearing Pre-Tightening Force on the Guide of High Speed Punch Press M.H. Xiao, J. Sheng, Z. Xiao and T.Y. Wang	109
The Study of Biomass Briquetting Machine Die Hole's Effect on Stress State Z.X. Gu and K.H. Xu	113
Dynamic Analysis of Belt Conveyor Based on ADAMS and PRO/E G.L. Zhou and R.F. Han	119
Based on the Gear Drive Parameters Database System Research and Implementation C.X. Hu	125
Finite Element Analysis of Bending Stress in the Meshing Process for Internal Gear Pairs with few Teeth Difference Y.G. Wei, C.X. Gu and X.J. Zhang	129
Mathematical Modeling of Chip Control during Chip Breaking D.L. Wang	135
Study on Hybrid Electric Vehicle Noise and Vibration Reduction Technology L.Y. Liao, Y.Y. Zuo and X.H. Liao	141
Study on Intelligent Controller of Permanent Magnet Synchronous Motor H. Ji and Z.Y. Li	149
The Analysis of Materials Flow and the Environmental Protection Use of Materials Based on the Strategy of Manufacturing Industrial Cluster H. Zhou and R.Q. Li	155
The Application of Image Recognition Based on BP Neural Networks in Automatic Steel Rolling W. Jiang	161
Analysis of Mechanophysical Properties of <i>Fritillaria ussuriensis</i> Maxim and Designing of Grade Sieve Machine J. Song, S.Z. Lu, L.H. Liu, M. Wang and T.X. Liu	165
Study on Building Model and the Dynamic Characteristics Based on Hydraulic Circuit of Throttle Governing System S.G. Hu	169
Research of the Cylinder Wire Front Angle of Cotton Combing Frame X.R. Li, X.M. Jiang, J.C. Yang, X.W. Wang and Y.H. Du	175
Study on the Chaos Phenomenon of the DC-DC Buck Switching Power Supply X.L. Duan	181

Chapter 4: Product Design

The Redevelopment of Prototype System of Industrial Product Forms Based on Rhino Z. Gao, X.M. Ji and J. Zhang	187
User-Friendly Design of Modern Forest Fire Helmet B. Li, H.Z. Yang, Y.N. Wu and B. Li	193
Design of a Series of Cylindrical Helical Torsion Springs Based on Similar Design Theory X.P. Li	199
