

Table of Contents

Preface, Committee and Sponsors

Chapter 1: Materials and Mechanical Engineering, Applied Mechanics

Experimental Study on the Solidification of MSWI Fly Ash F.Y. Yang	3
Analyses of Nugget and Expulsion Formation Process during Resistance Spot Welding between Aluminum Alloy and Steel N.N. Wang, R.F. Qiu, F.F. Liu, M. Zhang and Q.Q. Xuan	7
Research and Development of High Grade Gear Steel SCM420H for Automobile C. Fang, J.H. Shi and L. Zhu	11
Study on Hydraulic Characteristics of Opposite Folded Plate Reactor P. Tao, T.H. Song and F. Zhang	15
Reconstruction of Key Parameters of Marine Supercharged Boiler Based on PLS-SVM F. Song, G. Cheng, F.R. Sun and G.Q. Zhu	19
Research on Optimization Method of Extreme Learning Machine with Application of Information Technology Z.F. Zhang, C. Gan, X.J. Ding and Z.Y. Cai	23
Numerical Study of Vertical Axis Wind Turbine Rotor Configuration Y. Mei, J.J. Qu and X.Y. Liu	28
Parameter Analysis and Shaking Table Test Based on Mechanics Analysis in Seismic Isolation System of Transformer with Bushings M.G. Cao and J. Mo	33
Seismic Displacement Design Method Comparison between Chinese, American, European and Japanese Seismic Design Codes G.M. Zhang, W.F. Liu and Z.H. Chen	43
Computational Fluid Dynamics Simulation Optimization Research Based on Hydraulic Torque Converter S.L. Wang and W.X. Ma	48
Experimental Study on Workability and Strength of Green High Performance Concrete with High Volume Fly Ash Y.Q. Ma	52
Experimental Study on Mechanical Properties of Steel Fiber Reinforced High Performance Concrete Y.Q. Ma	56
Calculation Methods of CFRP Tendons Stress in Two-Span Prestressed Continuous Beams C.X. Bai, X.Y. Shao and Q.P. Wang	60
Research on the Wear Resistance of High-Chromium White Cast Iron and Multi-Component White Cast Iron C.L. Yen, F.J. Chen and Y.N. Pan	64
Research on the Shear Strength of High-Strength Concrete Beams with Web Bars by Concentrated Load Q.Y. Shi and L.L. Liu	70
Numerical Solution of Vehicle-Bridge Coupling Vibration Z.P. Wen	76
Research on Shaking Force with Ground-Roll Suppression Based on Fast Discrete Curvelet Transform J. Zhang, K.B. Ji, K.Q. Pang, B. Yang, Y. Tian and F.Y. Qin	80

Chapter 2: Construction, Civil, Building Engineering and Geology Science

The Study on Used Properties of Mine Tailings Sand G. Li, Y.J. Chen and H. Di	87
Finite Element Analysis of the Subsidence of Cap Rocks during Underground Coal Gasification Process X.X. Zha, H.Y. Wang and S.S. Cheng	91
Seismic Performance of Reinforced Concrete Rectangular Hollow Bridge Piers Y. Zhao, H.Y. Jiang, J. Gu and R.Q. Wang	95
Optimal Design of Double Sheet Piles in Deep Foundation Pit Based on UD-SVM Z.H. Yu, Y. Gui, Z.C. Wang and Y.J. Hou	100
FE Modeling of Elliptical Concrete-Filled Steel Tubular Members Subjected to Pure Bending X. Zhao, X.K. Li, Q.X. Ren, T. Cheng and X.L. Long	105
Interface Structure of EPS and Pores Effect on Properties of EPS Lightweight Concrete X.S. Zhang	109
Measured Data Processing in Civil Structure Using the DOProC Method R. Čajka and M. Krejsa	114
Research on Tensile Bearing Capacity of Self-Drilling Screw Joints for Thick Faced Roof Sandwich Panels X.X. Zha and Z.R. Tang	122
Study on the Static and Dynamic Load Test of Skew Bridge H.B. Han, L. Wang, Z. Li and X.H. Long	127
Research on Monitoring and Control for Suspender Cable Tension of Half-Through Concrete Filled Steel Tube Arch Bridge F.L. Zhao, Y.Q. Xiang and Q.Q. Wu	131
Study on the Load Test of Variable Cross-Section Box Girder Bridge X.H. Long, J.J. Su, L. Wang, H.B. Han and Y.L. Sun	135
Acoustic Detection on Analysis of Rock Mass Integrality Z. Li, H.B. Han, Y.F. Zheng and M. Li	139
The Mechanical Mechanism Analysis for Mortar Arch Framework Slope Protection Structure Y. Xu, D.L. Li, L. Peng, Y. Xiao and Y.H. Nie	143
Study on the Static Load Test of Bridge Inspection F. Liu and X.H. He	149
Analysis of Influence to Primary Support Forces by Stress Release in Loess Tunnel Z.M. Su	153
Plastic Analysis on Buckling Restrained Braced Steel Frame X. Zou, J. Zhao, E.H. Bao and Y.H. Chen	157
Modal Parameter Identification of Civil Engineering Structures under Seismic Excitations Q. Pei and L. Li	163
Structural Modal Parameter Identification Based on Natural Excitation Technique Q. Pei and L. Li	167
The Regression Prediction Analysis of Grouting Concretion Stone's Strength Based on SVR J.S. Lei, J.F. Chen, X.T. Cao and Q.F. Wang	171
The Test of Dynamic Characteristics of Concrete under Biaxial Compression State J.S. Lei, F. Liu, G. Peng and M. Lei	177
Analysis of the Tunnel Disease Considering the Unsaturated Loess Matric Suction Effects X.H. Xue, Z.M. Su, Z.J. Sun and F. Song	182
A Discussion on Numerical Simulation of Axial Reinforcements in RC and RCFT Columns A. Xiamuxi, A. Tuohuti and A. Hasegawa	186
Classification Model for Estimating Demolition Waste Generation Considering Structure Types and Wall Material of Detached House by ANOVA Analysis G.W. Cha and W.H. Hong	191
Research on Civil Engineering with Constructing Eco-Village Development Model in Shaanxi Province Q. Song and Y. Yang	196
Research on Civil Engineering with Ecological Impact Assessment of Construction Activities Y.M. Liu	200

Study Progress on Modern Green High Performance Concrete at Domestic and Foreign Z.Y. Fu and M.L. Huang	207
Study on Civil Engineering with the Comparison and Inspiration of Domestic and Foreign City Underground Space Development X.L. Dong, R.H. Wang and Z.X. Yuan	213
Application of Dynamic Load Test in the Bridge Detection T.M. Miao and Y. Zhou	218
The Stability Control of Soft Soil Foundations of Urban Roads According to the Surface Subsidence Monitoring Data H.J. Liu, J.H. Tan, X.W. Su and H. Wu	222
Study on Internal Force Effect of a High-Speed Rail (40+56+40) m Prestressed Concrete Continuous Beam Bridge Y.M. Zhao	228
The Influence of Ratio of Reinforcement to Modulus of Elasticity of Reinforce Concrete Component T.J. Qu and R.H. Xu	233
The Application and Development of Ultra-High-Performance Concrete in Bridge Engineering L.J. Jia, H.B. Hui, Q.H. Yu and Y. Song	238
Comparison Analysis of GFRP Anchor Pile Performance in Expansive Soil Foundation X.J. Liu	243
Reservoir Volume Estimation in Exploration Phase by Monte Carlo Simulation L. Zhao, B. Li and P.X. Diwu	248
Modal Analysis on Steel Frame-Energy Dissipation Support Structure S. Dong, C.W. Huang and C. Shen	253
A Numerical Infiltration Model in Civil Engineering and its Comparison with Geo-Seep Software D.F. Tian and X.Y. Ling	257
Research on Pedestrian Crossing Characteristics and Crossing Facilities of University's Passageway Y. Cao, Z.Y. Zuo and H.Z. Xu	261
Study on the Optimal Design of the Members of Container Building with Building Materials II: Joint and Corner Column Optimization X.X. Zha, Y. Zuo and S.Y. Chen	266
Study on the Optimal Design of the Members of Container Building with Building Materials I: Side Board Optimization X.X. Zha, Y. Zuo and S.Y. Chen	270
Analysis on Energy Conservation Materials' Influence on Energy Saving Construction Cost H.L. Wang and Y. Li	274
The Study of Classification Analysis on Oil Exploration Research Trends and Digging Technology Based on Properties of Biochemical Materials (2012-2013) S.H. Wu and J.J. Guo	280
Study on Application of Monte Carlo Simulation in Construction Schedule Management Y. Liu and Y. Li	284
An Urgent Slope Reinforcement for a Power Transmission Tower Foundation J.S. Lin	289
Influence Analysis of Ground Asymmetric Load to Existing Open Trench Tunnel Based on Soil Arching Effect Q.X. Pu, J. Cao, S.S. Zeng and H.M. Liu	293
Study on Synchronized Grouting Pressure to Segments of Shallow EPB Shield Tunnel H.X. Yang, J. Cao, B. Liang, Z.D. Ding and H.M. Zhao	298
The Experimental Study on Internal Force Redistribution of High Strength Steel-High Strength Concrete Continuous Composite Beam Q.Y. Shi and Q.W. Meng	304
Theoretical and Experimental Research on Load Transfer of Anchorage Stress in Soil Anchor J. Cao, X.Y. Wang, H.X. Zuo, H.M. Liu and W.W. Zheng	309
Application of SVM to Reliability Analysis of Foundation Excavations System J. Cao, C.N. Sun and H.M. Liu	315

Experimental Study on Corrosion of Red Clay-Cemented Soil Composite Mass Cured Three Days under Fulvic Acid	
J. Cao, Z.X. Yu, H.M. Liu, Z.G. Song and H.M. Zhao	322

Chapter 3: Chemistry and Environmental Technologies

Similar and Different: Effect of Substitution Pattern on the Aggregation-Induced Emission Property of [4'-(bisphenylamino)[1,1']biphenyl]methylene Fluorenes	
Z. Chen, Y.L. Xie, J.X. Qiu and Z.H. Chen	329
Preparation and Characterization of La-B Co-Doped TiO₂ Photocatalyst	
H.C. Chen and X.B. Pei	333
Microwave-Assisted Anomeric Deacetylation of Ribofuranoses with Fe(III) Reagents	
Q. Wang, G.D. Liu, S.S. Gong and Q. Sun	337
The Influencing Research for Acid Pollution to Laterite Intensity	
K.S. Jin, Y. Huang and X.N. Chen	341
A Stereoselective Synthesis of 3α-Cholesterylamine	
X.C. Li, S.S. Gong and Q. Sun	345
An Efficient Synthesis of an AKT Inhibitor-IV Analog Labeled with Biotin	
Z.B. Xie, S.S. Gong and Q. Sun	349
A Practical Synthesis of 4-Azaindole	
S.S. Gong and Q. Sun	353
Removal of Nonylphenol from Water by Ozone	
X.D. Wang, Y. Lv, M.M. Li and H.Y. Liu	357
Degradation of Phenol by Fe³⁺ Doped Nano-TiO₂ Photocatalyst	
J. Wang, D.S. Huang, W. Liu, Q.S. Pan and Y. Min	361
Study on Effects of ZrO₂ on High-Resistance Performance of the Silicone Coating	
L. Bai and X.Q. Wu	365
Experimental Study on High Salt Acid Pretreatment of Refinery Wastewater	
M. Tao and T.T. Kang	369
A Review of Data Mining Method and Energy Material Property in Optimizing Thermal Power System	
F. Song, G. Cheng, F.R. Sun and D.L. Li	373

Chapter 4: Applied Technology and Information System

Study on Applied Technology with Soft Measurement for Lance Position Based on MLR and PCR	
K.F. Wen, Y.D. Liao, L.H. Feng and Q.H. Shen	379
Research on Applied Technology by Discovery of Test Configuration Models Based on TTCN-3 Testing Systems	
Y.P. Liu, S.M. Liu, X.M. Liu and J.G. Han	384
Research on Applied Technology and Information Technology in News Publishing and Dissemination Based on Information Age	
F.L. Sun	391
New Tabu Search Algorithm with Applied Technology for Capacitated Vehicle Routing Problem	
C.Y. Ren	395
Study on Information Mining Technology with Empirical Research on China's Securities Market Transactions' Random Walk	
T.T. Sun and W.L. Xia	399
Applied Technology in Analysis of Status Quo of Academic Theses Duplicate Checking of China and the Treatment Countermeasures	
K.G. Zhu and J.L. Teng	405
On Web Applied Technology with NTP-Based Synchronous Interaction of Bilingual Teaching in Higher Education	
W.J. Li, P.X. Li and H.M. Mi	410

Research on Web Application Technology in Distance Education Personalized Recommendation System Z.F. Qiao, J.X. Guo and J.C. Zhao	416
Applied Technology in Business Credit in the Enterprise's Short-Term Finance S.Q. Lei	422
The Control System of Automated Stereoscopic Warehouse with Application of Web Information Technology J.H. Wu, Q. Zhou, H.P. Si, J. Chen, K.Y. Lin and C.B. Zhang	426
Cloud Computing Technology in Arts Integrated Experiment Teaching Resource Management M.F. Chen, L.H. Huang and Y. Li	432
Applied Technology in a Composite and Definable SaaS Billing Mechanism Supporting Optimized Utilization of Resource H.Y. Yu and D.S. Wang	438
Applied Technology in the Information Management System for the Degree of Master of Arts Education in China Q. Huang	444
Applied Technology on Artificial Neural Network in Fault Diagnosis System Q. Zhu and J. Li	448
Information Technology Application in the Characteristic of the Pure Phase Distribution of the Fresnel Diffraction of a Grating H.S. Wang	453
Applied Technology Based on NS2 the Research of Transmission of Video Streams in 802.11 Network S.R. Liu and Z.Y. Cai	457
Applied Technology in Robust Optimization Model for Airport Flow Allocation S.W. Yang and Y.J. Yan	463
A Study on Applied Technology in Safety and Protection of the Android OS B. Peng and G.Z. Li	468
Research on Applied Technology with the Characteristic of the Spatial Fresnel Diffraction Field of a Circle Aperture Illuminated by a Hyperbolic Secant Optical Pulse H.S. Wang	473
Research of Classification Retrieval Technology in Remote Video Communication Network Y. Wang and C.H. Yang	477
Research on Information Technology with Moving Object Segmentation Based on Memory Matrix and Kalman Filter C.C. Zhou and X.R. Li	482
Applied Technology on Improving the Order Picking Efficiency in the Area of EC of China Post Logistics Based on ACO W. Xu, C.Y. Shi, H.T. Song and Y.X. Chen	486
The Application of Cloud Computing Technology with Application of Network Data in Distance Education F.P. Guo	492
Research on Applied Technology in Human Action Recognition Based on Skeleton Information Z.Q. Wei, J.A. Wu and X. Wang	498
Applied Technology in the Performance of University Computer Labs G.X. Ya, X. Deng, K.Y. Zheng and X.X. Shen	503
Applied Technology in Design of Random Human Information Interactive System Based on Android D.W. Jin and G.H. Zhang	507
Applied Technology and Evaluation on Emergency Management Capability of Coal Mine Accidents Based on AHP and the Fuzzy Comprehensive Evaluation Method J.J. Wan and Y.H. Song	511
Comparison on Applied Technology in Web Application in Chinese and American Education W. Jun	515
A Brief Study on Web Application Technology in Autonomous Learning of Learners C.M. Wu	523

Information Technology in E-Commerce Capabilities and Firm Performance: Based on Resource-Based View Y. Hu and X.W. Liu	527
Applied Technology in the Grid Workflow Quality of Service Calculation and Estimation Y.H. Liu	531
Applied Technology in Design of Smart Terminal for New Energy Micro Grid of Island L. Ma, Y.G. Peng and W. Wei	537
The Electronic Transports Technology in a T-Shaped Double Quantum Dot A.M. Wang	542
E-Commerce with Applied Technology Leading College Students Online Entrepreneurship X.M. Shang and Y.L. Zheng	547
Information Technology in the E-Commerce Marketing Strategy of OAWAY Website W.R. Jiang and S.W. Lin	551
Study on Influence of Information Technology on Reform Practice of Public Hospitals in China Q.R. He and X.D. Xu	556
Research of Real Estate Appraisal Based on GIS Technology J.P. Yang and Q. Bai	562
Development of Mobile E-Commerce Based on 3G Mobile and RFID Technology S.Q. Zhang, T.S. Huang and Z.Q. Zhang	566
Study on Information Technology with MADS — A New Data Clustering Algorithm Based on Ant Colony Optimization Y.L. Liu	572
Information Technology in an Improved Quantum Genetic Algorithm Based on Dynamic Adjustment of Quantum Rotation Angle H.X. Li, Y.C. Xue, J.Q. Zhang and Q.W. Yang	577
Design and Implementation of the Safety Monitoring System with Information Technology for Pork Product Y. Feng, Z.Y. Cai, Y. Gan and S.R. Liu	582
Research on Information Technology with Detecting the Fraudulent Clicks Using Classification Method J.H. Yan and W.R. Jiang	586
Comparison Studies on Prediction Methods of Network Information System Survivability Situation C.L. Zhao and Z.H. Yu	591
The Optimal Information Rates of the Graph Access Structures on Seven Participants Z.H. Li, Y. Song and Y.M. Li	596
Interaction Motivation Driven Virtual Human Emotion Modeling in Computer Engineering and Application N. Xiang and L.L. Yang	602
Application of Information Technology for Government Role in Rural E-Commerce Development — From the Perspective of Basic Public Services B.G. Hong	608
Influence of Web Application Technology on the Public Hospital Reform in China Q.R. He and M.H. Xian	613
