

Table of Contents

Preface

Committee

Analysis on the Hydroplaning of Aircraft Tire

Y.S. Wang, J. Wu and B.L. Su

1

Dynamic Compressive Response and Failure Behavior of Basalt Fibers Polymer Functional Composites Embedded with ZnO Whiskers

W. Zhou, L.J. Wen, X.X. Zhang, X. Wang, J.L. Rong and H.B. Jin

7

Preparation and Controlled-Release Analysis of Ethyl Cellulose – Moxa Leaf Powder Solution Microcapsules

Y. Zhang, L. Li, W.M. Au, Z.M. Yang, G.R. He, S.X. Deng, Z.H. Yang, J.W.Y. Chung and T.K.S. Wong

11

Numerical Simulation of Temperature Field in Barrel of Injection Molding Machine during Induction Heating Process Based on ANSYS Software

S.J. Chang, P.C. Xie, X.T. He and W.M. Yang

16

Adsorption Properties of Chemical Crosslinked Polymer Gel

X.Y. Hu and Y.B. Chen

22

Investigation of Performance Advantages of Internal Circulation Two-Platen Injection Molding Machine

Z.W. Jiao, P.C. Xie, Z.Y. Yan, W.M. Yang and X.T. Wang

27

Visual Experiment Study on the Influence of Mold Structure Design on Injection Molding Product's Defects

P.C. Xie, B. Du, Z.Y. Yan, Y.M. Ding and W.M. Yang

31

Synthesis and Characterization of Novel Amphiphilic Fluorinated Triblock Copolymer

X.D. Tang, N.F. Han and D.J. Zhou

36

Interaction of Polymer and Solvent in Chemical Crosslinked Polymer Gel

X.Y. Hu and Y.B. Chen

41

Synthesis and Property of Photo- and Temperature- Dual-Responsive Amphiphilic Block Copolymers

X.D. Tang, N.F. Han and D.J. Zhou

47

Research on High-Powered Brazing Diamond Saw for Cutting Vehicle Tyre

B.J. Ma and Z.A. Xu

52

Research on Tribological Properties of Micro-Vehicle Clutch's Friction Material

J.C. Lv, Y.M. Mo and L.N. Pan

58

Experimental Study on Mold Separations of Plastic Injection Molding Machines with Different Clamping Units

P.P. Zhang, P.C. Xie, D. Hua and W.M. Yang

64

The Melting and Recrystallization Behavior of Poly(ethylene Terephthalate)/SiO₂ Nanocomposites Studied by Step-Scan DSC

C. Liu, K. Zheng, X.Y. Yao, X. Zhang, X.L. Liu, R.X. Wang and X.Y. Tian

69

Preparation of Polysulfone Membranes Using Ionic Liquid [C₁₆mim][SCN] as a Pore-Former and Plasticizer

Y.M. Zhao, X.L. Hu, J.Y. Yu and P. Guan

74

Synthesis and Properties of Molecularly Imprinted Composite Membranes of Roxithromycin

J.Y. Yu, X.L. Hu, C.C. Jiao, Y.M. Zhao and W.W. Yang

80

Thermal Conductivity of Nature Rubber Filled with Carbon Black

Y. He, H.T. Li and L.X. Ma

86

Influence of Mineral Admixtures on the Performance of Polymer Modified Porous Concrete

F. Xu, M.K. Zhou, W.G. Shen and B.X. Li

92

Carbon Nanofibers from Pyrolysis Flame and Research on the Affecting Factors

Y.C. Liu, B.M. Sun, T.K. Shan and Z.Y. Ding

98

Carbon Nanotubes Preparation Using Carbon Monoxide from the Pyrolysis Flame

B.M. Sun, Y.C. Liu and Z.Y. Ding

104

Experimental Study on Property of Rubber Composites Filled With Carbon Nanotubes

Z.P. Wang

110

Heat Transfer during Rotational Molding of a Single Axis Device Y.L. He and Y.M. Ding	116
Influences of Preparative Conditions on Properties of Erythromycin-Molecularly Imprinted Membrane P. Guan, X.L. Hu and Y.M. Zhao	119
Research of Microprofile Extrusion H. Wang, Z.H. Fu and D.G. Yao	125
Quantum Chemistry Theoretical Studies on Molecular Structures of Polybutadiene M. Zhang, Z.X. Huang and M.X. Shi	130
Study on Oil Resistance Properties of Flexible PVC/PNBR Blends Y. An, W.M. Yang, Y.M. Ding, Y. Liu and J. Tan	134
Thermal Conductivity and Mechanical Properties of Silicone Rubber Filled with Different Particle Sized SiC Y. He, Z.C. Chen and L.X. Ma	137
Water-Activated Bacterial Cellulose-Based Electrorheological Fluids and Electromechanical Response of Artificial Muscle Based on Electrorheological Fluids and Siloxane Gel N. Xu and D.M. Jia	143
Fatigue Analysis of the New Stirring Kneader Shafts Using ANSYS J.Q. Xu and Z.M. Fan	149
Two New Thermotropic Liquid Crystalline Polyesters and their Composites: Synthesis and Characterization C.J. Zhang, Z.X. Huang, M.X. Shi and M. Zhang	154
Pressure Function Method in Tyre Structure Design J.Z. Wang, D.G. Chang, Z.X. Xin and L. Li	160
Effect of Activated Zinc Oxide on the Property of Sole Rubber T.K. Shan, T. Zhuang and L.L. Zhou	167
Optimum Design of Spindle Used in Tire Building Machine D.G. Chang and X.F. Wang	172
3D Finite Element Simulation of Transient Temperature Field for Rapid Electrical Heating Cycle Injection Mold X.P. Li, G.Q. Zhao and Y.J. Guan	177
The Application of Harmonic Response Analysis in Different-Speed Mixer Design Z.M. Fan, W.G. Sun and J. Xu	183
Comparison of Human Articular Cartilage and Polyvinyl Alcohol Hydrogel as Artificial Cartilage in Microstructure Analysis and Unconfined Compression F. Li, Y.L. Su, D.F. Shi and C.T. Wang	188
Virtual Prototype Design System of Tripod Universal Joints D.G. Chang, F.Q. Yang and H. Chen	194
Research of Thermal Conductivity and Tensile Strength of Carbon Black-Filled Nature Rubber Y. He, Z. Yin, L.X. Ma and J.P. Song	200
The Optimal Design of Oscillating Oil Cylinder Mechanism of Tire Building Machine Z.M. Meng, Y.B. Qiao and Z.M. Fan	206
A New Type Device of Thread Locking Connection of Pillar Flat Vulcanizing Machine Z.M. Meng, Y. Zhang and Y.B. Qiao	211
On-Line PVT Properties of Amorphous Polymers J. Wang, P.C. Xie, Y.M. Ding and W.M. Yang	216
Study on the End-Point Control of Holding Phase during Injection Molding J. Wang, P.C. Xie, Y.M. Ding and W.M. Yang	222
Preparation and Properties of Nano-Hydroxyapatite Modified Nylon Composites L.Y. Zheng, Z.M. Liu and Y.J. Zhao	228
Dispersion Polymerization of Acrylamide and Acrylic Acid in Aqueous Media J. Lu, B. Peng, M.Y. Li and M.Q. Lin	233
Properties of HDPE/UHMWPE Blown Films J.D. Zuo, S.M. Liu and J.Q. Zhao	239

A Study on the Optimization and Application of All Radial Truck Tire Building Process Technology	
Z.H. Li, S.L. Yang, P. Xia, Z.F. Li, Y.Q. Liu and S.Z. Wu	244
Analysis of Melting Process and Numerical Simulation of Pure UHMW-PE Pipe Based on Molding in Barrel Technology	
J.H. Qin, C.H. Liu, W.F. Gao and C.H. Yu	250
Experimental Research on Carbon Black Flowing in Pneumatic Conveying System	
Z.H. Li, Y.Q. Liu, P. Xia and L. Ma	256
Development of Durable Softening and Water-Repellent PP/HDPE Heat-Bondable Composite Fiber	
S.Y. Sun, Q.F. Zhao and Y. Xue	265
Hyperbranched Polymers as Novel Flame Retardant Material	
J. Borah, G.Y. Lin and C.S. Wang	271
Effects of Different Structure Rotors on Mixing Process and Quality of Short Fiber-Rubber Composite Material	
C.S. Wang, D.W. Zhang and H.G. Bian	277
Preparation and Thermal Properties of Phosphorus-Containing Copolyester Nanocomposites with Carbon Nanotube	
Q.F. Zhao, S.Y. Sun, X.W. Jiang, M.H. Qu and Y.Z. Wang	282
Research of Temperature Control System Based on Fuzzy Control Algorithm for Mixer	
C.S. Wang and F.H. Zhou	288
Research on the Curing Behaviour of an Epoxy/nmSiO₂ Nanocomposite System	
C.S. Wang, Y.X. Fu and G.Y. Lin	293
Synthesis of Conducting Polyaniline Using Compound Oxidant	
H. Huang, J.Q. Xu and Z.C. Guo	300
Research on the Key Technology of Precision Injection Molding Equipment for Light Guide Plate	
P.C. Xie, G. Gou, Z.X. Wen, Y.M. Ding and W.M. Yang	306
Investigation of the Structural Change of Doped Polyaniline during Heat Treatment	
H. Huang and Z.C. Guo	311
Experimental Study on Manufacturing Process of Short Fiber-Rubber Composite Material Using New Type Six-Wing Synchronous Rotor	
D.W. Zhang and C.S. Wang	317
Three Dimension Fluid Field of Mixer with Synchronous Rotors	
H.G. Bian, C.W. Fu and D.W. Zhang	323
Research on Mechanical Performance of Roof Tiles Made of Tire Powder and Waste Plastic	
Y. Liu, W.M. Yang and M.F. Hao	329
Prediction of Process-Induced Residual Stress for Laminated Composites with Metallic Plate	
J. Shi, Q. Zeng, X.D. He, R.G. Wang and Z.H. Hu	333
Heat Transfer of Water Film Outside the Vertical Helix Tube with Hydrophilic Nanolayer	
Y.Y. Wang and Z.R. Zhang	339
Preparation and Properties Study on the Composites of Polypropylene and Polyphenylene Sulfide Filled by Modified Molybdenum Disulfide	
J.Q. Zhang, H.X. Feng and J.H. Qiu	345
Study of Rheology of Flame-Retardant Copolyester Nanocomposites	
Q.F. Zhao, X.W. Jiang, S.Y. Sun, M.H. Qu and Y.Z. Wang	351
Bioadhesive from Distiller's Dried Grains with Solubles	
C.Q. Fang, R. Auras and S.E. Selke	357
Preparation and Electrical Conductivity of Composites of PA66 Filled with Carbon Nanotubes	
F.C. Tsai, P. Li, X.P. Shang, N. Ma, L.C. Tsai and J.T. Yeh	363
The Model Reconstruction of Carbon Black/Rubber Composites' Heat Generation Ratio Based on Levenberg-Marquardt BP Algorithm	
Z.Z. Yu and L.X. Ma	369
CAE Analysis of the Big-Size Injection Mold of Rear Bumper	
Q.Z. Yin, R.K. Song, X. Zhang and B. Qi	375

Research on Microchannel of PMMA Microfluidic Chip under Various Injection Molding Parameters	
B.Y. Jiang, Y. Liu, C.P. Chu and Q.J. Qiu	381
A Study in the Adsorption Behaviors of Cr (VI) on Crosslinked Amphoteric Starches Synthesized through Using the Microwave Radiation Method	
L.X. Zou, Q.C. Liu, Q. Xu and J.H. Rong	387
The Mechanical and it Combined with Enzymatic Preparation Methods of Microfibrillated Cellulose	
W.S. Chen, H.P. Yu, Y.X. Liu and Q. Li	393
An Improved Mixing-Extruding Machine for Polyblends	
L. Li and C.S. Wang	398
Influence of Fine Content of Carbon Black Pellets during Pneumatic Conveying on Rubber and Mixing Process	
Y. Li	405
An Experimental Method for the In-Plane Deformation Measurement in a Sample of Transparent Polymeric Material	
X.L. Li, B. Liu, X.J. Li, Y.H. Qie, J.B. Sang and H.P. Jia	411
Characterization of Amorphous Silicon Thin Films Deposited on Upilex-s Polyimide Substrates for Application in Flexible Solar Cells	
Y.G. Li and D.X. Du	416
Biodegradable Poly(Lactic Acid)/Organic-Montmorillonite Nanocomposites: Preparation and Characterization	
N.L. Chen, H.X. Feng, H.M. Luo, D. Zhao and J.H. Qiu	422
PP/LDH Nanocomposites via Melt-Intercalation: Synergistic Flame Retardant Effects, Properties and Applications in Automobile Industries	
P. Ding, S.F. Tang, H. Yang and L.Y. Shi	427
Preparation of Polyacrylamide Nanofibers by Electrospinning	
L. Liu, W.W. Gu, W.T. Xu and C.F. Xiao	433
Studies on the Properties of Banana Fibers-Reinforced Thermoplastic Cassava Starch Composites: Preliminary Results	
X.Z. Mo, Y.X. Zhong, C.Q. Liang and S.J. Yu	439
The Study on Buckling Deformation of Composite Pressure Vessel Based on Acoustic Emission Signals	
Z.H. Hu, H.J. Liu, R.G. Wang, X.D. He and L. Ma	445
Expert System of Precise Injection Molding Process Optimization Based on Moldflow Software	
P.C. Xie, B. Du, Z.Y. Yan, Y.M. Ding and W.M. Yang	451
Structure and Property of PGMA/Wood Composite	
Y.F. Li, Y.X. Liu, J.T. Shi and G. Li	456
Research on the Thermal Oxidation and Ultraviolet Radiation Aging of Nano-ZnO/NR Composite	
T. Zhuang, T.K. Shan and L.L. Zhou	462
Analysis and Comparison of Vapor and Liquid Deposition of Pyrrole on Wool Fiber	
X. Jin, Y.Y. Wang and C.F. Xiao	468
Research on the Adjustable LAVAL Nozzle during Pneumatic Conveying	
D.M. Jiao	474
Physical Properties of Poly(urethane-methacrylate)s Plastic Sheets Produced from Different Polyols	
L.J. Gao, L.M. Zhou, S.M. Fang, H. Zheng, M. Hu and C.S. Liu	481
Impact on Tire Performance with Improvement of Semisteel Meridian Tire Lamination Processing	
C.S. Wang, P. Fu, S.H. Li and Y.D. Jiang	487
The Experimental Research of SMR/SBR Inner Tube with RIIR	
X.K. Zeng, C.S. Wang, H.G. Bian and L. Guo	493
Preparation of Anion Modified Montmorillonite-Polystyrene Nanocomposite by Suspension Polymerization	
Y. Wang, H.X. Feng and J.H. Qiu	499
Effect of Vulcanization and Shaping Process on Radial Force Variation of TBR Tire	
P. Fu, C.S. Wang, D.W. Zhang, H.G. Bian and Z. Pu	504

Research Method of the Rubber's Plasticization Technological Parameter Optimize on Open Mill by Neural Network G.Z. Wang	509
Structure and Properties of Chitosan Containing Polyacrylic Acid Hydrogel Grafted SMS Nonwovens X.P. Zhuang, W.J. Deng and B.W. Cheng	513
The Steady-State Temperature Field Analysis of the 3D Rolling Tire Based on Adina FEA Software J. Li, Y. He and Z.C. Chen	518
Polymer Material Application in Cold Insulation Structures X.L. Luo and B. Li	524
Periodic Mixing Performance in a Square Cavity for Different Frequencies B.P. Xu, Y.J. Liu and J.P. Qu	529
Dependence of Thermal Conductivity of Carbon Black Filled Rubber on Several Factors J.P. Song and L.X. Ma	536
Research on the Polymer Ultrasonic Plastification B.Y. Jiang, J.L. Hu, W.Q. Wu and S.Y. Pan	542
A Study on Influence of Resin Temperature on Filling Balance of Multi-Cavity Molds J.B. Chen, C.Y. Shen and H. Yokoi	550
Morphology of Biodegradable Poly(hexamethylene Adipate)(PHMA) Nanofibers Prepared by Electrospinning W.M. Kang, B.W. Cheng, Q.X. Li and X.P. Zhuang	555
Experiment Research on Maximum Power of the VIC Mixer F.Q. Yang, C.S. Wang, G.Y. Song and J. Xu	561
