The Xth International Conference X International Conference “Prospects of Fundamental Sciences Development” (PFSD-2013) was jointly organized by Tomsk Polytechnic University, Tomsk State University and Tomsk State University of Architecture and Building in April 23-26, 2013, Tomsk, Russia.

The conference had successfully gather young researchers like post-doc and students, and experienced researchers working in nanotechnologies, materials science, including chemical, physical and mathematical aspects of materials elaboration and application field in order to facilitate aggregation and sharing interests and results for a better collaboration and activity visibility.

The topics of the Conference were: (1) Physics: accelerator physics, condensed state physics, surface physics, the physical basis of radiation, electric discharge and plasma technologies, hydrogen energy, geophysics; (2) Chemistry: solid state chemistry, novel materials, physical-chemical methods in ecology, petroleum chemistry, and ecology, organic synthesis, biotechnology, catalysis; (3) Mathematics: mathematical modeling and data analysis, mathematical methods in physics, chemistry, biophysics, biology, economics, ecobiology, ecogeology, medicine, psychology, mathematical logic and applications, computational mathematics, differential equations; (4) Nanomaterials and Nanotechnology: nanomaterials synthesis, physical, chemical and biological properties of the nanoparticles, and methods of diagnosis and research of nanomaterials, metal-, plastic, carbon and composite nanomaterials, application of nanomaterials; and (5) Technology: architecture and construction, electrical engineering, optics, geo-engineering, mechanics.

We want to thank the Organizing Committee, the Universities and Sponsors supporting the conference, and everyone who contributed to the organization of this meeting, for their contribution towards the conference and for their contributions to this proceeding.

The Organizing Committee of PFSD-2013
Committees

Co-Chairs

Prof. Irina Kurzina, Tomsk State University, Russia  
Dr. Gulnara Voronova, Tomsk Polytechnic University, Russia

International Committee

Prof. Ugo Bardi, Dipartimento Di Chimica - Universita' di Firenze, Italy  
Dr. Cadete Santos Aires, Institut de Recherches sur la Catalyse, France  
Prof. Zahar Boumerzoug, University of Biskra, Algeria  
Prof. Vladimir Golovanevskiy, Mining Curtin University, Australia

Program and Organizing Committees

Prof. Andrey Boronin, Boreskov Institute of Catalysis SB RAS, Russia  
Prof. Olga Vodyankina, Tomsk State University, Russia  
Prof. Alexandr Glezer, Kurdymov Institute for Metal Physics and Functional Materials, Russia  
Prof. Oleg Dolmatov, Tomsk Polytechnic University, Russia  
Prof. Alexey Yakovlev, Tomsk Polytechnic University, Russia  
Prof. Oleg Khasanov, Tomsk Polytechnic University, Russia  
Prof. Konstantin Yeltsov, Prokhorov General Physics Institute RAS, Russia  
Prof. Eduard Kozlov, Tomsk State University of Architecture and Building, Russia  
Prof. Nina Koneva, Tomsk State University of Architecture and Building, Russia  
Prof. Larusa Kurina, Tomsk State University, Russia  
Prof. Vladimir Lopatin, Tomsk Polytechnic University, Russia  
Prof. Vladimir Pichugin, Tomsk Polytechnic University, Russia  
Prof. Yury Slizhov, Tomsk State University, Russia  
Prof. Yury Tyurin, Tomsk Polytechnic University, Russia  
Prof. Ivan Tschemnov, Tomsk Polytechnic University, Russia  
Dr. Alexey Tskhe, Tomsk State University of Architecture and Building, Russia  
Prof. Anna Yankovskaya, Tomsk State University of Architecture and Building, Russia  
Dr. Anna Godymchuk, Tomsk Polytechnic University, Russia  
Dr. Anna Bogdan, Tomsk Polytechnic University, Russia

Sponsors

1) Russian Fund for Basic Research, Russia  
2) Bruker Corporation, Germany  
3) Authority of Tomsk Region, Russia  
4) Tomsk Integrated House-building Company, Russia  
5) Tomsk Social Organization “KNOWLEDGE”, Russia
