

Table of Contents

Preface, Committee and Sponsor

Chapter 1: Materials Science and Processing

Experimental Study on Connections of Superimposed Slabs K.W. Ding, F. Wu and Y.L. Liu	3
Calculation and Analysis of the Thermal Performance of a New Type of Rock Wool Color Steel Sandwich Board K.W. Ding, C. Cheng, Y.Q. Hao and S. Xia	8
Source Apportionment of Heavy Metals (Pb, Cd, As, Hg) in PM_{2.5} and PM₁₀ in a City in China Z. Li, R.L. Zou, J.S. Li, J. Huang and B.H. Zhu	14
Effects of Copper Extraction-Stripping Loops on Entrainment in Aqueous Raffinate Y.J. Liu, X.R. Liu, H. Li, Y.S. Li, Q. Li and Y. Liu	18
Improvement of Operational Reliability with Material Properties for Aircraft Equipment J. Li, L.M. Chang, Y. Zhan and X. Li	22
Application Research of Environmental Friendly Material for Architecture F.F. Yang	26
Test and Application of High Performance Concrete P. Tan, Y.M. Zhao and Q.H. Meng	30
Study on the Brush Plating Technology of High-Temperature Alloy J.X. Li and J.J. Huang	34
The Influences of Process Parameters on Properties of CrN_x Coatings Deposited by Closed Field Unbalanced Magnetron Sputtering X.M. Xu, H. Zhang, Y.B. Jin, H.C. Zhang and S.W. Duo	38
Synthesis and Characterization of a New Type of Highnuclear Lanthanide – Cobalt Carboxylate Cluster Complex O.E. Byambasuren, F.H. Bai, Y.X. Zhang and H.Q. Su	42
Improvement Research of Organic Phenolic Gel being Used to be an Organic Deep Profile Control Agent Y.L. Liu and Y. Qin	46
Application of Titanium Metal Materials and Bone Tissue Engineering in Exercise-Induced Bone Injury Repair M. Zhao	51
A Conductivity Model for Inequigranular Sandstones Based on Material Properties with Pore Geometric Conduction Theory and Effective Medium Conduction Theory X.M. Tang, T. Wang, Y.J. Song and Y.L. Ren	55
Feasibility Study on Sprayed FRP Used in the Seismic Strengthening of Concrete Frame Joints Z. Yang, D. Wu and Z. Yang	59
Preparation and Dielectric Property of Al₂O₃ Surface Coating Modified BaTiO₃/Polyimide Composite Film Y.J. Wang, X.J. Wu and C.G. Feng	63
Corrosion of an Austenitic Heat-Resistant Steel HR3C in High-Temperature Steam and Supercritical Water Y.H. Li, S.Z. Wang, X.D. Li and J.M. Lu	67
Analysis on the Structure and Mechanism of Cracking and Spalling for Super304H Steel Oxide Films in High-Temperature Steam Y.H. Li, S.Z. Wang, X.D. Li and M.M. Ren	72
Research on a Surface Shot Peeling Process for Increasing the Anti-Oxidation Property of Super304H Steel in High-Temperature Steam Y.H. Li, S.Z. Wang, P.P. Sun and X.D. Li	77

Numerical Analysis on Heat Transfer and Oxidation Characteristics of High-Temperature Steam Pipes in Supercritical Units P.P. Sun, S.Z. Wang, Y.H. Li and X.D. Li	81
Study on Rock Conductive Law of Sandy Conglomerate Reservoir Based on Properties of Construction Materials X.M. Tang, Y.J. Song, J. Fu, L. Hou and X. Deng	85
Study on Calculation Formula of Seismic Shear Capacity of the Core of Concrete Frame Joint Strengthened by Sprayed FRP Z. Yang, C. Wu and Z. Yang	89
Study on the Corrosion Behaviour of Nickel-Base Alloy 625 in Landfill Leachate Treated by Supercritical Water Oxidation M.Y. Xiao	93
A Nonlinear Catastrophic Model of Isolated Rock Pillar Instability and its Chaotic Behaviour Based on Material Properties X.H. Zhang, X.L. Ren and D.C. Liu	98
A Constitutive Model of Rocks under Uniaxial Tension D.Q. Liu	103
Research on Package Materials with Properties of Packaging Materials for the Tianjin Port Throughput Prediction and Analysis M. Zhang and R. Pan	107
Effect of Temperature on CO₂/H₂S Corrosion of Oil Tube Steels Y. Wang	111
Study on Mechanical Properties of Rebar HRB400 after Corrosion P. Li and Y. Wang	115
Effect of Compression Storage on Adsorption Property of Silicone Rubber in Silicone Interfacial Systems Q. Yang, X.P. Wen, C.M. Sun and G.P. Tang	119
Study on Structural Properties of Gallium and Titanium Doped Zinc Oxide Films Deposited by Magnetron Sputtering S.B. Chen and Z.Y. Zhong	124
Research on the Construction Materials with the Construction Planning of Modern Industry Region in the Historic Cities: Taking the Luoyang in Henan Province as Example X.P. Zhao	129
Study on Biological Materials with Flavonoid Active Compounds of <i>Apocynum venetum</i> L. Y.Q. Zhong, Y.L. Liu, W.G. Zhang, J. Yang and L. Cheng	133
Influences of Molding Pressure on Products Morphology and Carbonated Efficiency of Calcium Hydroxide M.L. Cao and Y. Li	137
Mechanics Performance of Cement Mortar Modified by Carboxylic Styrene Butadiene Latex J.Q. Wang	141
Experimental Study on the Solubility of O₂ and N₂ in the Liquid Oil at Low Pressure C. Ding, Y.F. Tang, X.H. Zhang, J.J. Yao and J. Wang	145

Chapter 2: Chemical Materials and Technologies

Effect of Na₂WO₄ Content on the Crystallization Temperature of NaCl-KCl-Na₂WO₄ Molten Salt System J. Li, Y. Pei, Y.B. Liu and Y.G. Li	155
Effect of Na₃WO₃F₃ Content on the Liquidus Temperature of NaCl-KCl-Na₃WO₃F₃ Molten Salt System J. Li, Y. Pei, Y.B. Liu and Y.G. Li	159
Study on the Conditions of Oxidation of Nitrogen Dioxide and Nitrite by Manganese Dioxide Z.L. Huang, S.P. Feng, S.Y. Yin, L.Z. Hui, Y. He and Y. Jiang	163
Study of Solubility of WO₃ in the NaCl-KCl-NaF-WO₃ Molten Salt J. Li, Y. Pei and Y.G. Li	167
Effect of Temperature on Solubility of WO₃ in the NaCl-KCl-NaF-WO₃ Molten Salt J. Li, Y. Pei and Y.G. Li	171

Nitrogen Removal with Nitrification and Denitrification via Nitrite J. Xiao and J.H. Tang	175
Study on Sulfur Retention Characteristics for Bio-Briquette G.Q. Su, C. Zhang and H.B. Lu	179
Performance of Sodium Chlorite/Urea on Simultaneous Desulfurization and Denitrification in a Rotating Packed Bed H.G. Wu, M. Jin, F. Wang, G.X. Yu and P. Lu	183
Simultaneous Absorption of SO₂ and NO Using Sodium Chlorate/Urea Absorbent in a Rotating Packed Bed M. Jin, G.X. Yu, F. Wang and P. Lu	187
The Conjecture of Obtain C₄H₆O⁺ Fragments by Cyclicketone Ion Excited State H.B. Chen, Y. Zhu and J. Wu	191
Comparative Study on the Effect of Preparation of TiO₂ and the Photocatalytic Degradation of Phenol Based on the Biological Template J. Wang, L.D. Sun, Z.J. Li and Y.H. Tang	195
Synthesis of Inosine Polyphosphates from Inosine 5'-Phosphate J. Sun, S.S. Gong and Q. Sun	199
A Novel Synthesis of Acyclovir Polyphosphates via Acyclovir Phosphoropiperidate Intermediate X.J. Li, S.S. Gong and Q. Sun	203
Practical Synthesis of β,γ-Bridging Oxygen-Modified Stavudine 5'-Triphosphates Y.H. You, S.S. Gong and Q. Sun	207
Efficient Synthesis of d4T Diphosphate and d4T Triphosphate Z.B. Xie, S.S. Gong and Q. Sun	211
Solid-Phase Synthesis of Pyrrole-Imidazole Polyamides by Resin L.Y. Mo, Y.L. Wu, M.R. Liu, X.L. Chen, Y.P. Ding and W. Zhang	215
Research on Biological Materials with Oxazinone Derivatives Induce Apoptosis in HT-29 Cells Y.L. Wu, L.W. Shen, Y.P. Ding, C.H. Wei, Y. Tanaka and W. Zhang	220
Aggregation-Induced Emission of New Tetraphenylethene-Thiophene Hybrid and Application as Sensitive Chemosensor J. Wang and H. Yu	224
The Analysis for Fluroxypyr Ester by Liquid Chromatography Z.L. Chen and H.J. Zhu	228
Contribution of H₂ during the Two-Phase Anaerobic Digestion F. Yin, W.D. Zhang, L. Xu, J. Liu, H. Yang and X.L. Zhao	235
Review of Supercritical Water Oxidation in Hydrothermal Flames L.L. Qian, S.Z. Wang and Y.H. Li	239

Chapter 3: Mechanical Engineering and Applied Mechanics

Study on the Vortex Ring State of Helicopter and Flight Training Operation Y. Qian, X.J. Xiang and J.L. Yang	245
Comparison of Hydrodynamic Performance of Ducted Propeller and Ordinary Propeller on Trawler C. Li and Z.X. Chen	249
Research on Mechanical Dynamics in DC Servo Motor Adjustment System Based on Applied Technology H.Y. Wang and B. Liu	256
Research on Mechanical Mechanics with Optimization and Upgrading of Public Bicycle System Based on "Wuhan" Mode J.Y. Wang, T.W. Lu and M. Tu	260
Numerical Simulation of Unsteady Aerodynamic Loads over an Aircraft X.J. Xiang and Y. Qian	264
Testing Study and Mechanics Analysis on Fatigue Life of MSD Structure J.F. Zhao and Q. Zhao	269

The Analysis and Research of Robust Performance Based on the Permanent Magnet Synchronous Linear Motor	
X.J. Wang	273
Influence of Gas-Liquid Distribution Inducer on Mass Transfer Coefficient in Rotating Packed Bed	
F. Wu, J. Wu, M. Jin, F. Wang and P. Lu	277
Finite Element Analysis of Drilling Frame on Down-the-Hole Drill Based on Mechanical Mechanics and Mechanical Properties	
W.R. Wu and L. Chen	282
Experimental Study on Critical Load of Compression Column with a Rectangular Cross-Section Based on Material Mechanics	
S.C. Zhuo, Q. Zhang and S.C. Li	287
Down-the-Hole Drill Position Based on Mechanical Mechanics and Binocular Stereo Vision	
W.R. Wu and J. Shi	291
Mechanism Study on the Impact of Low Pressure Accumulator with Mechanical Mechanics to Hydraulic Impactor	
Z.Y. Cao, X.Y. Huang and W.R. Wu	296
Experimental Study on the Influence of Injection Timing on Combustion and Emission of Biodiesel Engine Based on Mechanical Mechanics	
D.M. Lou, Y. Wu, Z.Y. Hu, P.Q. Tan and J.J. Lin	301
Stress Research and Finite Element Analysis of Pile Clamping Mechanism of Hydraulic Static Pile Driver	
J.P. Hu, H.D. Zhu and K.J. Li	310
Dynamic Analysis and Applied Technology in New Anti-Jamming Hydraulic System with Fast Response	
C.L. Luo, W. Yu and Z.W. Chen	315
Study of Control Method Based on Hydromechanics for Hydraulic Impact of Open Hydraulic System in Concrete Pump	
W.R. Wu and Z.W. Mao	320
Mechanical Mechanics and Calculation Method Research for Main Steam Flow of Turbine	
Z.X. Wang and B. Li	326
Mechanical Mechanics and Application of High Speed On/Off Valve to Feeding System of Hydraulic Drilling Rig	
W.R. Wu and Z. Xu	330
Dynamic Analysis of Hammer Buffer System Using Pseudo-Bond Graph Simulation Method	
J.P. Hu, K.J. Li and H.D. Zhu	335
On the Strengthening Methods of Steel Grid Structures Lifting	
L. Ge	340
Studies on the Effect of Altitude on the Flammable Liquids' Flash Point	
Y.F. Tang, C. Ding, Y.P. He, D.C. Zhou and J. Wang	345
Simulation of Two-Stage Fuel Reactor Chemical Looping Hydrogen Process Using Solid Fuel	
L.F. Wang, S.Z. Wang and M. Luo	349

Chapter 4: Environment, Environment Protection and Energy Engineering

Analysis and Design of Environmental Protection and Energy Saving in Modern Society Building	
J. Zhao	355
Tourism-Related Pay for Environmental Services: An Important Tool for Environmental Management	
M. Liu and A.L. Liu	359
Study on the Optimal Use of Land from the Perspective of Soil Ecological Value	
Y.L. Hu, Z.L. Xi and L.H. Li	366
Exploration of the Influence of the Environmental Temperature and Thickness of Fat on Heat Release	
C.W. Zhang	370

Research of City Environmental Pollution and City Planning for the Future P. Zhang	375
The Development Mode of the Livable Environment Construction of Shenyang Tiexi Old Industrial Relocation Zone W. Cheng, L.J. Chai and C. Cheng	379
Effect of EPS on Membrane Pollution in IMBR K. You, J. Liu and Y.S. Yuan	383
A New Prediction Method of Soil Pollution Z.Y. Yu, X.L. Chen and Z.T. Qiu	387
Study of Ecological Environment on Assessment Model of Ecosystem Damage Caused by Oil Spill in Ocean W.F. Liu, S.X. Zhang, W. Liu and L.L. Zhou	392
Research on Modern Urban Environmental Construction from Inspiration of the Chinese Ancient Ecological C.Y. Wu	396
Research on Evaluation System and Environmental Construction for Energy-Efficiency about the Residential Buildings S.P. Mao, Z.X. Zou, Y.X. Xue and Y.L. Li	400
Analysis of the Atmospheric Visibility in Nanchang City and the Main Effect Factors J.L. Wang, X.F. Yan, S. He and F. Liu	404
Application of Video Capture Theory in Municipal Solid Waste Classification P. Cai, K. Wang, S.T. Kong and J. Li	408
Technology Application and Stress Analysis in Quayside Container Crane's Design of New Energy-Efficient Power Generation System R. Pan, F.T. Fang, D.Y. Ma and M. Zhang	412
Comparative Environmental Analysis of the Effects of Different Salinity Levels on Growth and Physiological Status of <i>Nipponbare</i> Rice J. Fan and L.P. Chen	416
Research on Environmental Protection and Environmental Analysis of Travel Mode Choice under the Guidance of Environmental Protection Ideas X.S. Liu and R. Pan	421
Numerical Study of Water Exchange in Environment Engineering in Pulandian Bay H. Chen, F.L. Chen, Y.Y. Zhu, M. Zeng, C. Sun and Q. Bao	425
Study on Environment Protection and Pedestrian Evacuation Characteristic in Subway Fire J.R. Tian, D. Liang, T.T. Liu and X.Q. Zhou	429
Natural Gas Load Forecasting with Analysis of Environmental Resources Based on Gray Model W.Y. Shi	433
Study on High-Temperature Working Environment with the Excretion and the Levels <i>In Vivo</i> of Vitamin C among Heat-Exposed Workers W.T. Liu, Y.M. Tang, D.G. Wang, Y.X. Li and Z.Z. Tian	437
Characteristics of Particle Matter Pollution and its Control in Beijing C. Qiu, C.L. Ye and L.Y. Yang	441
Study on Building Energy Saving Techniques and Ways in China F.F. Yang	445
Research on Views of Energy and Design Technology for Green Building P. Zhang	449
Study on Environment Protection and Construction of Corporate Social Responsibility Index System Y. Wu and Z.X. Dong	453
Hydrothermal Treatment Technology of Municipal Sewage Sludge L.L. Qian, S.Z. Wang and X.Y. Tang	457
Research on Energy and Environment Engineering with Heat Transfer in the Geothermal Heating System with Horizontal Wells M.M. Lv, S.Z. Wang, X.R. Luo and M. Luo	461
Design and Study on Ocean Energy with the Horizontal Axis Tidal Current Turbine's Blade Especially for China's Low Tidal Current Velocity W.Q. Zhu, B.G. Wu, S.X. Li, Y.J. Dong and J.F. Guo	465

Environment Research with Development and Application of a Low Cost and Long Life Ice Buoy for Arctic Environment Monitoring Y.J. Dong, W.Q. Zhu, Y. Zhao, J.M. Chen and J.F. Guo	469
Research on Pollutant Emission CEMS Remote Monitoring System Based on WEB and CAN Bus Y.J. Zhao, C.B. Gao and B. Qu	473
A SoC Controller for Energy Saving and Environmental Protection L.M. Liu	477
Research on Decontamination of Chemical Accident Disposal to Reduce the Harm to the Environment Y.Y. Wang and B.Q. Wang	481
Research on Groundwater Pollution with Contour Line Realization Methods Based on Monitoring Data by COMGIS P. Jing	485
The Method to Display the Distribution of Groundwater Pollution Dynamically with COMGIS Based on Visual Developing Platform P. Jing	489
A Survey of Coagulating-Based Treatment of Printing and Dyeing Wastewater S.F. Zhong, J.W. Mo and Y.P. Liu	493
Contaminant Trasportation of Cd²⁺ in the Cushion System of the Municipal Waste Landfill J.J. Fan	499
Influence of Compact Clay Layer on the Seepage Performance of the Municipal Solid Waste Landfills J.J. Fan	503

Chapter 5: Information and Applied Technology

Applied-Information Technology in Research of Security Processing Based on IOT Data W. Jiang and F. Yang	509
Research on Applied Technology in Experiments with Three Boosting Algorithms X.W. Sun and H.B. Zhou	513
Applied Information Technology and Electronic Materials in Interpretation X.Z. Tian	517
Applied Mechanics and Applied Technology in Gully Erosion Measurement Based on Computer Vision with a Reference X. Wu, M. Chen and Q.Y. Li	521
Applied-Information Technology and Electronic Material in Construction and Research on the Web Citations Accessibility X. Deng, Z. Zheng, S.G. Han and X.X. Shen	526
Research on Applied Technology with Bluetooth Technology in Design of Multifunctional Teaching System Y.J. Dong	531
Applied-Information Technology in Supply Chain Knowledge Collaborative Model Based on Semantic Web Service X.B. Yang	535
Applied-Information Technology and Parallel Learning Rules in Intelligent Control System W.Q. Ye, K.L. Cheng and L. Xu	539
Applied Information Technology in Graphics Algorithm Implementation Based on the Web Canvas W.T. Liu	543
Optimization Technology of PID Parameter in Control System Based on Improved Particle Swarm Optimization Algorithms T.S. Huang, X.Q. Li, H.Y. Lian and Z.Q. Zhang	547
Symmetrical Effective Medium Resistivity Model with Sorting for Sandy Conglomerate X.M. Tang, Y.J. Song, Y.N. Cao and X. Deng	551
Image Processing Technology Research of On-Line Thread Processing E.B. Peng and G.T. Zhang	555

Research on Electronic Technology in Risk Analysis of Power System Based on Electronic Materials and Geomagnetic Storm Scene Model W.L. Wu	559
Research on Applied Technology with Development of Modern Computer Simulation Technology X.Q. Xu	563
