

Preface

Nowadays, More and more experts and scholars are paying their attention on Mechanical, Material Science and Aerospace Science and Technology, It is very important to combine these together from the angle of theory and practice in the field of industrial engineering. The 2014 4th International Conference on Machinery, Materials Science and Engineering Applications (MMSE 2014) will provide a good platform once again for scientists and engineering managers to exchange their thoughts and cooperation. we will have two important forms to hold this international conference: Specialist reporting and Group reporting, to discuss and share the newest important academic thought and academic achievements in Mechanical , Manufacturing Engineering, Material Engineering and others.

The 2014 4th International Conference on Machinery, Materials Science and Engineering Applications (MMSE 2014) is hold by Wuhan University of Science and Technology, Co-Sponsored by University of Tesside, University of Huddersfield, University of Nottingham ,Hubei Mechanical Engineering Society.

We will have about 150 representatives from domestic and overseas to attend this international conference, Here ,I'd like to express my sincere gratitude to those leaders, Colleges and Universities, Research Institutes,Companies and all representatives, appreciate your great support on MMSE 2014.

Thank you!

Best wishes for successful work during this conference.

Have a nice day!
