

Table of Contents

Preface, Committee and Acknowledgement

Analysis of Thermal Conductivity of Lime Plaster with Pozzolanic Addition by Different Homogenization Techniques

J. Fořt, L. Fiala, M. Pavlíková, Z. Pavlík and R. Černý 1

Moisture Transport Properties of Hydrophilic Mineral Wool

J. Pokorný, M. Pavlíková, J. Žumár, Z. Pavlík and R. Černý 6

Application of TDR Method for Moisture Profiles Measurement in Cellular Concrete

L. Fiala, M. Pavlíková and Z. Pavlík 11

Adsorption of Water Vapor in Selected Sandstone Influenced by Different Method of Measurement Using Dynamic Vapor Sorption Device

J. Žumár and Z. Pavlík 16

Effect of Porosity on Mechanical and Hygric Properties of Concrete with Natural Pozzolan Addition

T. Kulovaná, P. Rovnaníková, Z. Pavlík and R. Černý 22

Effect of Zeolite Admixture on Freeze/Thaw Resistance of Concrete Exposed to the Dynamic Climatic Conditions

V. Kočí, M. Jerman, J. Maděra and R. Černý 27

Influence of Casting Direction on the Mechanical Properties of Cementitious Fiber Reinforced Composites

M. Tvarog and J. Fornůsek 32

Restrained Shrinkage Test of High Performance Concrete Ring Specimen

A. Zemanová, R. Sovják and J. Litos 38

Retention Curves of Different Types of Sandstone

M. Záleská, M. Pavlíková, Z. Pavlík and R. Černý 44

Comparison of Two Different Modes of Inverse Analysis Used for Determination of Moisture Diffusivity of Building Materials

J. Kočí, Z. Pavlík and R. Černý 49

Determination of Hygric Properties of Hollow Brick Block as a Function of Moisture Content

T. Korecký, M. Jerman and R. Černý 54

Production and Use of the Textile Reinforced Concrete

F. Vogel 59

Moisture Migration in High Strength Concrete

M. Benáková, T. Kulovaná and M. Jerman 63

Application of Digital Optical Microscopy in Materials and Mechanical Engineering: Optical Porosimetry and Crack Detection

K. Durana and R. Černý 68

Mechanical Behavior of the Cement Mortar with High Amount of Municipal Solid Waste Incineration (MSWI) Bottom Ash as an Alternative Aggregate

K. Polozhiy, M. Keppert, M. Jogl and R. Černý 74

A Comparative Study on Thermal Properties of Two Types of Concrete Containing Fine Ceramic Waste and Burnt Clay Shale as a Supplementary Material

L. Scheinherrová, A. Trník, E. Vejmelková, P. Reiterman, I. Medved' and R. Černý 79

Numerical Study of the Influence of Internal Blast on the Earth Covered Composite Arch

J. Fornůsek and J. Zatloukal 84

Heat and Water Vapor Transport Properties of Selected Commercially Produced Plasters

M. Čáchová, D. Koňáková, E. Vejmelková, M. Keppert, K. Polozhiy and R. Černý 90

Fracture Surface Measurement of Concrete with Respect to Loading Speed

M. Mára and P. Maca 94

Thermal Properties of Selected Timbers

D. Koňáková, M. Čáchová, E. Vejmelková, M. Keppert and R. Černý 100

Poré Structure and Thermal Characteristics of Clay Bricks

M. Čáchová, D. Koňáková, E. Vejmelková, M. Keppert, K. Polozhiy and R. Černý 104

New Type of Lightweight Gypsum-Based Material

A. Vimmrová 108

Residual Strength of Thermally Loaded Mortars with Treated Municipal Solid Waste Incineration Fly Ash Used as Supplementary Cementitious Material M. Keppert and K. Polozhiy	114
Influence of Different Mechanical Properties to the Concrete Penetration Resistance T. Vavřiník and J. Zatloukal	119
Influence of High-Temperature on Polycarboxylate Superplasticizer in Aluminous Cement Based Fibre Composites M. Jogl, P. Reiterman, O. Holčápek and J. Kořátková	125
Development and Mix Design of HPC and UHPFRC P. Reiterman, M. Jogl, V. Baumelt and J. Seifrt	130
Properties of Cement Composites Containing Coir Pith E. Vejmelková, D. Koňáková, A. Krojídlová, V. Hovorková, M. Čáchová, P. Reiterman and R. Černý	136
Mechanical and Rheological Properties of Aluminous Cement under High Temperatures O. Holčápek, P. Reiterman and P. Konvalinka	141
Destructive and Non-Destructive Testing of High Temperature Influence on Refractory Fiber Composite O. Holčápek, P. Reiterman, M. Jogl and P. Konvalinka	145
Differences in the Properties of Arenaceous Marlstones from Different Quarries E. Vejmelková, M. Čáchová, D. Koňáková, M. Keppert, P. Reiterman and R. Černý	149
Cement Composites for High Temperature Applications D. Koňáková, E. Vejmelková, V. Spedlova, K. Polozhiy and R. Černý	154
