

Preface

International Conference Advances in Engineering and Management - ADEM is organized by the University of Craiova, Faculty of Mechanics, Department of Engineering and Management of the Technological Systems. The conferences started in 2010, are held every two years, and reach the sixth edition in 2020. Due to the pandemic situation, in 2020, the conference was online and was organized in collaboration with Pronanomat Association.

Researchers from prestigious universities, research centers, and industrial enterprises took part in the ADEM 2020 International Conference. As a result, there were presented more than 13 papers from Romania and abroad.

The book is structured in 2 chapters according to ADEM 2020 conference sections:

- Management and Industrial Engineering
- Transportation and Logistics

Thanks from organizers are brought to the invited speakers and to all the authors who participated in the conference and share their research and experience. Also, special thanks are brought to all those whose work is less visible, reviewers, members of the scientific committee, and those who were involved in the organization.

The realization of this scientific event was also possible due to the important financial involvement of our generous sponsors, whom, as organizers, we would like to thank.

Executive Chairman,
Assoc. Prof., PhD. Mihai DEMIAN
