

Preface

The 29th International Conference Concrete Days 2023 (CD 2023) was held on November 7-8, 2023, in Hradec Kralove, Czech Republic. The conference was organised by the Czech Concrete Society.

The conference focused on modern concretes and concrete structures, discussed modelling and design of concrete structures, bridges, tunnels, and buildings, properties of concretes as well as significant structural projects and their realizations.

Selected scientific papers were published in this edition to present recent research results in the area of innovative approaches in bridge engineering. The covered topics of the publication include static and dynamic analysis of bridges and bridges' concrete elements, analysis of their stability and reliability, methods of inspection and diagnosis of real structures, etc. This issue will be helpful to engineers and researchers in the area of bridge design and operation.

The conference organizing committee would like to express thanks to all authors, participants, reviewers and editors for making this conference successful.

29th Concrete Days 2023
Organizing Committee

Scientific Committee

Dr. Ing. Miloš Zich, Ph.D. – Chairman

Ing. Robert Coufal, Ph.D.

Prof. Ing. Petr Hájek, CSc.

Ing. Milan Kalný Ing. Pavel Kasal, Ph.D.

Prof. Ing. Alena Kohoutková, CSc., FEng.

Prof. Ing. Jiří Kolísko, Ph.D.

Ing. Radomír Pukl, CSc.

Ing. Michal Števula, Ph.D.

Ing. Vladimír Veselý

Prof. Ing. Jan L. Vitek, CSc., FEng
