

Table of Contents

Preface

Chapter 1: Wastewater Treatment and Water Supply

Influence of pH on the Sorption Capacity of Transcarpathian Bentonite from the Ilnytsky Deposit V. Kochubei, Y. Yaremchuk, S. Yaholnyk and M. Malovanyy	3
Technological Features of Water Treatment for Printing Companies O. Krykhovets, V. Repeta, O. Rubay and O. Holodovska	15
Refined Dependencies for Hydraulic Calculations of Water Supply Pipelines O. Tkachuk, M. Kizieiev and O. Shevchuk	23

Chapter 2: Decarbonization and Environmental Biotechnologies

Review of Modern Gas Emissions Decarbonization Strategies O. Lopushanskyi	35
Transforming Cyanobacterial Waste into Effective Organo-Mineral Fertilizers M. Malovanyy, V. Nykyforov, I. Tymchuk, V. Tymchuk and K. Yatsukh	45
Energy and Fertilizer Recovery from Cavitated Cyanobacterial Slurries V. Nykyforov, M. Malovanyy, I. Tymchuk, O. Kushnir, P. Matviiv, M. Karachun and N. Grytsenko	55
Modeling of Biological Air Purification Systems in Closed Environments V. Dyachok, L. Venher and R. Diachok	65

Chapter 3: Water Resources, Hydrochemistry and Ecological Status of Aquatic Systems

Ecological Studies of Hydrochemical Characteristics of Wastewater from Rock Dumps O. Mandryk, K. Baraban, M. Khovanets, I. Malaniuk and O. Torskyi	77
Physicochemical Characteristics and Hydrochemical Typology of Waters in the Yavoriv National Nature Park V. Sabadash and A. Sereda	93
Multifractal Analysis and ARFIMA Modeling in Predicting Organic Pollution of the Danube River M. Bordun and Y. Sokolovskyy	109
